21. MANAGEMENT’S PERCEPTION OF RISK FACTORS

Potential investors should consider carefully all the risk factors in this Disclosure Document for evaluating the Issuer and its business and the Debentures before making any investment decision relating to the Debentures. Unless the context requires otherwise, the risk factors described below apply to the Issuer only. If any one of the following stated risks actually occurs, the Issuer’s business, financial conditions and results of operations could suffer and, therefore, the value of the Issuer’s Debentures could decline. Unless specified or quantified in the relevant risk factors, the Issuer is not in a position to quantify the financial or other implications of any risk mentioned herein below:

a) Early Termination for Extraordinary Reasons, Illegality and Force Majeure etc:

If the Issuer determines that, for reasons beyond its control, the performance of its obligations under the Debentures has become illegal or impractical in whole or in part for any reason, or the Issuer determines that, for reasons beyond its control, it is no longer legal or practical for it to maintain its hedging arrangements with respect to the Debentures for any reason, the Issuer may at its discretion and without obligation terminate early the Debentures. If the Issuer terminates early the Debentures, the Issuer will, if and to the extent permitted by applicable law, pay the holder of each such Debenture an amount determined by the Calculation Agent/Issuer.

b) Interest Rate Risk:

Bonds/ Government securities which are fixed return securities, run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The level of interest rates is determined by the rates at which government raises new money through RBI, the price levels at which the market is already dealing in existing securities, rate of inflation etc. The extent of fall or rise in the prices is a function of the prevailing coupon rate, number of days to maturity of a

security and the increase or decrease in the level of interest rates. The prices of Bonds/ Government securities are also influenced by the liquidity in the financial system and/or the open market operations (OMO) by RBI. Pressure on exchange rate of the rupee may also affect security prices. Such rise and fall in price of bonds/ government securities may influence valuations as and when such changes occur.

c) Changes or discontinuance of the Underlying:

Changes in the Underlying and factors which either affect or may affect the value of the Underlying, may affect the return on an investment in the Debentures. In case of the regulators or the authorized bodies discontinuing or restricting the use of the benchmark/underlying, the Issuer will be bound to take necessary action as may be prescribed by the regulators or the authorized body or as may be required by the law or as may be required to accommodate the situation.

d) Returns on Debentures are subject to Model Risk:

Returns on the Debentures are based on complex mathematical models involving multiple derivative exposures which may or may not be hedged and the actual behavior of the Underlying/ Reference Index selected for hedging may significantly differ from returns predicted by the mathematical models.

e) Repayment is subject to the credit risk of issuer

Potential investors should be aware that receipt of the principal amount, (i.e. the redemption amount) and any other amounts that maybe due in respect of the debentures is subject to the credit risk of the Issuer. Potential investors acknowledge the risk that the issuer may not be able to satisfy their obligations under the debentures. In the event that bankruptcy proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy are instituted by or against the issuer, the payment of sums due on the debentures may not be made or may be substantially reduced or delayed.

f) Increasing competition from banks, financial institutions and NBFCs

The successful implementation of Issuers growth plans depends on its ability to face the competition. The main competitors of the Issuer are NBFCs, financial institutions and banks. The Issuer does not have access to large quantities of low cost deposits because of which it may become less competitive. Many of its competitors have significantly greater financial, technical, marketing and other resources. Many of them also offer a wider range of services and financial products than the Issuer does and have greater brand recognition and a larger client base. As the Issuer ventures into offering newer products, it is likely to face additional competition from those who may be better capitalised, have longer operating history and better management. If the Issuer is unable to manage its business and compete effectively with current or future competitors it might impede its competitive position and profitability.

g) Downgrading in Credit Rating

For borrowings through NCDs the following Rating has been assigned –

CARE Limited - CARE PP-MLD A+; Stable [(pronounced as CARE PP-MLD A Plus Outlook: Stable)]

