(e) A repurchase by the Stock Issuer or any of its subsidiaries of its Stocks whether out of profits or capital and whether the consideration for such repurchase is cash, securities or otherwise; or

(f) An event that results in any Stockholder rights being distributed or becoming separated from Stocks of common stock or other Stocks of the capital stock of the Stock Issuer pursuant to a Stockholder rights plan or arrangement directed against hostile takeovers that provides upon the occurrence of certain events for a distribution of preferred stock, warrants, debt instruments or stock rights at a price below their market value, provided that any adjustment effected as a result of such an event shall be readjusted upon any redemption of such rights; or

(g) Any other event that may have a diluting or concentrating effect on the theoretical value of the relevant Stock.

(h) "**Realisation Disruption Event**" shall have occurred if any restrictions, taxes, charges or other deductions have been imposed by any applicable governmental, taxation, judicial or regulatory body on (a) any dealing by the Issuer or any of its affiliates in any relevant instruments listed or traded on any Exchange or Related Exchange and held by the Issuer or any of its affiliates for hedging purposes such that the Issuer or any of its affiliates (1) is unable to continue to purchase, sell or otherwise deal in relevant instruments, (2) is unable to perform its obligations under the Debenture or in respect of any relevant hedging arrangements in connection therewith or (3) will incur a materially increased cost (as compared with circumstances existing at the Issue Opening Date) in performing its obligations under the Debenture or in respect of any relevant hedging arrangements in connection therewith;

2.2 Adjustment

On or at any time after the occurrence of an Adjustment Event,

(a) upon determination by the Company that a Merger Event/Tender Offer has occurred, then, on or after the relevant Merger Date/Tender Offer Date, the Company shall make such adjustment to the relevant terms of the Debentures which is appropriate to account for the economic effect on the Debentures of such Merger Event/Tender offer (provided that no adjustments will be made to account solely for changes in volatility, expected dividends, stock loan rate or liquidity relevant to the Stock), which may, but need not, be determined by reference to the adjustment(s) made in respect of such Merger Event/Tender offer by any exchange on which options on the Stock traded and determine the effective date of that adjustment.

(b) if the Adjustment Event is a Potential Adjustment Event, then following the declaration by any Stock Issuer of an event which is a Potential Adjustment Event or following any adjustment to the settlement terms of listed contracts of the relevant Stock, the Company shall determine whether such Potential Adjustment Event has a diluting or concentrative effect on the theoretical value of the relevant Stock and, if so, a. will make the corresponding adjustment, if any, to the calculation of the Coupon Amount and/or the Final Redemption Amount and/or the Contingent Early Redemption Amount and/or any other relevant terms of the Debentures as the Company, in its sole and absolute discretion (which discretion is not subject to any challenge or dispute), appropriate to account for that diluting or concentrative effect or, b. determine the effective date(s) of the adjustment(s); provided that no adjustment shall be made to the date of maturity of the Debentures. Such adjustments shall be deemed to be so made from such effective date(s).

(c) if the Adjustment Event is a Realisation Disruption Event, on or before any Valuation Date, the Company may, in good faith and in a commercially reasonable manner, make such consequential adjustments to any of the terms of the Debentures (including any payment obligations) as it determines appropriate in order to reflect the particular Realisation Disruption Event. Such adjustments may include (but are not limited to) (1) deduction of the applicable charge, tax or deduction from the Redemption Amount or Early Redemption Amount, as the case may be, and/or (2) non-payment of the Redemption Amount or Early Redemption Amount and the retention of such amount, as the case may be, until the relevant restrictions are lifted. Any such adjustments will be effective as of the date determined by the Company. The Company may (but need not) in its absolute discretion determine the appropriate adjustments by reference to the adjustment(s) in respect of such Adjustment Event made by any Exchange to listed contracts of the relevant Stock traded on such Exchange.

If the Company is unable to make such adjustment, then it shall have the sole discretion to redeem the Debentures in the manner provided below, describing the process for Early Redemption.

The Issuer shall, as soon as reasonably practicable, provide notice to the Debenture-Holder and Trustee of any consequential adjustments to be made to the terms of the Debentures as determined appropriate by it which notice shall be irrevocable, provided that any failure to give, or non receipt of such notice will not affect the validity of the Adjustment Event.

