Disclaimer on investment by non-resident investors

As per the current Indian regulations, the Issuer has the benefit of section 10(47) of the Income Tax Act, 1961 (read with Rule 2F of the Income Tax Rules) whereby any income of an Infrastructure Debt Fund shall not be considered for computing ‘income’ for the purpose of the Income Tax Act, 1961 provided, inter alia, that the investments made by a non-resident investor in foreign currency or rupee denominated bonds or rupee denominated units, as the case may be, issued by an Infrastructure Debt Fund shall be subject to a lock-in period of not less than three years, but the non-resident investors investing in the Debentures may transfer the Debentures to another non-resident investor within such lock-in period.

Forward-looking statements

The Company may have included statements in this Shelf Disclosure Document, that contain words or phrases such as “will”, “would”, “aim”, “aimed”, “will likely result”, “is likely”, “are likely”, “believe”, “expect”, “expected to”, “will continue”, “will achieve”, “anticipate”, “estimate”, “estimating”, “intend”, “plan”, “contemplate”, “seek to”, “seeking to”, “trying to”, “target”, “propose to”, “future”, “objective”, “goal”, “project”, “should”, “can”, “could”, “may”, “will pursue” and similar expressions or variations of such expressions, that may constitute “forward-looking statements”. These forward-looking statements involve a number of risks, uncertainties and other factors that could cause actual results, opportunities and growth potential to differ materially

from those suggested by the forward-looking statements. These risks and uncertainties include, but are not limited to:

- General economic and business conditions in India and other countries (including where the Company has a presence);
- The Company's ability to successfully implement its strategy, its growth and expansion plans and technological changes;
- The Company's ability to manage the increased complexity of the risks that the Company faces following its rapid growth;
- Changes in the value of the Rupee and other currency changes;
- Changes in Indian or international interest rates, credit spreads and equity market prices;
- Changes in laws and regulations that apply to IDF-NBFC in India and in other countries where the Company is carrying on business;
- Changes in political conditions in India and in other countries where the Company is carrying on business; and
- Changes in the foreign exchange control regulations in India and in other jurisdictions where the Company is carrying on business.

The Company undertakes no obligation to update forward-looking statements to reflect events or circumstances after the date thereof. In addition, other factors that could cause actual results to differ materially from those estimated by the forward-looking statements contained in this Shelf Disclosure Document include, but are not limited to general economic and political conditions in India and the other countries which have an impact on the Company's business activities or investments, political or financial instability in India or any other country caused by any factor including any terrorist attacks in India, the United States or elsewhere or any other acts of terrorism world-wide, any anti-terrorist or other attacks by the United States, the monetary and interest rate policies of India, political or financial instability in India or any other country caused by tensions between India and Pakistan related to the Kashmir region or military armament or social unrest in any part of India, inflation, deflation, unanticipated turbulence in interest rates, changes in the value of the Rupee, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets and level of internet penetration in India and globally, changes in domestic and foreign laws, regulations and taxes, changes in competition and the pricing environment in India and regional or general changes in asset valuations. For a further discussion on the factors that could cause actual results to differ, see the discussion under "Risk Factors" contained in this Shelf Disclosure Document.

LIMITS ON DISTRIBUTION

This Shelf Disclosure Document and the Pricing Supplement(s) are not for distribution (directly or indirectly) in any jurisdiction other than India unless the Issuer has intentionally delivered this Shelf Disclosure Document and Pricing Supplement(s) in such jurisdiction and event then only for the limited purpose intended by the Issuer. They are not an offer for sale of Debentures, nor a solicitation to purchase or subscribe for Debentures, in any jurisdiction where such offer, sale or solicitation would be unlawful. The Debentures have not been and will not be registered under the laws of any jurisdiction (other than India; to the extent mandatory under Applicable Laws in India). The distribution of the Shelf Disclosure Document in certain jurisdictions may be prohibited by law. Recipients are required to observe such restrictions and the Company or its respective Affiliates accept no liability to any person in relation to the distribution of information in any jurisdiction.

NOTE**Benefit To Issuer Under Income Tax Act, 1961**

The issuer has the benefit of section 10(47) of the Income Tax Act, 1961 and has been notified (by the Department of Revenue (Central Board of Direct Taxes), Government of India in notification no. 83/2016/F. No. 173/50/2013-ITA-I dated September 16, 2016 (attached as Annexure-7)) as an 'infrastructure debt fund' for the purposes of the aforesaid section. This section provides that any income of an infrastructure debt fund, set up in accordance with the guidelines as may be prescribed (guidelines issued by the Reserve Bank of India on November 21, 2011 having reference number RBI/2011-12/268 DNBS.PD.CC.NO.249/03.02.089/2011-12 (now consolidated into the RBI NBFC Master Directions 2016)), which is notified by the central government in the official gazette for the purposes of this clause, shall not be considered for computing 'income' for the purposes of the Income Tax Act, 1961 provided inter alia that in case of an investor in the debenture/bond issued by the infrastructure debt fund being a non-resident, the original or initial maturity of debenture/bond, at time of first investment by such non-resident investor, shall not be less than a period of five years and provided that the investment made by a non-resident investor in such debentures/ bonds shall be subject to a lock-in period of not less than three years, but the non-resident investor may transfer the debenture/bond to another non-resident investor within such lock-in period. The investors shall therefore ensure that no action is taken by them (including any transfers not in compliance with the lock-in period) which results in the benefit of the aforesaid provision not being available to the issuer and for such purpose the issuer shall have the sole right to reject and not recognise any transfers of debentures if the same is not in compliance with the terms and conditions as specified above.

Validity of the Shelf Disclosure Document

According to Regulation 21A of the SEBI Regulations, a shelf disclosure document is valid for a period of 180 days from the date of filing the document with a stock exchange. Accordingly, the Shelf Disclosure Document is valid for a period of 180 days from the date of filing of the said document with the BSE.

Day Count Convention

SEBI in its circular dated November 11, 2016 (bearing reference CIR/IMD/DF-1/122/2016), has issued certain clarification in relation to the day count convention for debt securities issued under the SEBI Regulations. This Shelf Disclosure Document has been prepared in line with such clarification issued by SEBI and accordingly, the 'Day Count Convention' as appearing in this Shelf Disclosure Document shall be relied on for determination of the Interest Payment Date and Redemption Date for the Debentures being issued under the respective Pricing Supplement(s).

Application by Insurance Companies

IRDA, vide its letters dated June 24, 2015 (reference no. INV/IIL/LR/001/2015-16), April 21, 2016 (reference no. INV/IDFNBFC/LR/001/2016-17) and April 28, 2017 (reference no. INV/IDF-IIDF/LR/001/2017-18) (IRDA letters are attached as Annexure-4 hereof) has approved investments by insurers in non-convertible debentures issued by the Issuer up to an aggregate limit of Rs. 9000 Crores (Rupees Nine Thousand crores only) to be considered as part of investments in the "Infra Sector" under the IRDA (Investment) Regulations, 2016.

BRIEF NOTE ON THE RBI IDF REGULATIONS

Further to the RBI Notification No. RBI/2014-15/600 DNBR (PD) CC.No. 035/03.10.001/2014-15 dated May 14, 2015 (now consolidated into the RBI NBFC Master Directions 2016), Infrastructure Debt Funds have been permitted to invest in PPP and non-PPP Infrastructure Projects, which have completed at least one year of satisfactory commercial operation.

Asset Exposure

As per the RBI IDF Regulations, the asset exposures of the Infrastructure Debt Fund:

- (i) In the case of PPP and post commercial operation date Infrastructure Projects which have completed at least one year of satisfactory commercial operation and the IDF-NBFC is a party to a Tripartite Agreement:
 - Asset exposure has to be within the 'Prudential Exposure Ceilings' as prescribed by the RBI i.e. 50% (Fifty Percent) of such Infrastructure Debt Fund's Total Capital Funds (Tier 1 Plus Tier 2 Capital) on an individual project.
 - An additional exposure up to 10% (Ten Percent) of the Infrastructure Debt Fund's Total Capital Funds can be taken with the approval of the board of the Infrastructure Debt Fund.
 - For further additional exposure of 15% (Fifteen Percent) of the Infrastructure Debt Fund's Total Capital Funds (over 60 percent in aggregate of the Infrastructure Debt Fund's Capital Funds), approval of RBI would be required and on application to RBI, RBI may permit such exposure on being satisfied upon the financial position of the Infrastructure Debt Fund and subject to such conditions as it may deem fit to impose regarding additional prudential safeguards.
- (ii) In the case of all other assets, including non-PPP and post commercial operation date Infrastructure Projects:
 - Asset exposure shall be governed by the extant regulations applicable to Infrastructure Finance Companies as given in the RBI NBFC Master Directions 2016.

Capital Adequacy

Further, as per the RBI NBFC Master Directions 2016, for the purpose of computing 'Capital Adequacy' of the Infrastructure Debt Fund:

- (i) All assets covering PPP and post-commercial operation date Infrastructure Projects in existence over a year of commercial operation shall be assigned a 'risk weight' of 50 percent; and
- (ii) Risk weightage and exposure in all other assets shall be as per the extant regulations given in the RBI NBFC Master Directions 2016.

In addition to all other Applicable Laws, the prudential norms as specified in the RBI NBFC Master Directions 2016 will be applicable to the Company.

Further, vide the RBI Circular No. RBI/2015-16/381 DNBR (PD).CC.No. 079/03.10.001/2015-16, dated April 21, 2016, (now consolidated into the RBI NBFC Master Directions 2016), IDF-NBFCs have been permitted to raise resources in the domestic market through bonds having a maturity period of less than 5 (five) years and commercial papers, to an extent of up to 10% (ten per cent) of their total outstanding borrowings.

BRIEF SUMMARY OF THE BUSINESS ACTIVITIES OF THE ISSUER AND ITS LINES OF BUSINESS

Business Overview

India Infradebt Limited is the country's first IDF to be incorporated and commence operations through the NBFC route. An IDF-NBFC can refinance existing debt of post commercial-operation-date Infrastructure Projects, which have completed at least one year of commercial operation, that are: (i) public private partnership projects (PPP), which have a first priority of payment towards its debt outstanding to the project upon termination from concession granting authority in the event of default and (ii) non-PPP project and PPP projects without a Project Authority, where there is no Project Authority. An IDF-NBFC has few competitive advantages vis-à-vis other market players viz. no SLR, CRR, priority sector requirements (which is a requirement in case of banks), additional credit protection (in PPP projects) in terms of priority of termination payment vide the Tripartite Agreement between the concessionary authority, the concessionaire and the IDF (which is not available for other lenders).

Till date major portion of debt funding to the infrastructure sector has been through commercial banks. The fundamental financing constraint for banks, going forward, would be the inadequate availability of long tenor debt, mainly because of the banks' asset liability mismatch and

concentration risk. IDF is a significant step taken by the Government of India to attract new investor class into infrastructure related debt investments in India.