The Issuer cannot guarantee that this rating will not be downgraded. In the event of deterioration in the

financial health of the Issuer, there is a possibility that the Rating Agency may downgrade the rating of the Debentures. Such a downgrade in the credit rating may lower the value of the Debentures and may also result in the Issuer having to withdraw this borrowing programme.

h) Security may be insufficient to redeem debentures

In the event that the company is unable to meet its payment and other obligations towards investors under the terms of the debentures, the Debenture Trustee may enforce the security as per the terms of security documents, and other related documents. The Debenture Holder(s)' recovery in relation to the debentures will be subject to (a) the market value of such secured property, (b) finding willing buyer for the security at a price sufficient to repay debenture holder(s)' amounts outstanding under the debentures. The value realized from the enforcement of the security may be insufficient to redeem the debentures.

22. EVENTS FOR EARLY REDEMPTION:

Force Majeure Event shall mean any war, strike, lock-out, natural disaster, act of terrorism, any restriction on trading in the Underlying, an act of state or situations beyond the reasonable control of the Company occurring after an obligation under the Disclosure Document is entered into by the Company, or such obligation has become illegal or impossible, in whole or in part and includes any breakdown, failure or malfunction beyond the control of the Company of any telecommunication or computer system including, without limitation, unavailability or outages or breakdowns of any communication system(s), breach or effect of any virus in the processes or the 'payment and delivery mechanism, sabotage, fire, explosion(s), acts of God, civil commotion or industrial action of any kind, riots, insurrection, acts of Government, computer hacking, unauthorized access to computer data and storage devices and computer crashes.

Market Suspension Event for Market Linked Debentures means the event of any suspension of trading by the authorised body on any official trading day, whereby trading shall be halted for a certain period of the day or the day or for the remainder of the trading day.

Issuer Tax Change Event means that, on or after the Deemed Date of Allotment of the Debentures, the imposition of any withholding or deduction on any payments in respect of the Debentures by or on behalf of the Issuer if such with holding or deduction is required by law.

Change in Law means that, on or after the Deemed Date of Allotment of the Debentures (A) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (B) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Issuer determines in its sole discretion that (X) it has become illegal for the Issuer to hold, acquire or dispose of the Underlying Security/Units/hedge positions relating to the Debentures, or (Y) the Issuer will incur a materially increased (as compared with the circumstances existing on the Deemed Date of Allotment) cost in relation to the performance of the Issuer's obligations under the Debentures (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Issuer).

Hedging Disruption means that the Issuer or any of its Affiliates or its Holding Company is unable, after using commercially reasonable efforts, to either (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the Underlying price risk (or any other relevant price risk including, but not limited to, the currency risk) of issuing and performing its obligations with

respect to the Debentures, or (B) freely realize, recover, receive, repatriate, remit or transfer the proceeds of hedge positions or the Debentures.

Increased Cost of Hedging means that the Issuer and/or any of its Affiliates or its Holding Company would incur a materially increased (as compared with circumstances existing on the Deemed Date of allotment) amount of tax, duty, expense or fee (other than brokerage commissions) to (A) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the Underlying price risk (or any other relevant price risk including, but not limited to, the currency risk) of issuing and performing its obligations with respect to the Debentures, or (B) realize, recover or remit the proceeds of hedge positions or the Debentures.

Reference Index Modification Event

means any material change in composition of index or the mutual fund scheme/ method of computation of index as determined by the calculation agent or calculation of NAV of the relevant scheme by the mutual fund, which leads to substantially increased cost of hedging/ Hedging Disruption.