3. EARLY REDEMPTION FOR EXTRAORDINARY REASON, ILLEGALITY AND FORCE MAJEURE

If, for reasons beyond the control of the Issuer, the performance of the Issuer's obligation(s) under the Debentures is prevented by reason of *force majeure* including but not limited to an act of state or situations beyond the reasonable control of the Issuer, occurring after such obligation(s) is entered into, or has become illegal or impossible in whole or in part or in the exercising of its rights, the Issuer may at its discretion and without obligation redeem all but not some of the Debentures, by giving notice of not less than five (5) Business Days to the Debenture Holders which notice shall be irrevocable and shall specify the date upon which the Debentures shall be redeemed (such date on which the Debentures become immediately due and payable, the "**Early Redemption Date**"). If the Debentures are so cancelled, the Issuer will, if and to the extent permitted by applicable law, pay to each Debenture Holder in respect of each Debenture held by such holder an amount equal to the Early Redemption Amount of a Debenture notwithstanding the illegality or impracticability as determined by the Company in its sole and absolute discretion.

Nationalisation or De-listing Event shall have occurred if at any time in respect of the Stock Issuer, (A) all the Stocks of the Stock Issuer or all the assets or substantially all the assets of such Stock Issuer are nationalised, expropriated or are otherwise required to be transferred to any governmental agency, authority, entity or instrumentality thereof ("**Nationalisation**") or (B) the relevant Exchange announces that pursuant to the rules of such Exchange, such Stocks cease (or will cease) to be listed, traded or publicly quoted on such Exchange for any reason (other than a Merger Event or Tender Offer) and are not immediately re-listed, re-traded or re-quoted on an exchange or quotation system located in India or such Stocks are no longer listed on an Exchange acceptable to the Issuer ("**De-listing**")

Insolvency Event shall have occurred If at any time, by reason of the voluntary or involuntary liquidation, winding-up, dissolution, bankruptcy or insolvency or analogous proceeding affecting the Stock Issuer (i) all the Stocks of the Stock Issuer are required to be transferred to any trustee, liquidator or other similar official or (ii) holders of the Stocks of such Stock Issuer become legally prohibited from transferring them, **Insolvency Filing Event shall have occurred if** an Insolvency Filing shall have occurred.

"Insolvency Filing" means, in respect of the Stock, that the Stock Issuer has instituted, or has had instituted against it by a regulator, supervisor or any similar official with primary insolvency, rehabilitative or regulatory jurisdiction over it in the jurisdiction of its incorporation or organisation or the jurisdiction of its head or home office, or it consents to, a proceeding seeking a judgment of insolvency or bankruptcy or any other relief under any bankruptcy or insolvency law or other similar law affecting creditors' rights, or a petition is presented for its winding-up or liquidation by it or such regulator, supervisor or similar official or its consents to such a petition, provided that proceedings instituted or petitions presented by creditors and not consented to by the relevant Stock Issuer shall not be deemed an insolvency filing. The Issuer shall, as soon as reasonably practicable, provide notice to the Debenture-Holder and Trustee of determination of any event to be made to the terms of the Debentures as determined appropriate by it and which shall consequent Early Redemption. Such notice shall be irrevocable and shall specify the date of such redemption.

4. DETERMINATIONS

Whenever any matter falls to be determined, considered or otherwise decided upon by the Issuer, or any other person (including where a matter is to be decided by reference to the Issuer's, or such other person's opinion), unless otherwise stated, that matter shall be determined, considered or otherwise decided upon by the Issuer or such other person, as the case may be, in good faith and in its sole and absolute discretion.

5. CORRECTION OF STOCK PRICES

In the event that any price or level published on the Exchange or Related Exchange and which is utilised for any calculation or determination made in respect of the Debentures is subsequently corrected and the correction is published by the Exchange or Related Exchange within two Business Days after the original publication (and at least two Business Days prior to the Maturity Date), the Issuer will determine the amount that is payable or deliverable as a result of the correction and, to the extent necessary, adjust the terms of the Debentures to account for such correction.

Prospective purchasers should be aware that any determination made by the Company may have an impact on the value and financial return of the Debentures.