ICICI Bank Limited, Bank of Baroda, Citicorp Finance (India) Limited and Life Insurance Corporation of India are the Company's First Shareholders. India Infradebt Limited was incorporated on October 31, 2012 in Mumbai, India with an initial capital of Rs. 300 crores (Rupees Three hundred Crores only). The Company has been issued a certificate of registration no. N-13.02039 dated February 08, 2013 by the RBI to operate as an IDF-NBFC². As an IDF-NBFC, the Company's principal activity is to provide funding to companies in relation to Infrastructure Projects undertaken by them, to help refinance a part of their debt liabilities. This process involves, in the case of PPP projects, execution of Tripartite Agreement(s) with the relevant Project Authority and such Infrastructure Project company, subject to such company having satisfactorily completed the construction of the relevant Infrastructure Project, and having satisfactorily operated it for at least 1 (one) year from the completion of construction. The Company would also be entitled to credit protection in its capacity as a senior lender holding a first charge on pari passu basis over the assets offered as security. Further, in the case of PPP projects, the Company has a further advantage over other existing senior lenders of the relevant Infrastructure Project company (that is, the Concessionaire), by being higher in priority in terms of entitlement to termination payments to be made by the Project Authority, upon termination of the concession agreement. RBI has notified certain flexibility in refinancing by IDF-NBFCs vide its notification No. RBI/2014-15/600 DNBR (PD) CC.No.035/03.10.001/2014-15 dated May 14, 2015 (now consolidated in the RBI NBFC Master Directions 2016).

The CBDT has vide notification no. 84/2015/F.No.133/43/2015-TPL dated October 20, 2015, effected changes (with retrospective effect from May 14, 2015) to Rule 2F of the Income Tax Rules to extend the scope of permissible investments which may be undertaken by an IDF to avail the exemption available under Section 10(47) of the Income Tax Act. Accordingly, an IDF may undertake investments in re-financing or takeout financing of Infrastructure Projects which have completed at least one year of satisfactory commercial operations that are: (a) public private partnership projects and are a party to a tripartite agreement with the concessionaire and the project authority for ensuring compulsory buy out and termination payment; (b) non-public private partnership projects and public private partnership projects without a project authority, in sectors where there is no project authority. This amendment has been effected to bring Rule 2F of the Income Tax Rules, 1962 in conformity with certain changes brought vide RBI Notification No. RBI/2014-15/600 DNBR (PD) CC.No.035/03.10.001/2014-15 dated May 14, 2015 (now consolidated in the RBI NBFC Master Directions 2016), in relation to permissible investments of an IDF.

India Infradebt Limited does not have any subsidiaries or branches or units.

RISK FACTORS

Every business carries inherent risks and uncertainties that can affect financial conditions, results of operations and prospects. Investors should carefully consider all the information in this Shelf Disclosure Document, including the risks and uncertainties described below, as well as the financial statements contained in this Shelf Disclosure Document, before making an investment in the Debentures. The Company believes that the following risk factors may affect its ability to fulfil its obligations under the Debentures issued under the Debenture Documents. All of these factors are contingencies which may or may not occur and the Company is not in a position to express a view on the likelihood of any such contingency occurring.

The risks and uncertainties described in this section are not the only risks that the Company currently faces. Additional risks and uncertainties not known to the Company or that the Company currently believes to be immaterial may also have an adverse effect on its business, prospects, results of operations and financial condition. If any of the following or any other risks actually occur, the Company's business, prospects, results of operations and financial condition could be adversely affected and the price and value of your investment in the Debentures could decline such that you may lose all or part of your investment. The financial and other related implications of risks concerned, wherever quantifiable, have in good faith been disclosed in the risk factors mentioned below. However, there are certain risk factors where such implications are not quantifiable and hence any quantification of the underlying risks has not been disclosed in such risk factors. You should not invest in the Issue unless you are prepared to accept the risk of losing all or part of your investment, and you should consult your own tax, financial and legal advisors about the particular consequences of an investment in the Debentures. Unless otherwise stated, the financial information used in this section is derived from Company's audited unconsolidated financial information, prepared in accordance with accounting standards generally accepted in India.

The following are some of the risks envisaged by the Issuer's management. Investors should consider the same carefully for evaluating the Issuer and its business before making any investment decision. Unless the context requires otherwise, the risk factors described below apply to the Issuer only. If any one of the risks occurs, the Company's business, financial condition and results of operations could suffer and therefore the value of the Issuer's securities could decline. The labeling of the Debentures as different Series under the Pricing Supplements does not in any manner indicate either the quality of the Debentures or their future prospects.

The Company believes that the factors described below represent the principal risks inherent in investing in the Debentures issued under this Shelf Disclosure Document, but the inability of the Issuer, as the case may be, to pay necessary amounts, on or in connection with any Debentures may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Debentures are exhaustive. Investors should also read the detailed information set out elsewhere in this Shelf Disclosure Document and reach their own views prior to making any investment decision.

RISKS RELATING TO THE COMPANY:

1. Limited Liability of Promoters:

The Promoters are not responsible for any loss resulting from the Company beyond their contribution of the equity share capital of the Company (to the extent of unpaid share capital, if any). Hence, any loss arising out of the Company's business will result in erosion of the Company's net-worth.

2. Changes in shareholding, business profile and company policies can impact the Company's financial profile:

The shareholding pattern of the Company may change at any point of time either due to the regulatory requirements, or due to corporate action such as rights issues / issuance of new shares, or due to transfer of shares. The change in shareholding may also impact Company's business profile.

Further, currently, the Company undertakes business of refinancing of Infrastructure Projects based on public-private partnerships (PPP) and/or non-PPP with at least 1 (one) year of successful commercial operations and with a Tripartite Agreement approved by the Project Authority (where such Infrastructure Projects have a Project Authority). Going forward, it is possible that, due to regulatory requirements or otherwise, the business profile of the Company may change either partially or completely. Any change in the business profile will impact the financial profile of the Company.

3. Availability of funds at commercially acceptable rates and its impact on the Company's business profitability:

The Company's business depends on its timely access to and the costs associated with raising capital. The Company cannot assure you that it would be able to borrow funds at commercially acceptable terms, or at all, in the future. Thus, in order to honour its lending commitments, the Company may be required to avail of short-term loans at high costs, which may in turn affect its spread on loans and its financial condition.

Further, due to the Company's nature and tenure of the loans, it may not be possible for the Company to pre-pay the existing loans by incurring additional indebtedness, without payment of penalty and interest. Unavailability of borrowings at commercially acceptable terms, or at all, may adversely affect Company's capacity to lend in the future and hence would have an adverse effect on its business, prospects, results of operations and financial condition.

Competition in the industry in which the Company operates depends on, among other things, the ongoing evolution of government policies relating to the industry and the entry of new participants into the industry. The Company's competitors include banks, NBFCs, IDFs, IFCs and financial institutions. The Company's ability to compete effectively depends on its ability to maintain a low effective cost of funds. If the Company is unable to access funds at an effective cost that is comparable to or lower than its competitors, it may not be able to offer competitive interest rates for its infrastructure loans. This is a significant challenge for it, as there are limits to the extent to which higher costs of funds can be passed on to borrowers, thus potentially affecting its net interest margin. The Company's competitors may have greater financing resources than those available to it, greater technical and other resources and greater experience, and may also compete with it for management and other human resources. In the event the Company is unable to effectively compete with its competitors, it may not be able to maintain or grow its business. This would have an adverse impact on its business, prospects, results of operations and financial condition.

4. Changes in taxation and its adverse impact on net profitability and return on capital:

The income of the Company is exempt from taxation under Section 10 (47) of the IT Act. However, any change in this policy may have a direct impact on the cash pool available with the Company for meeting its obligations in relation to the Debentures. Similarly, any change in taxation of any of the project assets that the Company lends to may affect the project cash flows available for the servicing of its obligations in relation to the Debentures.

5. **Adverse impact of Contingent Liabilities:**

The Company's contingent liabilities could adversely affect its financial condition. As present however, the Company does not have any contingent liabilities.

6. **Retention of key management personnel is a critical success factor for continued business performance:**

The Company's future performance will be affected by the continued service of its key management personnel and its ability to attract and retain skilled personnel. The Company also faces a continuing challenge to recruit and retain a sufficient number of suitably skilled personnel, particularly as it utilizes the experienced understanding of its management of risks and opportunities associated with its business, and continue to grow and broaden its business activities. There is significant competition in India for qualified personnel, and it may be difficult to attract, adequately compensate and retain the personnel the Company needs in the future. The Company does not maintain a "key man" insurance policy. Inability to attract and retain appropriate managerial personnel, or the loss of key personnel could adversely affect the business, prospects, results of operations and financial condition of the Company.

7. **Exposure to credit, market and liquidity risks and its impact on asset profile, credit rating, profitability and debt-servicing ability of the Company:**

The Company's revenues depend on its ability to efficiently manage its credit, market and liquidity risks. While the Company has put in place sound credit appraisal systems, it does not guarantee the accuracy of its credit assessments. Any deterioration in its credit assessments can adversely affect the asset quality of the Company.

Further, the Company is allowed to borrow from the market through debentures (including shorter-tenor bonds) and commercial papers, up to such amounts as may be permitted per extant regulations/guidelines issued by RBI. Such borrowing is expected to be at a fixed-rate of interest, given the current market conditions. On the other hand, the lending of the Company will be done at the maturity and interest rates that are linked to the tenure, interest rates and the interest reset period of the senior lenders to the project. In addition, the repayment terms and maturity are also determined by the terms of the Tripartite Agreement and concession agreement. While the Company has the flexibility to revise its lending rates, it will still be exposed to interest rate risk, loan re-pricing risk, liquidity mismatch; additionally, this can also impact the margins and profitability of the Company. Any liquidity mis-match has the potential of affecting the debt servicing ability of the Company.

The successful management of credit, market and operational risk is an important consideration in managing Company's liquidity risk because it affects the evaluation of its credit ratings by rating agencies. Rating agencies may reduce or indicate their intention to reduce the ratings at any time. There can be no assurance that the Company will not experience any downgrade in its debt ratings in future. The rating agencies can also decide to withdraw their ratings altogether, which may have the same effect as a reduction in Company's ratings. Any reduction in ratings (or withdrawal of ratings) may increase the borrowing costs, limit the access to capital markets and adversely affect Company's ability to engage in business transactions, particularly long term and derivatives transactions, or retain the customers. This, in turn, could reduce Company's liquidity and negatively impact its business and financial strength. Although the Company believes that it has adequate risk management policies and procedures in place, it may still be exposed to unidentified or unanticipated risks, which could lead to material losses and an adverse effect on its business and financial strength.

8. Volatility in interest rates can impact Company's lending and borrowing rates, thereby impacting its interest margins and profitability:

The Company has no control on the interest rates in the economy and its lending rates are not directly linked to its borrowing rates. Hence, the Company is exposed to volatility in the prevailing interest rates. The Company cannot claim to manage its interest rate risk fully in the future. The Company could also face asset-liability mismatches, which could affect its liquidity position.

9. Competitive pressures can impact the growth of assets & net interest margin:

The Company faces significant competition from other banks and institutions in its refinancing business and is expected to provide funds at low effective cost. Further, during periods of slowdown in infrastructure, the availability of new, good assets will be limited and restricted. This results in enhanced competition for limited number of assets which also puts pressure on net interest margin. The competition of the Company is with large, more experienced, substantially resourceful players and this can slowdown the Company's business growth. Such competition also competes with the Company for management, operating resources and capital.