Regulatory Events for Investor

Subject to regulatory requirements of applicable regulatory authorities, upon the occurrence of any one of the following events, the Company shall be entitled but not obliged to redeem the Debentures in the hands of the concerned investor:

- 1) The representations/declarations of the investor being untrue or misleading when made or later found to be untrue during the tenure of his investment;
- 2) Legal action/proceedings being initiated to suspend the investor's license by any regulatory authority or its name being struck off in the records of the Ministry of Company Affairs;
- 3) Any regulatory order passed against investor debarring investor from investments in stock market directly or indirectly etc.
- 4) Proceedings for insolvency / bankruptcy or winding up being instituted against the investor;
- 5) Company having reason to believe that any of the aforesaid events is likely to occur imminently.
- 6) Any regulatory change which makes the holding of Debentures by investor illegal or void.

23. EXTERNAL RISK FACTORS

a) The Debentures may be illiquid

The Company does not intend to list its Debentures on any Stock Exchange in India. The Company cannot provide any guarantee that the Debentures will be frequently traded and that there would be any market for the Debenture(s).

b) A slowdown in economic growth in India

A slowdown in the Indian economy / GDP may adversely affect Company's business, including its ability to

enhance its asset portfolio and the quality of its assets, and its ability to implement certain measures could be adversely affected by a movement in interest rates, or various other factors affecting the growth of industrial, manufacturing and services sector or a general down trend in the economy. Any adverse revision to India's credit rating for domestic and international debt by international rating agencies may adversely impact the Company's ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available.

c) Conditions in the Indian Debt market may affect the coupon on the Debentures.

Even though the Government securities market is more liquid compared to other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through. The Central and State Governments are the issuers of the local currency debt. The Government raises money to meet its capital and revenue expenditure by issuing debt or discounted securities. Since these securities carry minimal risks, they may command lower yields. The performance may be affected by changes in Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems. The Indian securities markets are smaller than securities markets in more developed economies and the regulation and monitoring of Indian securities markets and the activities of investors, brokers and other participants differ, in some cases significantly, from those in the more developed economies .

d) Conditions in the Indian Equity market may affect the coupon on the Debentures.

Applicable to Index Linked product:

The Indian stock exchanges have also experienced problems that have affected the market price and liquidity of the securities of Indian companies. In addition, the governing bodies of the Indian stock exchanges have from time to time restricted securities from trading, limited price movements and restricted margin requirements. If similar problems occur in the future, the market price and liquidity of the Equity Shares could be adversely affected, thereby affecting the indices.

e) Spread of COVID 19 and the consequent nationwide lockdown to impact the Issuer's operations and financial conditions

The rapid outbreak of the COVID19 pandemic has severely impacted the physical and financial health of the people across the globe. To prevent the contagion in the country, a 21 day nationwide lockdown was announced by the Government of India on March 24, 2020 which was further extended to 30 October 2020 across the country. While the national lockdown has been relaxed, each State government has set out extension of the lockdown but the relaxations (outside containment zones) have been permitted to a certain extent, subject to receipt of requisite approvals as may be required.

As a result, the economic fallout from the spread of the COVID19 virus may impact the Issuer's business prospects, financial condition, result of operations and credit risk. While, the Issuer will monitor the developments of the COVID19 situation closely, assess and respond proactively to minimize any adverse impacts on the financial position and operating results of the Issuer, it is possible that the Issuer's business, financial condition and results of operations could be adversely affected due to the COVID19 pandemic. There can be no assurance that this lockdown will not be extended further on one or more occasions either locations specific or

countrywide. Further, even in cases where the lockdown is relaxed or proposed to be relaxed, it is likely that partial lockdown will continue for longer in red COVID19 zones in India.

If the COVID19 situation persists or worsens, it may adversely impact the Issuer's financial condition. The COVID19 virus pandemic is adversely affecting, and is expected to continue to adversely affect, some of our operations, business, liquidity and cashflows.