B. Notwithstanding anything herein contained the Issuer shall not bear responsibility or liability for any losses arising out of any delay in or interruptions of performance of the Exchange with regard to the Stock or the Issuer's obligations under this Supplemental DD due to any Force Majeure Event, act of God, act of governmental authority, act of the public enemy or due to war, the outbreak or escalation of hostilities, riot, fire, flood, civil commotion, insurrection, labour difficulty (including, without limitation, any strike, or other work stoppage or slow down), severe or adverse weather conditions, communications line failure, or other similar cause beyond the reasonable control of the Issuer.

PART 2 – UPDATED INFORMATION

(Material changes taken place after filing of Shelf Disclosure Document dated November 14, 2017)

In Section II:

DISCLAIMER ON VALUATION (FOR TRANCHE BL – OPTION III NCDS ONLY):

The Valuation reflects the independent views of the Valuation Agent. It is **expressly stated that the valuation is not the view of the Issuer** or its affiliates. The Issuer has not reviewed the Valuation and is not responsible for the accuracy of the Valuations. The Valuations provided by the Valuation Agent, and made available on the website of the Issuer and the Valuation Agent do not represent the actual price that may be received upon sale or redemption of the Debentures. They merely represent the Valuation Agent's computation of the valuation which may in turn be based on several assumptions. The Valuations provided by the Valuation Agent may include the use of models by the Valuation Agent (that may be different from the proprietary models used by the Issuer and/or the calculation agent) and consequently, valuations provided by other parties (including the Issuer and/or the calculation agent) may be significantly different.

DISCLAIMER BY THE VALUATION AGENT (FOR TRANCHE BL – OPTION III NCDS ONLY):

Market Linked Debenture Valuation provided by the Valuation Agent reflects the Valuation Agent's opinion on the value of the Market Linked Debenture on the valuation date and does not constitute an audit of the Issuer by the Valuation Agent. The Valuation is based on the information sought from and provided by the Issuer or obtained by the Valuation Agent from sources it considers reliable. The Valuation Agent does not guarantee the completeness or accuracy of the information on which the Valuation is based. The Valuation Agent specifically states that the Valuation is an indicative value of the Debenture on the valuation date and can be different from the actual realizable value of the Debenture. The Valuation does not comment on the market price of the Market Linked Debentures or suitability for a particular investor. In the event of early redemption/buy back/ any other premature exit, investors may choose to contact the Issuer directly or through their intermediaries (through whom investments in the Specified MLDs were made) or, in the alternative, follow the procedure as set out in the relevant offer Document.

DISCLAIMER OF THE ARRANGER (FOR TRANCHE BL – OPTION III NCDS ONLY):

It is advised that the Issuer Company has exercised self due-diligence to ensure complete compliance of prescribed disclosure norms in this Shelf Disclosure Document. The role of the Arranger in the assignment is confined to marketing and placement of the Debentures on the basis of this Shelf Disclosure Document as prepared by the Issuer Company. The Arranger has neither scrutinized/ vetted nor has it done any due-diligence for verification of the contents of this Shelf Disclosure Document. The Arranger shall use this document for the purpose of soliciting subscription to eligible investors in the Debentures to be issued by the Issuer Company on private placement basis. It is to be distinctly understood that the aforesaid use of this document by the Arranger should not in any way be deemed or construed that the document has been prepared, cleared, approved or vetted by the Arranger; nor does it in any manner warrant, certify or endorse the correctness or completeness of any of the contents of this document; nor does it take responsibility for the financial or other soundness of the Issuer, its promoters, its management or any scheme or project of the Issuer Company. The Arranger or any of its directors, employees, affiliates or representatives does not accept any responsibility and/or liability for any loss or damage arising of whatever nature and extent in connection with the use of any of the information contained in this document.

The below internal risk factor pt. 21 (For Tranche BL – Option III NCDs only) be inserted after the internal risk factor on page no. 14 of the DD:

21. Potential Conflicts of Interest

Investors should ensure that they understand and accept the identities of the parties and the roles they play in relation to the Debentures, as disclosed in the DD and the Supplemental DD.