10. Ability to receive the termination payments from the concessionary authority viz. NHAI in case of PPP projects when borrowers delay or default on their obligations to the Company could affect the financial performance of the Company:

The Company is expected to invoke necessary clauses of concession agreements and Tripartite Agreements, in a situation of any delay or default on the obligations of the borrower(s). These clauses include the rights available to the Company as the lender to invoke termination clause and receive termination payment from the concessionary authority with priority over the senior lenders. The quantum of termination payment is determined by the quantum of debt due, approved by the concessionary authority as well as the terms of the concession agreement.

However, there may be a delay in invocation of termination clauses due to any judicial notice or order preventing such action. This delay may also be related to the long-term commercial and business interests of the Company. Any such delay on the part of the Company to invoke termination will affect its financial performance. Further, the quantum of termination payment paid to the Company may fall short of its debt outstanding, to the extent of other statutory deductibles/levies/payouts that are senior to the debt payments.

11. Unlisted equity shares:

The equity shares of the Company are not listed on any stock exchange and hence the Company is not required to comply with the corporate governance standards applicable to listed companies.

12. Limited track record of operations:

The Company has recently completed its fifth full financial year of operations and has limited experience in re-financing business, though its sponsors have long track records in financial sector. The Company is subject to all the business and financial risks associated with any new business enterprise. The Company may also fail to achieve its business plans and projections.

13. Foreign currency borrowing will expose the Company to fluctuations in foreign exchange rates:

The Company can also borrow in foreign currency though it can lend only in rupee currency. This means that the Company may be exposed to any fluctuations in exchange rates. While the Company will hedge, partially or fully, foreign currency exposures, it shall be exposed to foreign currency risk

to the extent of un-hedged exposures. The volatility in exchange rates could adversely affect the financial health of the Company.

14. Foreign currency controls by any government will affect the Company's ability to repatriate its foreign currency borrowings:

The Company may face difficulties in utilisation of foreign currency borrowings, in case there are restrictions, temporary or permanent, imposed on the repatriation of foreign currency. Such restrictions or controls will impact the business and financial strength of the Company.

15. The Company does not own or plan to own any office property as it operates out of leased premises; any termination of such lease arrangements could affect its business:

Currently, none of the properties used by the Company for the purposes of its business activities, including the premises where the Registered Office and Corporate Office is located, is owned by the Company. The Company has leased office space for its business operations. Termination of the leases or the Company's failure to renew the same on favourable conditions, in a timely manner, or at all, could require it to vacate such premises at short notice, could adversely affect the Company's operations, financial condition and profitability.

16. Adequacy of internal control systems for enhanced scale of business:

The internal control systems of the Company are commensurate with its current scale of business and are expected to be strengthened as its business grows in future. But, in case the Company's business grows faster than its planned growth, it is possible that its internal control systems may prove inadequate for some time. Any such inadequacy of internal systems will affect the effectiveness of its risk management and consequently its business and financial strength.

17. The Company's Board of Directors may have interests, either directly or indirectly, in corporations/ companies/ entities similar to the Company; this may result in a conflict of interest affecting the Company's business interests:

The Board has independent directors and nominee directors representing the shareholders of the Company. Some of these directors may be working for banks/ companies that are the competitors of the Company. They may also be on the board of directors of other banks/ companies that are its competitors. Such working relationships or directorships of the Company's directors may result in potential conflict of interest situations affecting its business interests. While the Board continues to adhere to the requirements of the Companies Act, there can be no assurance that these or other conflicts of interest will be resolved in a timely and efficient manner.

18. The Company depends on the accuracy and completeness of un-audited project information provided by its potential borrowers; any wrong information can potentially damage the Company's credit risk evaluation and result in non-performance of its assets:

The Company's risk evaluation system relies on information furnished to it by potential borrowers and senior lenders, and opinions provided by financial and legal consultants, advocates, auditors, rating agencies and other independent sources. To further verify the information provided by potential borrowers, the Company relies upon reports from Credit Information Bureau of India Limited (CIBIL) for creditworthiness and encumbrances on collateral. The Company is also in the process of framing its policies to prevent frauds in accordance with the know-your-customer guidelines issued by the regulators. Further, the Company has a well-established and streamlined credit appraisal process. The Company cannot assure you that information, opinions and data sourced by the Company will be accurate, and that its credit opinions are insulated from any

inaccuracy and incompleteness of such sources. This in turn may affect its business and financial strength.

19. General:

The Company's ability to pay interest accrued on the Debentures and/or the principal amount outstanding from time to time in connection therewith would be subject to various factors, including its financial condition, profitability and the general economic conditions in India and in the global financial markets. The Company cannot assure that it would be able to repay the principal amount outstanding from time to time on the Debentures and/or the interest accrued thereon in a timely manner, or at all.

20. Failure of operational systems or infrastructure, or those of third parties:

The Company's business is highly dependent on its ability to process a large number of transactions. The Company's financial, accounting, data processing or other operating systems and facilities may fail to operate properly or become disabled as a result of events that are wholly or partially beyond its control, adversely affecting its ability to process these transactions. As the Company grows its business, the inability of its systems to accommodate an increasing volume of transactions could also constrain its ability to expand its businesses. Additionally, shortcomings or failures in the Company's internal processes or systems could lead to an impairment of its financial condition, financial loss, disruption of its business and reputational damage.

The Company's ability to operate and remain competitive will depend in part on its ability to maintain and upgrade its information technology systems on a timely and cost-effective basis. The information available to, and received by, the Company's management through its existing systems may not be timely and sufficient to manage risks or to plan for and respond to changes in market conditions and other developments in its operations. The Company may experience difficulties in upgrading, developing and expanding its systems quickly enough to accommodate its growth. Its failure to maintain or improve or upgrade the management information systems in a timely manner could materially and adversely affect its competitiveness, financial position and results of operations.

The Company can also be subject to disruptions of its operating systems, arising from events that are wholly or partially beyond its control including, for example, computer viruses or electrical or telecommunication service disruptions, which may result in a loss or liability to the Company.

RISKS RELATING TO IDFS:

21. Lack of co-operation from project authorities and reduced focus on infrastructure may pose significant challenges to the success of the IDFs:

Refinancing of Infrastructure Projects through IDF-NBFCs is still a developing concept and the IDF-NBFCs are still in nascent stages of growth and there are no established track records of financial precedents for the performance or success of such entities. The success of this endeavor would be dependent on various factors, such as, the extent of cooperation from Project Authorities and cooperation from the existing senior lenders of Infrastructure Projects to grant their consent for refinancing of such a project. Since IDFs are permitted only to lend to Infrastructure Projects, the success of IDFs would be contingent on a continued awarding of Infrastructure Projects in the future. Further, in the recent past, the National Highways Authority of India which awards concessions for national highway projects has awarded many projects on an EPC basis, instead of public-private partnerships. Since, public private partnership projects are expected to be central to the Company's business, these factors may pose significant challenges to the success of an IDF. Overall, the

Company will be affected by all risks pertaining to the infrastructure financing companies in general and IDF-NBFCs in particular.

22. Compliance to regulations imposed by RBI (including RBI IDF Regulations), CBDT and other regulatory agencies is critical to operations of the Company; any non-compliance may result in adverse regulatory action:

In accordance with RBI IDF Regulations, the Company is permitted to invest in public private partnership and non-public private partnership infrastructure projects, which have completed at least one year of satisfactory commercial operation. The asset exposures of the Company (in the case of public private partnership and post commercial operation date infrastructure projects) have to be within the prudential exposure ceilings as prescribed by the RBI i.e. 50% (fifty percent) of its total capital funds (Tier 1 plus Tier 2 capital) on an individual project as per the RBI IDF Regulations. An additional exposure up to 10% (ten percent) can be taken with the approval of the board of the Company. For further additional exposure of 15% (fifteen percent) (over 60 percent), an application to RBI should be made. RBI may permit such exposure on being satisfied upon the financial position of the Company and subject to such conditions as it may deem fit to impose regarding additional prudential safeguards. The asset exposure of the Company (in case of non-PPP infrastructure projects) have to be within the prudential exposures ceilings prescribed for Infrastructure Finance Companies. Further, the Company is required to achieve the principal business criteria laid down by RBI for NBFCs vide Press Release 1998-99/1269 dated April 8, 1999.

In addition to RBI norms, the Company also needs to be in compliance with CBDT rules, for the purpose of availing tax exemption on income from lending to infrastructure projects. According to Income-tax (5th Amendment) Rules, 2012 issued by CBDT in the context of setting up Infrastructure Debt Fund for purpose of exemption u/s 10(47), it is stipulated that the investment made by the Infrastructure Debt Fund in an individual project or project belonging to a group at any time, shall not exceed 20% of the corpus of the fund.

Finally, the Company is required to comply with reporting guidelines of regulatory agencies. Any non-compliance to exposure or reporting norms can result in strong regulatory actions (including withdrawal of the income tax-free treatment of the Company) that can impair the business of the Company.

23. Tripartite Agreements are central to the financing of PPP infrastructure projects:

The Company is permitted to participate in the refinancing of Infrastructure Projects, in case of public-private-partnership projects with a Project Authority, only after execution of Tripartite Agreements between IDF, project sponsor and Project Authority. Such Tripartite Agreements shall provide for the IDF having a priority over the other senior lenders of the project in relation to termination payments to be received from the respective Project Authority upon termination of a concession agreement. However, there may be significant challenges in implementation of the clauses of the Tripartite Agreements, particularly in relation to termination payments. Further, the Tripartite Agreement requires an IDF-NBFC to pay the annual guarantee fees to NHAI. Any material changes in the model Tripartite Agreements for various sectors approved by the Government of India from time to time may expose the Company to additional risks and any increase in guarantee fee will adversely affect its financial performance.

24. Concentration to few sectors exposes the Company to any adverse developments pertaining to that sector:

The business of the Company may be concentrated only to a few sectors (including such sectors where Tripartite Agreements are approved). The Company has lent/lends to projects based on public private partnerships mainly in the roads sector bid out by the National Highways Authority of India and the Company has also ventured into refinancing Infrastructure Projects in the renewable energy

sphere. However, the business of the Company continues to remain concentrated to only a few sectors. Any negative trends or adverse developments in such sectors, particularly those that may affect the borrowers of the Company, could increase the level of non-performing assets in the Company's portfolio and adversely affect its business and financial performance.

25. Exposure to credit-worthiness of the Company's borrowers/ Credit Risk:

Any lending activity involves credit risk arising from the risk of default and non-payment by borrowers. The borrowers may default in their repayment obligations due to various reasons, including insolvency, lack of liquidity and operational failure.

The Company's loans are principally extended on a limited recourse or non recourse basis and are repaid primarily from project cash flows that are operated under escrow mechanism. Accordingly, the Company may have limited claims in the event of a default by a borrower and would only have recourse to specific assets, the proceeds of the realization of which, after enforcement of the security, will be distributed in accordance with the priority of payments as set out in the relevant financing documentation. Continued default could increase the level of non-performing assets in the Company's portfolio and adversely affect its business and financial performance.