However, the extent of negative financial impact cannot be reasonably estimated at this time but a sustained economic slowdown may significantly affect our business, financial condition, liquidity, cashflows and results of operations and the same will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of the COVID19 virus and the actions to contain the COVID19 virus or treat its impact, among others. Consequently, there may be a negative effect on the Company's ability to service the obligations in relation to the Debentures.

f) No affiliation with issuers/publishers of underlying assets:

The Issuer or its subsidiaries may presently or from time to time engage in business with any issuer of the underlying shares, or any specified entity, including entering into loans with, or making equity investments in, such issuer of the underlying shares, or specified entity, or its affiliates or subsidiaries or providing investment advisory services to the issuer of the underlying shares, or specified entity, including merger and acquisition advisory services. Moreover, the Issuer does not have the ability to control or predict the actions of the issuer of the underlying shares, index publisher, or specified entity, including any actions, or reconstitution of index components, of the type that would require an adjustment of the payout to the investor at maturity. The issuer of the underlying shares, index publisher, or specified entity, for any issuance of Debentures is not involved in the offering of the Debentures in any way or has any obligation to consider the Debenture Holder's interest as an owner of the Debentures in taking any corporate actions that might affect the value of the Debentures. None of the money a Debenture Holder pays for the Debentures will go to the issuer of the underlying shares, or specified entity, for such Debentures.

g) Volatility Risk:

The equity markets and Derivative markets are volatile and the value of Securities, Derivative contracts and other instruments correlated with the equity markets may fluctuate dramatically from day to day. This volatility may cause the value of investment in the Scheme to decrease.

h) Risks Associated with Equity Investments:

The equity markets and Derivative markets are volatile and the value of Securities, Derivative contracts and other instruments correlated with the equity markets may fluctuate dramatically from day to day. This volatility may cause the value of investment in the Scheme to decrease.

i) Investment in the Debentures which are linked to shares is not the same as investing directly in the shares :

An investment in the Debentures which are linked to shares is not an investment directly in the shares themselves. An investment in the Debentures entitles the holder to certain cash payments calculated by reference to the shares to which the Debentures are linked. The Debenture Holder will have no beneficial

interest in the shares or basket of shares constituting the index to which the Debentures are linked and accordingly will not have voting rights in those shares. The Debenture Holders will not have the right to receive the underlying shares or basket of shares and thus will not be able to dispose of some but not all of such shares at any point in time. Subject to the applicable conditions of the Debentures, the Debenture Holder may have no right to receive dividends or other distributions. The Debentures will not represent a claim against the company of any shares, and, in the event of any loss, a Debenture Holder will not have recourse under the Debentures against such companies, or against any securities issued by such companies. Similarly, the Debenture Holders will not have the right to receive the stocks underlying the Debentures at any point in time. In the case of Debentures relating to shares, no issuer of such shares will have participated in the preparation of the Disclosure Document or in establishing the terms of the Debentures and the Company will not make any investigation or enquiry in connection with such offering with respect to the information concerning any such Company contained in the Disclosure Document or in the documents from which such information was extracted. Consequently, there can be no assurance that all events occurring prior to the relevant Deemed Date of Allotment (including events that would affect the accuracy or completeness of the publicly available documents described in this paragraph that would affect the trading price of the share will have been publicly disclosed. Subsequent disclosure of any such events or the disclosure of or failure to disclose material future events concerning the Company of such share could affect the trading price of the share and therefore the trading price of the Debentures. Moreover, the Company has no ability to control or predict any actions of the issuer of such shares, including any corporate actions of the type or redemption that would require the Company to adjust the payment to the Debenture Holders upon exercise of the Debentures. The issuer of such shares is not involved in the offering of the Debentures in any way and has no obligation to consider a Debenture Holder's interest in a Debenture in taking any corporate actions that might affect the value of the Debentures.

24. Undertakings by the Investor:

The following risks associated to the Debentures, is subject to and pursuant to the terms of the Debentures as provided in this Disclosure Document, The initial subscriber by subscribing to, and any subsequent purchaser by purchasing the Debentures, shall be deemed to have agreed, and accordingly the Company shall be entitled to presume, that each of the initial subscriber, and any subsequent purchaser (Debenture holder, as also referred to here in above and hereinafter:
