(VI) MANAGEMENT'S PERCEPTION OF RISK FACTORS:

The Issuer believes that the following factors may affect its ability to fulfill its obligations under the Debentures issued under the Private Placement Offer Cum Application Letter (hereinafter referred to as PPOAL). All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. In addition, certain factors which are material for the purpose of assessing the market risks associated with Debentures issued under the PPOAL are also described below.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Debentures issued under the PPOAL, but the inability of the Issuer, as the case may be, to pay interest, or other amounts, if any, on or in connection with any Debentures may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Debentures are exhaustive. Prospective investors should also read the detailed information set out elsewhere in this PPOAL and reach their own views prior to making any investment decision.

The Debentures are sophisticated instruments, can involve a high degree of risk and are intended for sale only to those Investors capable of understanding the risks entailed in such instruments. Investors are strongly recommended to consult with their financial, legal, tax and other professional advisors before making any investment decision.

The following are the risks envisaged by the management and Investors should consider the following risk factors carefully for evaluating the Company and its business before making any investment decision. Unless the context requires otherwise, the risk factors described below apply to the Company only. If any one of the following stated risks actually occur, the Company's business, financial conditions and results of operations could suffer.

Note: The risk factors herein are not exhaustive and unless specified or quantified in the relevant risk factors, the Company is not in a position to quantify the financial or other implications of any risk mentioned herein below:

PROSPECTIVE INVESTORS ARE ADVISED TO CAREFULLY READ THESE KEY RISKS ASSOCIATED WITH THE DEBENTURES. THESE RISKS ARE NOT, AND ARE NOT INTENDED TO BE, A COMPLETE LIST OF ALL RISKS AND CONSIDERATIONS

RELEVANT TO THE DEBENTURES OR YOUR DECISION TO PURCHASE THE DEBENTURES. THIS PPOL IS NOT, AND DOES NOT PURPORT TO BE, INVESTMENT ADVICE.

- (a) **Uncertain Trading Markets and liquidity risk**
Presently the Debentures are not proposed to be listed on any stock exchange and such there is no liquidity of trading at any stock exchange. However, the Debentures are transferable as per the provisions of law. Investors should be prepared to hold the Debentures until maturity as Investors may not be able to liquidate or sell some or all of the Debentures as and when they require or at an amount equal to or more than the invested amount. There is currently no active or liquid secondary trading market for these Debentures. The Company cannot assure Debenture Holders that a trading market for their Debentures will ever develop or be maintained.
- (b) **Interest Rate Risk of the Debentures**
Investors are exposed to the movement of interest rates whenever their Debentures are transferred prior to maturity. As interest rates move upwards, the value of the Debentures generally fall. Moreover, the longer the tenor of the Debentures, the more sensitive the Debentures will be to interest rate changes.
- (c) **Compounding of Risks**
An investment in the Debentures involves multiple risks and such investment should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the applicable interest rates, etc., the risks associated with such investments and the terms and conditions of the Debentures. More than one risk factor may have simultaneous effects with regard to the Debentures such that the effect of a particular risk factor may not be predictable. In addition, more than one risk factor may have a compounding effect, which may not be predictable. No assurance can be given as to the effect that any combination of risk factors may have on the value of the Debentures.
- (d) **Credit Risk** : The Company carries the risk of default by borrowers and other counterparties. Any lending and investment activity is exposed to credit risk arising from the risk of repayment default by the borrowers and counterparties. The Company has institutionalized a systematic credit evaluation process monitoring the performance of its asset portfolio on a regular and continual basis to detect any material development, and also constantly evaluates the changes and developments in sectors to which it has substantial exposure.
- (e) **Interest Rate Risk**: The Company's business is dependent on interest rate regime in the economy. Interest rates are highly sensitive to many factors beyond its control, including the policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions, inflation and other factors. Due to these factors, interest rates in India have historically experienced a relatively high degree of volatility.

- (f) **Access to Capital Markets and Commercial Borrowings:** The Company's growth will depend on its continued ability to access funds at competitive rates. With the growth of its business, the Company is increasingly reliant on funding from the debt capital markets. The market for such funds is competitive and its ability to obtain funds at competitive rates will depend on various factors. If the company is unable to access funds at an effective cost that is comparable to or lower than its competitors, the Company may not be able to offer competitive interest rates for its loans. This may adversely impact its business, its future financial performance.
- (g) **Operational and Systems Risk:** The Issuer is faced with operational and systems risks, which may arise as a result of various factors viz. like improper authorisations, inappropriate documentation, failure in maintenance of proper security policies, frauds, inadequate training and employee errors, failure or malfunction beyond the control of the Company of any telecommunication or computer system including, computer hacking, unauthorised access to computer data and storage devices, computer crashes, data loss, breach of confidentiality, network security, etc.
- (h) **Credit Risk of Issuer:** While, the repayment of sums due at maturity is provided by the Issuer, Investors should be aware that the Debentures are unrated and receipt of any coupon payment and Principal Amount at maturity on the Debentures is subject to the credit risk of the Issuer. Investors assume the risk that the Company may not be able to satisfy their obligations under the Debentures and Investor may or may not recover all or part of the Principal Amount in case of default by the Issuer.
- (i) **Material Changes In Regulations:** NBFCs in India are subject to detailed supervision and regulation by the RBI. In addition, the Company is subject generally to changes in Indian law, as well as to changes in government regulations and policies and accounting principles. The RBI also requires the NBFCs to make provisions in respect of NPAs. The provision made is equal to or higher than that prescribed under the prudential norms. Any changes in the regulatory framework could adversely affect the profitability of the Company or its future financial performance, by requiring a restructuring of its activities, increasing costs or otherwise.
- (j) **Slowdown In Economic Growth In India Could Cause the Company's Business To Suffer:** The Company's performance and the quality and growth of its assets are necessarily dependent on the health of the overall Indian economy. A slowdown in the Indian economy could adversely affect its business, including its ability to grow its asset portfolio, the quality of its assets, and its ability to implement its strategy. India's economy could be adversely affected by a general rise in interest rates, or various other factors affecting the growth of industrial, manufacturing and services sector or general down trend in the economy.

financial markets. These acts may also result in a loss of business confidence. In addition, adverse social, economic and political events in India could have a negative impact on the Company. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse impact on the Company's business.

- (l) **Market Risk:** The Company is in the business of provision of financial services. The overall business of the company is linked to the macroeconomic parameters like GDP growth, capital markets and liquidity. Any adverse movement on these factors will have an adverse impact on the business of the Company. The performance may also be affected by political and economic developments and natural disasters like earthquakes, flood, drought, act of God, etc. These factors may affect the capital markets as well as reliability of the Issuer's assets. Interest rate volatility exposes the Issuer to market risks arising out of maturity rate/ interest rate mismatches, which may have an impact on its financial results.
- (m) **Legality of Purchase:** A prospective Investor of the Debentures will be responsible for the lawfulness of the acquisition of the Debentures, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates or for compliance by that prospective Investor with any law, regulation or regulatory policy applicable to it.
- (n) **Taxation:** Each Debenture Holder will assume and be solely responsible for any and all taxes of any jurisdiction or governmental or regulatory authority, including, without limitation, any state or local taxes or other like assessment or charges that may be applicable to any payment to it in respect of the Debentures. The Issuer will not pay any additional amounts to Debenture Holders to reimburse them for any tax, assessment or charge required to be withheld or deducted by the Issuer from payments in respect of the Debentures.