26. Flexibility by RBI to refinance non-public private partnership assets and projects without project authority may alter its impact its risk-return profile

RBI has notified certain flexibility in refinancing to IDF-NBFCs vide its Notification No. RBI/2014-15/600 DNBR (PD) CC.No.035/03.10.001/2014-15 dated May 14, 2015 (now consolidated in the RBI NBFC Master Directions 2016). This allows IDF-NBFCs to undertake exposures in certain assets without signing the Tripartite Agreement; hence, in such cases where Tripartite Agreements are not executed, there may be no termination payments available for the lenders in case such project is terminated. The non-PPP projects bear relatively higher credit risk and higher lending rates than the PPP projects, specifically that they carry higher risk than the PPP projects which are backed by tripartite agreements. Nevertheless the regulatory requirement of investing only in projects with 1 year of commercial operations, will continue to protect the asset quality of the Company.

The CBDT has vide the Income-tax (Seventeenth Amendment) Rules, 2015 amended Rule 2F of the Income-tax Rules, 1962 to extend the exemption available under Section 10(47) of the Income Tax Act, 1962 to investments made in non-public private partnership projects and public private partnership projects without a project authority, in sectors where there are no project authority. This amendment has retrospective application from May 14, 2015 to bring it in conformity with the change brought vide RBI Notification No. RBI/2014-15/600 DNBR (PD) CC.No. 035/03.10.001/2014-15 dated May 14, 2015 (now consolidated in the RBI NBFC Master Directions 2016).

In the event the aforesaid exemption were to be withdrawn in relation to refinancing of projects which are not backed by a Tripartite Agreement, the Company may choose to invest in only such assets which are backed by a Tripartite Agreement.

RISKS RELATING TO THE INFRASTRUCTURE SECTOR:

The Company has identified the following risks related to Infrastructure Projects:

27. Economy related risks:

The Company's operations are significantly affected by factors influencing the Indian economy and the global economy in general. Any slowdown in economic growth in India could adversely affect the Company, including its ability to grow its loan portfolio, the quality of its assets, and its ability

to implement the Company's strategy. Any slowdown in the growth or negative growth of the infrastructure sector could adversely impact the Company's performance. Any such slowdown could adversely affect the Company's business, prospects, results of operations and financial condition. The Indian market and the Indian economy are influenced by economic and market conditions in other countries. Although economic conditions are different in each country, investors' reactions to developments in one country can have adverse effects on the economy as a whole, in other countries, including India. A loss of investor confidence in the financial systems of other emerging markets may cause volatility in Indian financial markets and indirectly, in the Indian economy in general. Any worldwide financial instability could also have a negative impact on the Indian economy, including the movement of exchange rates and interest rates in India. Terrorist attacks and other acts of violence or war may negatively affect the Indian markets and may also adversely affect the worldwide financial markets. These acts may also result in a loss of business confidence.

28. Political changes can result in disruption of project operation and cash flows:

Change in government policies may have an adverse impact on the revenue stream of the Infrastructure Projects. Political risks/ factors that must be taken into account include but are not limited to:

- Stability of the government (central, state as well as local government)
- Political willingness demonstrated by the government at various levels towards infrastructure and its commercialization
- Extent of control exerted by the government or its involvement in regulating a particular sector and dependence of the project profitability on the regulations.

Political risk also emanates from events/developments that cannot be reasonably predicted such as expropriation/confiscation of the project assets, risks of civil disturbances, riots, etc. Investors must also consider the likelihood and impact of any political change on the project/its sponsors/strategic investors while making the investments.

29. Changes in taxation of infrastructure projects can impact the cash flows available for debt servicing of the Company:

Any significant change in the tax regime may result in increased burden of taxation on Infrastructure Projects which are typically exposed to various taxes such as taxes on current and expected income, assets or property, operational, stamp, mortgage, withholding and other revenue and financing-related taxes. Tax policies have a direct impact on the cash pool available for debt servicing and are a critical factor while structuring the financing for Infrastructure Projects.

30. Changes in regulations and infrastructure policies can affect the Company's business prospects in general, and its asset quality in particular:

Any significant changes in regulations and policies that affect infrastructure projects will directly impact the financial quality of the Company's project assets. This will affect the Company's business prospects, as well.

31. Operating Risk can impact the revenues and operating costs of the Infrastructure Projects that are provided refinancing by the Company:

Risks associated with the operating environment in which Infrastructure Projects operate, include any changes in the operating environment having adverse impact on the viability of the projects. The cash pool available for debt servicing can shrink if a project performs at below the levels projected while structuring the investments. While for Infrastructure Projects granted by Project Authorities, operating risks are usually lower than other industries, it could still be a risk for projects

where the underlying technology is changing rapidly such as telecommunication projects, or where the project performance is dependant on raw materials such as in the case of power projects.

32. Market Risk can adversely impact the project revenues and cash available for debt-servicing for the Company:

There may be a change in the market conditions assumed while structuring the financing for an Infrastructure Project. Non-fulfilment of demand projections or more than anticipated competition are few examples of market risk. Different Infrastructure Projects have varying degrees of market risks as few projects may have monopolistic or oligopolistic markets or committed off-take arrangements. Owing to high capital intensity, magnitude of impact of adverse movements in market factors can be large for Infrastructure Projects. Though the Company is permitted to refinance only those Infrastructure Projects (on PPP and non-PPP basis) that have completed at least 1 (one) year of commercial operations, yet, this does not guarantee that the demand projections will be more realistic and market risk will be reduced.

33. Interest Rate and Prepayment Risk:

Risks may arise because of interest rate changes during the life of an Infrastructure Project. For Infrastructure Projects, interest costs represent a large part of the total costs over a considerable time in the project's life cycle. Further, the risk may be intensified as Infrastructure Projects often have firm long term contracts for revenues (such as road annuity projects) as a result of which, the increase in interest rates cannot be passed on to the customers. Further, the majority of the loans provided by the Company are long-term in nature and the interest rates are subject to periodic resets. When interest rates decline, the Company may be subject to greater re-pricing and prepayment risks. During periods of low interest rates and high competition among lenders, borrowers may seek to reduce their borrowing cost by asking lenders to re-price loans. When assets are re-priced, the spread on loans, which is the difference between the average yield on loans and the average cost of funds, could be affected. If the Company re-prices loans, its ability to service the Debentures/ bonds may be adversely affected in the period in which the re-pricing occurs, resulting from the loss in profits. Further, in relation to non-PPP projects, the pricing tends to be based on a variable interest rate, which is subject to reset from time to time, and in which case the borrower may choose to prepay the loan upon such reset of loan. To the extent that the Company's borrowers prepay loans, the Company's ability to service the Debentures/ bonds may be impaired as any prepayment premium the Company receives may not fully compensate it for the redeployment of such funds elsewhere.

34. Non payment to infrastructure projects by bulk customers:

An Infrastructure Project may not receive timely payment for the services provided by it. This risk is critical for projects dependent on sole/few customer(s) tied with long term off-take contracts such as annuity projects. Currently, the Company is, amongst other sectors, providing loans to road projects, which typically have wide revenue base and toll is collected upfront. But, going forward, if the Company may provide more loans to other infrastructure sectors viz. energy where the problem of non-payments may arise.

35. Regulatory risk can affect the projects during their operating phase, resulting in enhanced risk to assets portfolio:

There are risks emanating from regulatory policies/requirements leading to delays, cost overrun etc. Owing to the nature of assets constructed/controlled by Infrastructure Projects, they are bound by various regulations and are subjected to various approvals and clearances. Such approvals are required to be obtained at various stages in the project's life cycle. Delays in obtaining approvals or complying with regulations may lead to delay in implementation, cost overrun or increase in the operating costs, and may have an overall impact on the operating performance of the project. This

is particularly relevant for the Company's business as majority of the projects that the Company lends to may have received only provisional COD and final COD may still be pending. Regulations may change during the life of a project, requiring mid-course change in projects and additional costs. Environment related approvals, or delay in acquisition of land are examples of such risks.

The risks enumerated above for the Infrastructure sector are not equally significant for all projects. The significance of particular risks will differ from project to project, depending upon sector characteristics.

For example, toll road projects may have high construction risk, low operating risk, and high market risk. On the other hand, telecommunication projects may have low construction risks but high market risk. Power projects with suitable offtake and fuel sourcing contracts may have high construction risk, relatively low operational and market risks, and high payment risk. Each project has its own risk profile, and risk mitigation structures will vary depending on the specific requirements of each project.

RISK ASSOCIATED WITH INFRASTRUCTURE DEBT INSTRUMENTS:

An issuer of a fixed income security may be unable to make timely principal and interest payments on the security. There may be downward valuation of investments on account of movement in interest rates. There may be a low volume in the secondary market of the investments held by the Company. Any returns generated on underlying assets (such as periodic interest payments/scheduled repayment) may be deployed at a yield lower than the yield on existing assets.

36. Risks relating to listing and trading:

Trading in the Debentures may be halted due to market conditions or under the directions of SEBI. There could also be trading halts caused by extraordinary market volatility. Further, there can be no assurance that the requirements of the exchange necessary to maintain the listing of the Debentures will continue to be met or will remain unchanged. Listing and trading of the units are undertaken on the stock exchanges within the rules, regulation and policy of the stock exchange and SEBI. Any change in trading rules, regulation and policy by the regulatory authority would have a bearing on the trading of the Debentures.

The Company does not guarantee that the Debentures issued pursuant to the Issue will be listed on BSE in a timely manner, or at all or that monies refundable will be refunded in a timely manner. Though the Debentures are proposed to be listed on the stock exchange, there is no assurance that an active secondary market will develop. Hence, there would be times when trading in the Debentures would be infrequent.

37. Lack of market for the debentures can result in volatility in debenture pricing:

There can be no assurance that a public market for these Debentures would develop and if developed, will remain so for the tenure of the Debentures.

There is no obligation for the Company to develop or maintain the market for the Debentures. The liquidity and market price of the Debentures would be affected by the lack of market, and this could also result in market price of Debentures being traded at a discount to the purchase price.

38. Any downgrading in credit rating of Debentures will affect the trading and pricing of the Debentures:

The Company cannot guarantee that the current rating of the Debentures will not be downgraded or that the revised ratings obtained for Debentures issued beyond the above noted limits will be the same as the current rating of the Debentures. The ratings may also be suspended, withdrawn or put on watch by the rating agencies. Any such rating actions may lower the value of the Debentures and may also affect the Company's ability to raise further equity through issue of Debentures or otherwise. This will affect the resource capability and business prospects of the Company.

39. Changes in market interest rates may affect the price of the Debentures to be issued:

The Debentures will bear a fixed rate of interest and like all other market securities are subject to price risk. The market price of such securities will vary inversely with movement in interest rates.

The extent of fall in the prices will be a function of extent of increase in market interest rates.

40. The Company may raise further bond/ debenture borrowings and charge its assets towards the future investors/ lenders; this may reduce the amounts recoverable by the NCD Holders upon the Company's liquidation:

The Company will be required to raise further funds, both domestic and off-shore, through bonds/ debentures/ other debt instruments on an ongoing basis as part of its routine business and charge its assets. The Company has the flexibility to decide the nature of security that may be provided for future borrowings.

Where the entire subscription amount has been refunded, the Interest on application money will be paid along with the refund orders.

Where an applicant is allotted a lesser number of Debentures than applied for, the excess amount paid on application will be refunded to the applicant along with the Interest on application money.

- Computation of interest

Interest for each of the relevant Interest Periods shall be computed on the basis of actual number of days elapsed in a year of 365 (three hundred and sixty five) days or 366 days (three hundred and sixty six days) in case of a leap year.

Interest at the applicable Interest rate will be paid only to the beneficiaries as per the beneficiary list provided by the Depository as on the Record Date. Interest on the Debentures shall be payable on the relevant Interest Payment Date for the respective series of Debentures, and if such day is not a Working Day, then the Working Day immediately after such day provided that the Interest shall be calculated till the last day of the relevant Interest Payment Period, in each case calculated on the respective Principal Amounts under the Pricing Supplement.

In the case of joint holders of Debentures, Interest shall be payable to the first named Debenture Holder. The provisions of the Depositories would be compiled by the Registrar for facilitating Interest payment by the Company on the relevant Interest Payment Date.

In the case of redemption of any of the Debentures on a day other than an Interest Payment Date, accrued Interest on the Debentures for such broken period shall be paid on a pro-rata basis.

All payments made by the Issuer to any Debenture Holder are exclusive of all taxes, other than any taxes on income which income taxes may be deducted at source as per the IT Act or any other statutory modification or re-enactment thereof, and such sums shall be credited / deposited as per the provisions of IT Act.

- Redemption

Each series of the Debentures will be redeemed on their respective Final Maturity Dates.

- Payment on redemption

Payment of the redemption amount of the Debentures will be made by the Company to the beneficiaries as per the beneficiary list provided by the Depositories as on the Record Date. The Debentures shall be taken as discharged on payment of the outstanding amounts of the Debentures by the Company to the beneficiaries as per the beneficiary list. Such payment will be a legal discharge of the liability of the Company towards the Debenture Holders. On such payment being made, the Company will inform the Depository and accordingly the account of the Debenture Holders with Depositories will be adjusted. The Company's liability to the Debenture Holder for each series of Debentures in respect of all their rights including for payment or otherwise shall cease and stand extinguished after the respective Final Maturity Date. Upon dispatching the payment instrument towards payment of the outstanding amounts of the Debentures as specified above in respect of the Debentures, the liability of the Company shall stand extinguished. Further, the Issuer will not be liable to pay any interest or compensation from such date of redemption.

- Interest Rate in case of default

On the failure of the Issuer to pay any sums when due under the Debenture Documents, the Company shall be liable to pay to the Debenture Holders, Default Interest on the Outstanding Amounts (other than Default Interest) for the period of delay which amounts shall be in addition to the Interest which shall continue to be chargeable till the actual date of payment.

- Splitting and Consolidation

Splitting and consolidation of the Debentures is not applicable in the demat mode form since the saleable lot is one Debenture.

- Mode of Transfer

The Debentures shall be freely transferable to all classes of eligible investors subject to compliance with Applicable Laws, provided however that holders of the Debentures may transfer the Debentures as may be permitted in the respective Pricing Supplement(s). The Debentures shall be transferred and/or transmitted in accordance with applicable provisions of the Companies Act and other Applicable Laws.

Transfer of Debentures (being in dematerialised form) would be in accordance to the rules/procedures as prescribed by the Depositories.

- Rights of Debenture Holders

The Debentures Holder(s) shall not be entitled to any right and privileges of shareholders other than those available to them under any Applicable Law including the Companies Act and the Debenture Documents. The Debentures shall not confer upon the Debenture Holders the right to receive notice(s) or to attend and to vote at any general meeting(s) of the shareholders of the Company.

- Modification of Rights

The rights, privileges, terms and conditions attached to the Debentures may be varied, modified or abrogated with the consent, in writing, of Majority Debenture Holders, or where such rights, terms, privileges etc. pertain to only a specific Series of Debentures and not all Debentures, of Majority Debenture Holders-Series, or with the sanction accorded pursuant to a resolution passed at a meeting of the Debenture Holders (or the Debenture Holders of a particular Series, as the case may be), carried by a majority consisting of not less than three-fourths of the persons voting there upon a show of hands or, if a poll is demanded by a majority representing not less than three-fourths in value of the votes cast on such poll, provided that nothing in such consent or resolution shall be operative against the Issuer where such consent or resolution modifies or varies the terms and conditions of the Debentures, if the same are not accepted in writing by the Issuer. Provided however that where the Debenture Trustee determines any such condition, terms etc. which are to be modified to be of a of a formal, negligible, minor or technical nature, the Debenture Trustee may, at any time, without prejudice to the rights of the Debenture Holders in respect of any subsequent modification, modify such rights, privileges, terms and conditions.

- Creation of Security

The Issuer shall secure the sums payable under the Debentures by a first ranking pari passu charge on:

DETAILS OF LITIGATIONS

1. ICICI Bank Limited (“ICICI Bank”)

- (a) **Nagpur & Nashik Municipal Corporation** issued demands on ICICI Bank for Rs. 11.1 mn and Rs. 10.4 mn towards octroi with 10 times penalty for alleged evasion of octroi on gold coins brought into the Bank’s branches within Nagpur and Nashik city respectively. In respect of Nashik, ICICI Bank has paid the duty with penalty under protest and sought refund of the penalty while in respect of Nagpur the Bank offered to pay the duty but not the penalty. While the duty has been accepted the penalty is being contested and the matter is pending before the Hon’ble High Court at Nagpur.
- (b) **Pune Municipal Corporation** in 2009 issued a demand on ICICI Bank for Rs. 1.28 crores with 10 times penalty for alleged evasion of octroi on gold coins brought into ICICI Bank’s branches within Pune city. A criminal complaint has been filed against ICICI Bank. ICICI Bank offered to pay the octroi with nominal penalty which was rejected. On filing a quash petition the Bombay High Court has stayed the proceedings.
- (c) **Financial Intelligence Unit**: a penalty of Rs. 1.4 million was imposed on ICICI Bank in February 2015 by the Financial Intelligence Unit, India (FIU-IND). ICICI Bank has filed an appeal against the penalty, which was imposed for failure in reporting of the attempted suspicious transactions pertaining to media sting incidents.

Dear Mr. Suvek Nambiar,

Re CRISIL Rating for the Rs.2000 Crore Non-Convertible Debentures of India Infradebt Limited

We refer to your request for a rating for the captioned Non-Convertible Debentures.

CRISIL has, after due consideration, assigned its "CRISIL AAA/Stable" (pronounced as CRISIL triple A rating with Stable outlook) rating to the captioned debt instrument. Instruments with this rating are considered to have the highest degree of safety regarding timely servicing of financial obligations. Such instruments carry lowest credit risk.

For the purpose of issuance of the captioned debt instrument, this letter is valid for 180 calendar days from the date of the letter. In the event of your company not placing the above instrument within this period, or in the event of any change in the size/structure of your proposed issue, the rating shall have to be reviewed and a letter of revalidation shall have to be issued to you. Once the instrument is issued, the above rating is valid throughout the life of the captioned debt instrument.

As per our Rating Agreement, CRISIL would disseminate the rating along with outlook through its publications and other media, and keep the rating along with outlook under surveillance for the life of the instrument. CRISIL reserves the right to withdraw or revise the ratings assigned to the captioned instrument at any time, on the basis of new information, or unavailability of information or other circumstances, which CRISIL believes, may have an impact on the rating.

As per the latest SEBI circular (reference number: CIR/IMD/DF/17/2013; dated October 22, 2013) on centralized database for corporate bonds/debentures, you are required to provide international securities identification number (ISIN; along with the reference number and the date of the rating letter) of all bond/debenture issuances made against this rating letter to us. The circular also requires you to share this information with us within 2 days after the allotment of the ISIN. We request you to mail us all the necessary and relevant information at debtissue@crsil.com. This will enable CRISIL to verify and confirm to the depositories, including NSDL and CDSL, the ISIN details of debt rated by us, as required by SEBI. Feel free to contact us for any clarifications you may have at debtissue@crsil.com

Should you require any clarifications, please feel free to get in touch with us.

1 crore = 10 million

Refer to annexure for Details of Instruments & Bank Facilities

Detailed Rationale

CRISIL has assigned its 'CRISIL AAA/Stable' rating to the Rs.2000 crore non-convertible debentures (NCDs) of India Infradebt Limited (Infradebt), an infrastructure debt fund set up through the non-banking finance company route (IDF-NBFC) and reaffirmed its rating on the other debt instruments.

Key Rating Drivers & Detailed Description

* Focused and predictable business model:

The guidelines for IDF-NBFCs now provide flexibility to the hitherto closed-box structure of the business model of IDF-NBFCs. In addition to tripartite-backed projects, the guidelines permit IDF-NBFCs to invest in (i) public-private partnership (PPP) infrastructure projects with at least one year of satisfactory operations without a tripartite agreement, and (ii) infrastructure projects with at least one year of satisfactory operations. Such investments will not have asset quality protection through the in-built credit enhancement provided by the tripartite agreement, thereby exposing IDF-NBFCs to the inherent risks in these projects.

Concentration limits for tripartite-backed projects allow IDF-NBFCs to invest up to 50% of their total capital funds in individual projects, with additional exposure permitted through Board approval and Reserve Bank of India (RBI) approval depending on the quantum. However, in non-tripartite backed projects, IDF-NBFCs can invest a maximum of 25% of owned funds in a single project, and 40% of owned funds in projects of a single group of borrowers. This is expected to keep the concentration risk low, in the portfolio.

Furthermore, given that IDF-NBFCs can now refinance operational projects across the spectrum, Infradebt's business plan is expected to result in greater diversification, both across sectors and across projects. The company proposes to diversify only into assets that carry low credit risk and/or in sectors with a good recovery track record such as solar, wind, and transmission projects. Assets in the renewables sector, which is expected to constitute a significant portion of the non-tripartite portfolio, will have average credit quality equivalent to CRISIL adequate-safety category and a minimum investment-grade rating. Additionally, there could be selective exposure to assets in the hotels and hospitals sectors having average credit quality equivalent to CRISIL adequate-safety category. Infradebt's business model will, therefore, remain focused and predictable.

* Experienced management team and expectation of prudent management policies:

Infradebt has a strong professional management team that has been able to build the business in a niche segment. Management is expected to follow prudent policies in scaling up and diversifying the portfolio.

* Comfortable capitalisation:

Capitalisation, as measured by the leverage ratio, remains an important driver of Infradebt's credit risk profile. In the original regulatory framework, the fundamental element of asset protection through a tripartite agreement enabled IDF-NBFCs to operate at higher leverage than other NBFCs. CRISIL's rating had factored in a leverage of 9 times in the initial years of operation, with scope for the leverage to increase as enforceability of the tripartite agreement is established and business performance is demonstrated. CRISIL believes the leverage provides healthy coverage against potential asset-side risks. Furthermore, Infradebt has raised additional equity capital of Rs 400 crore in fiscal 2018 pursuant to rights issue, which will enhance the company's capital position.