The Company may appoint itself or an affiliate as its Calculation Agent or other agent, for the purposes of calculating amounts payable or deliverable to holders of Debentures, or for any other purpose. Under certain circumstances, the agent's responsibilities as Calculation Agent or other agent for the Debentures could give rise to conflicts of interest. In particular, in their respective roles, the Issuer or the various named agents may retain various powers of discretion which may have a material impact on the value and performance of the Debentures (including the ability to declare an early redemption of the Debentures at market price as a result of certain conditions). Such discretions may create conflicts of interest due to the capacities in which the Issuer or the agents are acting and these discretions may be exercised (or not be exercised) in a way that could adversely affect the Debenture Holders. The Calculation Agent or other agent is required to carry out its duties in good faith and using its reasonable judgment. However, because the Company could be controlled by the affiliate, potential conflicts of interest could arise. The Company also may enter into an arrangement with an affiliate to hedge market risks associated with its obligations under the Debentures. Such affiliate expects to make a profit in connection with this arrangement. The Company will not seek competitive bids for this arrangement from unaffiliated parties.

The Company and its affiliates have no obligation to disclose such information or activities; provided that the Issuer will make every good faith effort not to take advantage of any price sensitive information. By purchasing or holding any Debentures, the Debenture Holder acknowledges that the Issuer, its affiliates and their respective officers and respective directors may engage in any such activities without regard to the Shelf Disclosure Document and the relevant Pricing Supplement or the effect that such activities may directly or indirectly have on the Debentures and the Debenture Holder irrevocably waives any claim that it may have in respect thereof. In particular the following situations may arise:

a) Transactions involving the underlying

The Issuer and its affiliates may from time to time engage in transactions involving the underlying for their proprietary accounts and for accounts under their management. Such transactions may have a positive or negative effect on the value of the underlying and consequently upon the value of the Debentures.

b) Issuing of other debentures in respect of the underlying

The Issuer and its affiliates may issue other debentures in respect of the underlying and the introduction of such competing products into the market place may affect the value of the Debentures.

c) Market-Making for the underlying

The affiliates of the Issuer may, in certain cases, act as a market-maker for the underlying, which might in particular be the case when any of such affiliates has also issued the underlying. By such market-making, such affiliate will, to a large extent, determine the price of the underlying, and consequently influence the value of the Debentures itself.

d) Acting as underwriter or otherwise for the issuer of underlying

The affiliates of the Issuer may also act as underwriter in connection with future offerings of the underlying or may act as financial adviser to the issuer of an underlying. Such activities could present certain conflicts of interest and may affect the value of the Debentures.

e) Obtaining of Non-public Information

The Issuer and/or its affiliates may acquire non-public information with respect to the underlying, and neither the Issuer nor any of its affiliates undertakes to disclose any such information to any Debenture Holder.

ADDITIONAL RISK FACTORS THAT ARE SPECIFIC TO ISSUE OF MARKET LINKED DEBENTURES (FOR TRANCHE BL – OPTION III NCDs ONLY):

1. The NCDs proposed to be issued are subject to model risk, i.e., the securities are created on the basis of complex mathematical models involving multiple derivative exposures which may or may not be hedged and the actual behaviour of the securities selected for hedging may significantly differ from the returns predicted by the mathematical models.
2. The NCDs proposed to be issued being principal/capital protected, the principal amount is subject to the credit risk of the issuer whereby the investor may or may not recover all or part of the funds in case of default by the issuer. Thus the investments in such NCDs may also result in a loss.
3. The valuations as may be provided by the Valuation Agency, on the website of the Issuer and the Valuation Agency or otherwise, do not represent the actual price of the Debentures that may be received upon sale or redemption of Debentures. They merely represent the Valuation Agency's computation of the valuation which may in turn be based on several assumptions. A Debenture Holder understands and is aware that the valuation is not in any manner reflective of the actual returns that can be obtained by such Investor on the Debentures.
4. The return on an investment in the Debentures (which are linked with shares) may differ from the return an investor might earn on a direct investment in the shares over a similar period.
5. The terms of the instrument specify that the payments to investors will not be fixed, and will be linked to an external variable i.e. government security price of IGB 7.17 01/08/28 Corp. This could result in variability in payments - because of adverse movement in value of the external variable. The risk of such adverse movement in price / value is not addressed by any rating.
6. Investors considering borrowing capital to leverage their investment in the Debentures should obtain further detailed information as to the applicable risks from their lender. Any statement on the potential risks and return on the Debentures does not take into account the effect of any leveraging.
7. Investors are exposed to the factors like movement of interest rate volatility, time value etc. whenever their Debentures are redeemed, tendered or sold prior to maturity.
8. An investment in the Debentures involves multiple risks and such investment should only be made after assessing the direction, timing and magnitude of potential future changes in the value of the applicable reference securities, indices, interest rates, etc.