Outlook: Stable

CRISIL believes Infradebt will operate within well-defined business and financial contours as outlined by business plan, and will benefit from its experienced management team and prudent management policies. The outlook may be revised to 'Negative' in case of material deviations from the business plan or weaker-than-expected asset quality.

About the Company

Infradebt received its IDF-NBFC license in February 2013. It is a joint venture of ICICI Bank Ltd ('CRISIL AAA/Stable'), ICICI Home Finance Ltd, Bank of Baroda ('CRISIL AAA/Stable/CRISIL AA+/Negative'), Citicorp Finance (India) Ltd ('CRISIL AAA/CRISIL PP-MLD AA+/Stable/CRISIL A1+'), and Life Insurance Corporation of India.

For fiscal 2018, Infradebt reported a profit after tax (PAT) of Rs 132 crore and total income of Rs 662 crore, against a PAT of Rs 48 crore on total income of Rs 335 crore for the previous fiscal. The portfolio stood at Rs 7,719 crore as on March 31, 2018 as against Rs 4559 crore in the previous fiscal.

As on March 31, 2018, the company had a networth of Rs 941 crore with total debt outstanding of Rs 7,100 crore.

Rating action

ICRA has assigned a long-term rating of [ICRA]AAA (pronounced ICRA triple A) to the Rs. 5,000¹ crore non-convertible programme of India Infradebt Limited (India Infradebt)². ICRA has a rating outstanding of [ICRA]AAA for the Rs. 9,000 crore non convertible debenture programme and the Rs. 410 crore subordinated debt programme of India Infradebt. ICRA also has a rating outstanding of [ICRA]A1+ (pronounced ICRA A one plus) for the Rs. 500 crore commercial paper programme of India Infradebt. The outlook on the long-term ratings is 'Stable'.

Rationale

The ratings reflect the strength of the promoters, relatively tighter regulatory framework necessitating investment only in operational projects, strong management team, stringent underwriting norms reflected in strong asset quality, good risk mitigants and improving profitability indicators. The promoters of India Infradebt are ICICI Bank Limited (rated [ICRA]AAA(stable)/[ICRA]A1+), Bank of Baroda (rated [ICRA]AAA(stable)/[ICRA]A1+), Citicorp Finance (India) Limited (rated [ICRA]AAA(stable)/[ICRA]A1+) and Life Insurance Corporation of India Limited.

Outlook: Stable

ICRA believes India Infradebt will continue to benefit from the relatively tight regulatory framework, regular capital support from the sponsors, experienced management and prudent policy framework. The outlook may be revised to 'Negative' if there is any significant change in the credit profile of sponsors of the company or decline in support from the sponsors, adverse change in the regulatory framework or significant deterioration in asset quality. Also, ability to raise adequate capital to support the business growth while maintaining prudent capitalisation profile and sound asset quality would be key monitorables.

Key rating drivers

Credit strengths

Strong parentage and experienced management team - India Infradebt was set up by ICICI Bank Limited (rated [ICRA]AAA (stable) / [ICRA]A1+), Bank of Baroda (rated [ICRA]AAA (stable) / [ICRA]A1+), Citicorp Finance (India) Limited (rated [ICRA]AAA (stable) / [ICRA]A1+) and Life Insurance Corporation of India Limited in October 2012. ICRA takes comfort from strong sponsors of the company and their demonstrated financial support. The company has a strong management team with good underwriting norms and risk mitigants in place.

Strong business model - The earlier RBI guidelines for infrastructure debt funds (IDFs) necessitated IDF-NBFCs to invest in debt securities of /or lend to only Public-Private Partnership (PPP) infrastructure projects with a project authority, that had completed at least one year of commercial operations. For each exposure, IDF-NBFCs were required to have a tripartite agreement with the concessionaire and the project authority for ensuring a compulsory buyout with termination payment. The revised guidelines issued by the RBI in FY2016, however, widened the scope of financing by IDFs to include investments in PPP projects without a project authority and non-PPP projects with minimum one year of commercial operations. ICRA notes that the absence of tripartite agreements would expose the IDFs to the risk associated with the project in the event of termination; however, construction and execution risks are avoided as IDFs can take exposure only after a minimum of one year of successful operations post Commercial Operations Date. India Infradebt's portfolio stood at Rs. 7,719 crore as on March 31, 2018 (as compared to Rs. 4,559 crore as on March 31, 2017), registering an annual growth of ~69% in 2018. Road projects backed by tripartite agreements have the highest share of 48% in the portfolio as on March 31, 2018 followed by renewable energy (45%). The share of roads has reduced from 68% as on March 31, 2017 to 48% as on March 31, 2018 with growth in renewable being higher than the growth in roads.

Favourable liquidity profile -The liquidity profile is favourable as IDFs are allowed to raise resources through issue of bonds of minimum five year maturity in line with the maturity profile of their assets; shorter tenure bonds and commercial papers are not allowed beyond 10% of the outstanding debt. Since IDF-NBFC can invest only in projects that have completed at least one year of commercial operations, loan repayments start immediately after disbursement. ICRA also derives comfort from the strong financial flexibility of the sponsors and expects the support to be forthcoming as and when required.

Adequate capitalisation - The company's capitalisation remains adequate with networth of Rs. 941 crore as on March 31, 2018 with capital adequacy ratio (CRAR) of 22.79% as against the regulatory requirement of 15% (tier II capital to not exceed tier I capital for NBFC-IDFs) and gearing of 7.78x. The capitalisation of the company is supported by the demonstrated support from the sponsors. The sponsors have provided capital support to the entity during the latest round of funding in FY2018; the sponsors infused Rs. 400 crore of capital through a rights issue. Given the growth plans, the company would need capital to grow as per the business plans while maintaining prudent capitalisation levels as internal capital generation is expected to be lower than the rate of growth. In ICRA's opinion, prudent capitalisation levels is one of the key risk mitigant and monitorable for a portfolio that has relatively higher concentration risk.

Profitability supported by the tax exemption status enjoyed by IDFs - . With the growth in portfolio, the company reported a PAT of Rs. 132 crore in FY2018 (2.0% of ATA) as compared to Rs. 48 crore in FY2017 (1.3% of ATA). Subject to compliance of conditions stipulated by the Central Board of Direct Taxes (CBDT), an IDF-NBFC's income is exempt from tax, which supports its profitability.

Credit challenges

Concentration risk – Regulations require that all IDFs lend only to operational projects with at least one year of commercial operations, which eliminates construction and execution risk. However, the inherent nature of infrastructure financing entails chunky exposures to few sectors, leaving the portfolios vulnerable to asset quality shocks in case of slippages. ICRA, however, draws comfort from the company's strong risk management systems. Going forward, the company's ability to maintain strict underwriting standards would be a key monitorable.

Regulatory risk – ICRA takes note of the advantage enjoyed by IDFs on account of their tax exemption and that any changes in these regulations could have an adverse impact on their profitability.

Disclaimer of the Debenture Trustee

The Debenture Trustee, “*ipso facto*” does not have the obligations of a borrower or a principal debtor or a guarantor as to the monies paid / invested by the investors for the Tranche II Debentures / bonds.

Lock-in on investment by non-resident investors

As per the current Indian regulations, the Issuer has the benefit of section 10(47) of the Income Tax Act, 1961 (read with Rule 2F of the Income Tax Rules) whereby any income of an Infrastructure Debt Fund shall not be considered for computing ‘income’ for the purpose of the Income Tax Act, 1961 provided, inter alia, that all the investments made by a non-resident investor in foreign currency or rupee denominated bonds or rupee denominated units, as the case may be, issued by an Infrastructure Debt Fund would be subject to a lock-in period of three years. However, the non-resident investors investing in the Debentures may transfer the Debentures to another non-resident investor within such lock-in period and to any other person only after three years.

NOTE

Lock-in period

The Issuer has the benefit of Section 10(47) of the Income Tax Act, 1961 which provides that any income of an Infrastructure Debt Fund, set up in accordance with the guidelines as may be prescribed (Guidelines issued by the Reserve Bank of India on November 21, 2011 having reference number RBI/2011-12/268 DNBS.PD.CC.No.249/03.02.089/2011-12 which has been consolidated into the RBI NBFC Master Directions, 2016), which is notified by the Central Government in the Official Gazette for the purposes of this clause, shall not be considered for computing 'income' for the purposes of the Income Tax Act, 1961 provided inter alia that in case of an investor in the debenture/bond issued by the Infrastructure Debt Fund being a non-resident, the original or initial maturity of debenture/bond, at time of first investment by such non-resident investor, shall not be less than a period of five years and provided that the investment made by a non-resident investor in such debentures/bonds shall be subject to a lock in period of not less than three years, but the non-resident investor may transfer the debenture/bond to another non-resident investor within such lock in period. The Investors shall therefore ensure that no action is taken by them (including any transfers not in compliance with the lock-in period) which results in the benefit of the aforesaid provision not being available to the Issuer and for such purpose the Issuer shall have the sole right to reject and not recognise any transfers of Debentures if the same is not in compliance with the terms and conditions as specified above.

Validity of the Shelf Disclosure Document

According to Regulation 21A of the SEBI Regulations, a shelf disclosure document is valid for a period of 180 days from the date of filing the document with a stock exchange. Accordingly, the Shelf Disclosure Document shall be valid for a period of 180 days from the date of its filing with the BSE (i.e., January 8, 2019).

CRISIL RATING RATIONALE

Ratings

Rating Rationale
October 05, 2018 | Mumbai

India Infradebt Limited
'CRISIL AAA/Stable' assigned to NCD

Rating Action

Rs.2000 Crore Non Convertible Debentures	CRISIL AAA/Stable (Assigned)
Rs.4000 Crore Non Convertible Debentures	CRISIL AAA/Stable (Reaffirmed)
Rs.200 Crore Non Convertible Debentures	CRISIL AAA/Stable (Reaffirmed)
Non-Convertible Debentures Aggregating to Rs.4000 Crore	CRISIL AAA/Stable (Reaffirmed)
Rs.250 Crore Subordinated Debt	CRISIL AAA/Stable (Reaffirmed)

1 crore = 10 million
Refer to annexure for Details of Instruments & Bank Facilities

Detailed Rationale

CRISIL has assigned its 'CRISIL AAA/Stable' rating to the Rs.2000 crore non-convertible debentures (NCDs) of India Infradebt Limited (Infradebt), an infrastructure debt fund set up through the non-banking finance company route (IDF-NBFC) and reaffirmed its rating on the other debt instruments.

Key Rating Drivers & Detailed Description

* Focused and predictable business model:

The guidelines for IDF-NBFCs now provide flexibility to the hitherto closed-box structure of the business model of IDF-NBFCs. In addition to tripartite-backed projects, the guidelines permit IDF-NBFCs to invest in (i) public-private partnership (PPP) infrastructure projects with at least one year of satisfactory operations without a tripartite agreement, and (ii) infrastructure projects with at least one year of satisfactory operations. Such investments will not have asset quality protection through the in-built credit enhancement provided by the tripartite agreement, thereby exposing IDF-NBFCs to the inherent risks in these projects.

Concentration limits for tripartite-backed projects allow IDF-NBFCs to invest up to 50% of their total capital funds in individual projects, with additional exposure permitted through Board approval and Reserve Bank of India (RBI) approval depending on the quantum. However, in non-tripartite backed projects, IDF-NBFCs can invest a maximum of 25% of owned funds in a single project, and 40% of owned funds in projects of a single group of borrowers. This is expected to keep the concentration risk low, in the portfolio.

Furthermore, given that IDF-NBFCs can now refinance operational projects across the spectrum, Infradebt's business plan is expected to result in greater diversification, both across sectors and across projects. The company proposes to diversify only into assets that carry low credit risk and/or in sectors with a good recovery track record such as solar, wind, and transmission projects. Assets in the renewables sector, which is expected to constitute a significant portion of the non-tripartite portfolio, will have average credit quality equivalent to CRISIL adequate-safety category and a minimum investment-grade rating. Additionally, there could be selective exposure to assets in the hotels and hospitals sectors having average credit quality equivalent to CRISIL adequate-safety category. Infradebt's business model will, therefore, remain focused and predictable.

* Experienced management team and expectation of prudent management policies:

Infradebt has a strong professional management team that has been able to build the business in a niche segment. Management is expected to follow prudent policies in scaling up and diversifying the portfolio.

* Comfortable capitalisation:

Capitalisation, as measured by the leverage ratio, remains an important driver of Infradebt's credit risk profile. In the original regulatory framework, the fundamental element of asset protection through a tripartite agreement enabled IDF-NBFCs to operate at higher leverage than other NBFCs. CRISIL's rating had factored in a leverage of 9 times in the initial years of operation, with scope for the leverage to increase as enforceability of the tripartite agreement is established and business performance is demonstrated. CRISIL believes the leverage provides healthy coverage against potential asset-side risks. Furthermore, Infradebt has raised additional equity capital of Rs 400 crore in fiscal 2018 pursuant to rights issue, which will enhance the company's capital position.

Outlook: Stable

CRISIL believes Infradebt will operate within well-defined business and financial contours as outlined by business plan, and will benefit from its experienced management team and prudent management policies. The outlook may be revised to 'Negative' in case of material deviations from the business plan or weaker-than-expected asset quality.

About the Company

Infradebt received its IDF-NBFC license in February 2013. It is a joint venture of ICICI Bank Ltd ('CRISIL AAA/Stable'), ICICI Home Finance Ltd, Bank of Baroda ('CRISIL AAA/Stable/CRISIL AA+/Negative'), Citicorp Finance (India) Ltd ('CRISIL AAA/CRISIL PP-MLD AAA/Stable/CRISIL A1+'), and Life Insurance Corporation of India.

For fiscal 2018, Infradebt reported a profit after tax (PAT) of Rs 132 crore and total income of Rs 662 crore, against a PAT of Rs 48 crore on total income of Rs 335 crore for the previous fiscal. The portfolio stood at Rs 7,719 crore as on March 31, 2018 as against Rs 4559 crore in the previous fiscal.

As on March 31, 2018, the company had a networth of Rs 941 crore with total debt outstanding of Rs 7,100 crore.

Dear Sir,

Re: **ICRA Credit Rating for Rs. 14,000 crore Non Convertible Debenture Programme of India Infradebt Limited**

In terms of the Rating Agreement, executed between your company and ICRA Limited (ICRA), ICRA is required to review the rating, on an annual basis, or as and when the circumstances so warrant.

Please note that the Rating Committee of ICRA, after due consideration of the latest development in your company, has reaffirmed the rating of the captioned programme at "[ICRA]AAA" (pronounced as ICRA triple A). Instruments with [ICRA]AAA rating are considered to have the highest degree of safety regarding timely servicing of financial obligations. Such instruments carry lowest credit risk. The outlook on the long term rating is stable.

In any of your publicity material or other document wherever you are using our above rating, it should be stated as [ICRA]AAA(stable).

This rating is specific to the terms and conditions of the proposed issue as was indicated to us by you and any change in the terms or size of the issue would require the rating to be reviewed by us. If there is any change in the terms and conditions or size of the instrument rated, as above, the same must be brought to our notice before the issue of the instrument. If there is any such change after the rating is assigned by us and accepted by you, it would be subject to our review and may result in change in the rating assigned.

ICRA reserves the right to review and/ or, revise the above rating at any time on the basis of new information or unavailability of information or such other circumstances, which ICRA believes, may have an impact on the rating assigned to you.

The rating, as aforesaid, however, should not be treated as a recommendation to buy, sell or hold the instruments issued by you.

You are requested to furnish a monthly 'No Default Statement (NDS)' (in the format enclosed) on the first working day of every month, confirming the timeliness of payment of all obligations against the rated debt programme. This is in line with requirements as prescribed in circular dated June 30, 2017 on 'Monitoring and Review of Ratings by Credit Rating Agencies (CRAs)' issued by the Securities and Exchange Board of India

You are also requested to forthwith inform us about any default or delay in repayment of interest or principal amount of the instrument rated, as above, or any other debt instruments/ borrowing and keep us informed of any other developments which may have a direct or indirect impact on the debt servicing capability of the company including any proposal for re-schedulement or postponement of the repayment programmes of the dues/ debts of the company with any lender(s) / investor(s). Further, you are requested to inform us immediately as and when the borrowing limit for the instrument rated, as above, or as prescribed by the regulatory authority(ies) is exceeded.

Enclosed herewith is a copy of the rationale of the assigned rating for your reference. We request you to provide your comments on the rationale, if any, by April 3, 2019.

We thank you for your kind cooperation extended during the course of the rating exercise. Please let us know if you need any clarification. We look forward to further strengthening our existing relationship and assure you of our best services.

With kind regards,
Yours sincerely,
For ICRA Limited

Rationale

The ratings reflect the strength of India Infradebt Limited's sponsors, the relatively tighter regulatory framework necessitating investment only in operational projects, favorable liquidity position, comfortable capitalisation, strong management team, stringent underwriting norms reflected in strong asset quality, good risk mitigants and improving profitability indicators. The promoters/sponsor of India Infradebt are ICICI Bank Limited (rated [ICRA]AAA(Stable)/[ICRA]A1+), Bank of Baroda (rated [ICRA]AAA(Stable)/[ICRA]A1+), Citicorp Finance (India) Limited (rated [ICRA]AAA(Stable)/[ICRA]A1+) and Life Insurance Corporation of India Limited. ICRA notes that there could be some temporary increase in the delinquencies in light of the recent issues related to some SPVs not repaying on the debt despite having sufficient cashflows. Notwithstanding this, ICRA, draws comfort from the company's strong risk management systems and expects the company to continue to report good asset quality indicators while growing business volumes. Going forward, the company's ability to grow its loan book while maintaining prudent capitalisation levels and strict underwriting standards would be a key monitorable.

Outlook: Stable

ICRA believes India Infradebt will continue to benefit from the relatively tight regulatory framework, regular capital support from the sponsors, experienced management and prudent policy framework. The outlook may be revised to 'Negative' if there is any significant change in the credit profile of sponsors of the company or decline in support from the sponsors, adverse change in the regulatory framework or significant deterioration in asset quality.

Key rating drivers

Credit strengths

Strong sponsors and experienced management team - India Infradebt was set up by ICICI Bank Limited (rated [ICRA]AAA (stable) / [ICRA]A1+), Bank of Baroda (rated [ICRA]AAA (stable) / [ICRA]A1+), Citicorp Finance (India) Limited (rated [ICRA]AAA (stable) / [ICRA]A1+) and Life Insurance Corporation of India Limited in February 2013. ICRA takes comfort from strong sponsors of the company and their demonstrated financial support. The company has a strong management team with good underwriting norms and risk mitigants in place.

Regulatory framework supports low credit risk - The earlier RBI guidelines for infrastructure debt funds (IDFs) necessitated IDF-NBFCs to invest in debt securities of /or lend to only Public-Private Partnership (PPP) infrastructure projects with a project authority, that had completed at least one year of commercial operations. For each exposure,

IDF-NBFCs were required to have a tripartite agreement with the concessionaire and the project authority for ensuring a compulsory buyout with termination payment. The revised guidelines issued by the RBI in FY2016, however, widened the scope of financing by IDFs to include investments in PPP projects without a project authority and non-PPP projects with minimum one year of commercial operations. ICRA notes that the absence of tripartite agreements would expose the IDFs to the risk associated with the project in the event of termination; however, construction and execution risks are avoided as IDFs can take exposure only after a minimum of one year of successful operations post Commercial Operations Date.

Strong portfolio growth; amidst reduced share of PPP projects - India Infradebt's portfolio stood at Rs. 9,168 crore as on December 31, 2018 (as compared to Rs. 7,703 crore as on March 31, 2018), registering an annualised growth of ~25% during 9MFY2019. Renewable energy segment had the highest share of 58% in the portfolio as on December 31, 2018 followed by Road projects backed by tripartite agreements (39%). The share of roads has reduced from 50% as on March 31, 2018 to 39% as on December 31, 2018 with robust growth in renewable segment. Going forward, share of renewable sector could increase further given the market opportunity in the sector and company taking selective exposures in the road sector.

Favourable liquidity profile – The liquidity profile is favourable as IDFs are allowed to raise resources through issue of bonds of minimum five-year maturity in line with the maturity profile of their assets; shorter tenure bonds and commercial papers are not allowed beyond 10% of the outstanding debt. Since IDF-NBFC can invest only in projects that have completed at least one year of commercial operations, loan repayments start immediately after disbursement. ICRA also derives comfort from the strong financial flexibility demonstrated support of the sponsors.

Comfortable capitalisation – The company's capitalisation remains comfortable with net worth of Rs. 1,587 crore as on December 31, 2018 with capital adequacy ratio (CRAR) of 23.43% (Tier I – 18.91%) as against the regulatory requirement of 15% (Tier I - 10%) and gearing of 5.47x as at December 31, 2018. The capitalisation of the company is supported by the demonstrated capital support from the sponsors of Rs. 400 crore rights issue in FY2018 and second rights issue in October 2018 in which ICICI Bank and Bank of Baroda subscribed to the additional shares aggregating ~Rs. 539 crore. Further, there is possibility of LIC shares being subscribed representing additional capital inflow of ~Rs.60 crore, thus providing adequate growth capital for the company for medium term. In ICRA's opinion, prudent capitalisation level is one of the key risk mitigant and monitorable for a portfolio that has a relatively higher concentration risk.

Profitability supported by the tax exemption status enjoyed by IDFs - While spreads for the company have largely remained stable during 9MFY2019, with the decline in gearing, the company's net interest margins (NIMs) improved to 2.08% in 9MFY2019 (2.00% in FY2018). Due to the wholesale nature of operations, the company's operating expenses remained low at 0.31% of average total assets during 9MFY2019 (0.33% in FY2018). As at December 31, 2018, the company had nil stage 3 assets. Owing to strong asset quality, the provisioning costs were low at 0.23% of ATA during 9MFY2019. Overall, the company reported profit after tax (PAT) of Rs. 140 crore during 9MFY2019 (2.01% of ATA) compared to Rs. 124 crore in FY2018 (2.00% of ATA). Subject to compliance of conditions stipulated by the Central Board of Direct Taxes (CBDT), an IDF-NBFC's income is exempt from tax, which supports its overall profitability. ICRA takes note that any changes in these regulations could have an adverse impact on their profitability

Credit challenges

Concentration risk – Regulations require that all IDFs lend only to operational projects with at least one year of commercial operations, which eliminates construction and execution risk. However, the inherent nature of infrastructure financing entails concentrated exposures to few sectors, making the portfolios vulnerable to asset quality shocks. ICRA, however, draws comfort from the company’s prudent underwriting and risk management systems. Going forward, the company’s ability to maintain strict underwriting standards while growing the portfolio would be a key monitorable.

Exposure to IL&FS SPVs - The group has an overall exposure of ~Rs. 395 crore as on December 31, 2018 to the IL&FS special purpose vehicles (SPVs) classified as Amber entities by NCLAT as per order dated February 4, 2019, few which did not honour the debt repayment despite sufficient cashflows. This could push up delinquencies for the group in the interim, till there is greater clarity over the status of Amber entities with sufficient cash flows. Overall, the company’s ability to profitably grow business volumes while maintaining asset quality would have a bearing on its overall financial profile and would be a key monitorable.

Liquidity Position:

The liquidity profile is favourable as IDFs are allowed to raise resources through issue of bonds of minimum five-year maturity in line with the maturity profile of their assets; shorter tenure bonds and commercial papers are not allowed beyond 10% of the outstanding debt. Since IDF-NBFC can invest only in projects that have completed at least one year of commercial operations, loan repayments start immediately after disbursement. As at December 31, 2018 the company has available liquidity in the form of cash and liquid investments up to ~Rs. 1,000 crore, providing comfortable liquidity cover over the net NCD repayments of Rs. 135 crore over the next one year even after excluding the expected inflows from advances and investments.

ANNEXURE - 4
DETAILS OF LITIGATIONS

1. ICICI Bank Limited (“ICICI Bank”)

(a) **Nagpur & Nashik Municipal Corporation** issued demands on ICICI Bank for Rs. 11.1 mn and Rs. 10.4 mn towards octroi with 10 times penalty for alleged evasion of octroi on gold coins brought into the Bank’s branches within Nagpur and Nashik city respectively. In respect of Nashik, ICICI Bank has paid the duty with penalty under protest and sought refund of the penalty while in respect of Nagpur the Bank offered to pay the duty but not the penalty. While the duty has been accepted the penalty is being contested and the matter is pending before the Hon’ble High Court at Nagpur.

(b) **Pune Municipal Corporation** in 2009 issued a demand on ICICI Bank for Rs. 1.28 crores with 10 times penalty for alleged evasion of octroi on gold coins brought into ICICI Bank’s branches within Pune city. A criminal complaint has been filed against ICICI Bank. ICICI Bank offered to pay the octroi with nominal penalty which was rejected. On filing a quash petition the Bombay High Court has stayed the proceedings.

(c) In February 2015, penalty was imposed on several banks including ICICI Bank by the Financial Intelligence Unit, India for failure in reporting of attempted suspicious transactions, with respect to the incidents concerning the media sting operation in June 2013. The Bank was levied a penalty of ₹ 1.4 million which we had paid and filed an appeal against the penalty with the Appellate Tribunal. The Appellate Tribunal since ruled that the penalty was not sustainable and asked the appellant banks to be careful and report such matters in future.

3. Citicorp Finance (India) Limited (“CFIL”)

One case was before Department of Revenue (case file no. 5869) in which department has raised a liability of Rs. 97,35,139/-. CFIL had filed an application with Chief Controlling Revenue Authority (CCRA).

Against the appeal of CFIL, CCRA has dismissed the appeal in favour of SDM & has ordered to pay the deficient stamp duty amounting to Rs. 97,35,139 /- along with 12% interest on the deficient amount from the date of issuing of respective share certificates till the date of the Impugned Order and fine of Rs. 500/- as Compoundable fee. CFIL has made the payment of Rs. 1,57,11,601 /- as ordered, under protest. Apart from that, an application has also been filed with CCRA to refer the case to High Court to seek guidance on the substantial questions of law, under section 57(1) of the Indian Stamp Act, 1899, in consultation with in-house legal team, external counsel & external senior counsel. The case has now been listed for hearing before the Divisional Commissioner, Government of NCT, Delhi on May 12, 2017. From May 2016, the case has been adjourned to various dates of hearing between May 20, 2016 up to March 24, 2017. The case has not been taken-up for hearing by the Revenue Commissioner.

CFIL was in receipt of a notice from the office of Divisional Commissioner that the matter would be heard on May 4, 2018. However, CFIL has received an update from our Counsel that the Delhi Government is failing to assign an officer to hear the matter and CFIL will be notified of the next date of hearing by way of a fresh notice.

CORAM : ANOOP V. MOHTA, J.

JUDGMENT RESERVED ON : 14.2.2012

JUDGMENT PRONOUNCED ON : 27.2.2012

JUDGMENT:

1. The petitioner-bank has challenged the award passed by the Arbitrator (Office of Banking Ombudsman, Maharashtra and Goa) as 2 jud115.10 the matter was referred by consent of the parties to settle the dispute with respondent-Bank of Baroda. The respondent-claimant had agency agreement with M/s.U.A.E. Exchange Centre, Abu Dhabi (UEC) under which UEC issued draft payable by the Petitioner. The Petitioner paid draft through clearing which were presented by the Respondent totalling amount to Rs. 1,75,000/- all between period 29.6.1995 to 5.7.1995. Later on, it was found that the drafts were counterfeit, therefore, requested to refund the amount vide letter dated 21st July, 1995, therefore, dispute arose, which by consent of the parties decided to resolve as per the provisions of clause 21(2) of the Banking Ombudsman Scheme, 2002 (BOS-2002). The arbitrator based upon the same heard both the parties and passed the impugned order in following terms:

"49. The opposite party shall pay to the Claimant a sum of Rs. 1,75,000/- (Rupees one lakh seventy-five thousand only), being the amount the disputed drafts, along with interest from the respective dates of payment till the date of refund of the amounts, calculated at the Repo rate in force from time to time during the period."

2. Therefore, the present petition to challenge the same. Learned counsel appearing for the Petitioner basically contended that the award so passed based upon the transaction of 1995 is beyond period of limitation of three years which is available normally in such type of transactions. Admittedly, the demand was raised by 3 jud115.10 letter dated 21st July, 1995 which was opposed by the respondent and, therefore, the matter proceeded before the tribunal for adjudication. Learned counsel appearing for the respondent, however, submitted that no such objection was made any time before the arbitrator and, therefore, it is improbable to raise for the first time in section 34 petition.

3. Learned counsel appearing for the Petitioner has pointed out various grounds about jurisdiction including the ground of limitation.

Considering undisputed position on record where there is no question of any evidence required and as on face of record that the claim so raised and awarded, is beyond period of limitation. I have already observed in *Sealand Shipping & Exports Pvt. Ltd. v. Kin-Ship Services (India) Pvt. Ltd. and Others* 2011 Vol.113 (4) Bom.

L.R. 2142 which read thus:

25. The Apex Court, while dealing with Section 3 of the Limitation Act, in *Kamlesh Babu and ors. v. Lajpat Rai Sharma and ors.*, observed as under:

Bank Of Baroda vs Vijaya Bank on 27 February, 2012

"16. Having considered the submissions made on behalf of the respective parties, the decisions cited by them and the relevant law on the subject, we are unable to accept Ms Srivastava's submissions mainly on two counts. Firstly, the facts disclosed clearly indicate that neither the first appellate court nor the High Court took notice of Section 3(1) of the Limitation Act, 1963, which reads as follows:

4 jud115.10 "3. Bar of limitation.- (1) subject to the provisions contained in Sections 4 to 24 (inclusive), every suit instituted, appeal preferred, and application made after the prescribed period shall be dismissed although limitation has not been set up as a defence."

Even in the decision of this Court in Darshan Singh Case (2004) 1 SCC 328, the said provision does not appear to have been brought to the notice of the Hon'ble Judges who decided the matter.

17. It is well settled that Section 3(1) of the Limitation Act casts a duty upon the court to dismiss a suit or an appeal application, if made after the prescribed 1 (2008) 12 SCC 577 period, although, limitation is not set up as a defence.

18. In the instant case, such a defence has been set up in the written statement though no issue was framed in that regard. However, when the trial court had in terms of the mandate of Section 3(1) come to a finding that the suit was barred by limitation, it was the duty of the first appellate court and also of the High Court to go into the said question and to decide the same before reversing the judgment of the trial court on the various issues framed in the suit. Even though the various issues were decided in favour of the plaintiff, both by the first appellate court and the High Court, the same were of no avail since the suit continued to remain barred under Article 59 of the Limitation Act, 1963."

4. It is already observed that point of limitation goes to the root of the matter can be agitated in section 34 petition. In the present case, admittedly, the ground was raised alongwith other grounds of 5 jud115.10 jurisdiction. In view of undisputed position on record of the facts as well as of law, the award so passed is without jurisdiction.

5. Learned counsel appearing for the Respondent submitted that as there is dispute between two Nationalised Banks, let the matter be decided by adjudicatory mechanism declared by the Supreme Court for settlement of inter/intra governmental disputes by referring the matter to CoD (Committee on Disputes) and he has strongly relied on the order dated 18th June, 2009 passed by the Single Bench of this Court in the said matter whereby it is observed that "unless and until the petitioner produces clearance from high power committee proceedings shall not proceeded further". This order was based upon the judgments in Oil and Natural Gas Commission v. Collector of Central Excise, 1995 (Supp.) (4) SCC 541; Oil and Natural Gas Commission v. Collector of Central Excise 2004 (6) SCC 437 and Oil and Natural Gas Commission v. City & Industrial Development Corpn., Maharashtra Ltd. (2007) 7 SCC 39.

6. The Apex Court recently in Electronic Corporation of India Ltd. V. Union of India and Others (2011) 3 SCC 404 has dealt with same subject of reference of matter to such committee and observed that "though mechanism was set up with a laudable object but it led to delay in filing of appearance and causing loss of revenue, and ultimately observed that mechanism has outlived its utility and thereby recalled the direction given by the Supreme Court in the 6 jud115.10 judgments referred above (supra). Therefore, the submission raised by learned counsel appearing for the Respondents are unacceptable as there exists no such mechanism.

7. In the present case, the Respondents having once agreed to settle the dispute through arbitration and once the arbitrator has awarded, the claim was raised, there is no point now referring the matter back as contended for any other settlement mechanism.

8. Taking, therefore, overall view of the matter and in view of above as there is apparent illegality and the award so passed as contrary to law, therefore, I am inclined to set aside the same.

Bank Of Baroda vs Vjaya Bank on 27 February, 2012

9. The petitioner was directed by order dated 5th January, 2011 deposited a sum of Rs.175000/- in the Registry of this Court. As I am inclined to set aside the award, it is directed that an amount be returned to the Petitioner with accrued interest, if any. In the result following award is passed:

The impugned order dated 28.9.2006 is quashed and set aside.

There shall be no order as to costs.

The amount so deposited by the Petitioner to be refunded to the Petitioner with accrued interest.
