Act, where such sum is payable to it by way of interest or dividend in respect of any securities or shares owned by it or in which it has full beneficial interest, or any other income accruing or arising to it.

V Exemption under Sections 54EE and 54F of the I.T. Act

1. As per provisions of Section 54EE of the I.T. Act, long term capital gains arising to debenture holders on transfer of their debentures in the company shall not be chargeable to tax to the extent such capital gains are invested in certain notified units within six months after the date of transfer. If only part of the capital gain is so invested, the exemption shall be proportionately reduced. However, if the said notified units are transferred within three years from their date of acquisition, the amount of capital gain exempted earlier would become chargeable to tax as long term capital gains in the year in which units are transferred. Further, in case where loan or advance on the security of such notified units is availed, such notified units shall be deemed to have been transferred on the date on which such loan or advance is taken. However, the amount of exemption with respect to the investment made in the aforesaid notified units during the financial year in which such debentures are transferred and the subsequent financial year, should not exceed Rs. 50 lacs.

If part of such net sales consideration is invested within the prescribed period in a residential house, then such gains would be chargeable to tax on a proportionate basis.

This exemption is available, subject to the condition that the debenture holder does not own more than one residential house at the time of such transfer. If the residential house in which the investment has been made is transferred within a period of three years from the date of its purchase or construction, the amount of capital gains tax exempted earlier would become chargeable to tax as long-term capital gains in the year in which such residential house is transferred. Similarly, if the debenture holder purchases within a period of two years or constructs within a period of three years after the date of transfer of capital asset, another residential house (other than the new residential house referred above), then the original exemption will be taxed as capital gains in the year in which the additional residential house is acquired.

BASIS OF ALLOTMENT

Basis of Allotment for NCDs

The Registrar will aggregate the Applications, based on the Applications received through an electronic book from the Stock Exchanges and determine the valid Application for the purpose of drawing the basis of allocation.

Grouping of the Applications received will be then done in the following manner:

Grouping of Applications and allocation ratio

For the purposes of the Basis of Allotment:

- A. *Applications received from Category I Applicants:* Applications received from Applicants belonging to Category I shall be grouped together (“**QIB Portion**”);
- B. *Applications received from Category II Applicants:* Applications received from Applicants belonging to Category II, shall be grouped together (“**Corporate Portion**”);

For removal of doubt, the terms “QIB Portion”, “Corporate Portion”, “High Net Worth Individual Investors Portion” and “Retail Individual Investors Portion” are individually referred to as a “Portion” and collectively referred to as “Portions”.

For the purposes of determining the number of NCDs available for allocation to each of the abovementioned Portions, our Company shall have the discretion of determining the number of NCDs to be Allotted over and above the Base Issue Size, in case our Company opts to retain any oversubscription in the Tranche 1 Issue up to the Tranche 1 Issue Limit i.e. aggregating up to Rs. 10,00,000 lacs. The aggregate value of NCDs decided to be Allotted over and above the Base Issue Size, (in case our Company opts to retain any oversubscription in the Tranche 1 Issue), taken together with the aggregate value of NCDs up to the Base Issue Size shall be collectively termed as the “Overall Tranche 1 Issue Size”.

Allocation Ratio

QIB Portion	Corporate Portion	High Net Worth Individual Investors Portion	Retail Individual Investors Portion
10% of the Overall Tranche 1 Issue Size	10% of the Overall Tranche 1 Issue Size	40% of the Overall Tranche 1 Issue Size	40% of the Overall Tranche 1 Issue Size

(a) Allotments in the first instance:

- i. Applicants belonging to the QIB Portion, in the first instance, will be allocated NCDs up to 10% of Overall Tranche 1 Issue Size on first come first serve basis which would be determined on the basis of date of upload of their Applications on the electronic platform of the Stock Exchanges. The determination of the allocation ratio of 10% of the Overall Tranche 1 Issue Size for the QIB Portion shall be done considering the aggregate subscription received in the QIB Portion;
- ii. Applicants belonging to the Corporate Portion, in the first instance, will be allocated NCDs up to 10% of Overall Tranche 1 Issue Size on first come first serve basis which would be determined on the basis of date of upload of their Applications on the electronic platform of the Stock Exchanges. The determination of the allocation ratio of 10% of the Overall Tranche 1 Issue Size for the Corporate Portion shall be done considering the aggregate subscription received in the Corporate Portion;
- iii. Applicants belonging to the High Net Worth Individual Investors Portion, in the first instance, will be allocated NCDs up to 40% of Overall Tranche 1 Issue Size on first come first serve basis which would be determined on the basis of date of upload of their Applications on the electronic platform of the Stock Exchanges. As per circular (No. CIR/IMD/DF/18/2013) dated October 29, 2013 issued by SEBI, which amends the provisions of circular (No. CIR./IMD/DF-1/20/2012) dated July 27, 2012 to the extent that it provides for allotment in public issues of debt securities to be made on the basis of date of upload of each application into the electronic book of the Stock Exchange, as opposed to the date and time of upload of each such application. In the event of, and on the date of oversubscription, however, allotments in public issues of debt securities is to be made on a proportionate basis.

- (b) Allotments by the Company, in consultation with the Designated Stock Exchange, shall be made on date priority basis i.e. a first-come first-serve basis to each Portion, based on the date of upload of each Application on the electronic platform of the Stock Exchanges, subject to the allocation ratio. However, in the event of and on the date of oversubscription, the allotments would be made to the Applicants on a proportionate basis.
- (c) Allotments in case of oversubscription: In case of an oversubscription, allotments to the maximum extent, as possible, will be made on a first-come first-serve basis and thereafter on a proportionate basis, i.e. full allotment of the NCDs to the Applicants on a first come first basis up to the date falling 1 (one) day prior

to the date of oversubscription and proportionate allotment of NCDs to the Applicants on the date of oversubscription (based on the date of upload of each Application on the electronic platform of the Stock Exchanges, in each Portion).

For the purpose of clarity, in case of oversubscription please see the below indicative scenarios:

- i. In case of an oversubscription in all Portions resulting in an oversubscription in the Tranche 1 Issue Limit, Allotments to the maximum permissible limit, as possible, will be made on a first-come first-serve basis and thereafter on proportionate basis, i.e. full allotment of the NCDs to the Applicants on a first come first basis up to the date falling 1 (one) day prior to the date of oversubscription to respective Portion and proportionate allotment of NCDs to the Applicants on the date of oversubscription in respective Portion (based on the date of upload of each Application on the electronic platform of the Stock Exchanges in each Portion).
 - ii. In case there is oversubscription in the Tranche 1 Issue Limit, however there is under subscription in one or more Portion(s), Allotments will be made in the following order:
 - a. All valid Applications in the undersubscribed Portion(s) uploaded on the electronic platform of the Stock Exchanges till the end of the last day of the Tranche 1 Issue Period, shall receive full and firm allotment.
 - b. In case of Portion(s) that are oversubscribed, allotment shall be made to valid Applications received on a first come first serve basis, based on the date of upload of each Application on the electronic platform of the Stock Exchanges. Priority for allocation of the remaining undersubscribed Portion(s) shall be given to day wise Applications received in the Retail Individual Investors Portion followed by High Net Worth Individual Investors Portion, next Corporate Portion and lastly QIB Portion each according to the day of upload of Applications on the electronic platform of the Stock Exchanges during the Tranche 1 Issue Period. For the sake of clarity, the day on which the entire remaining undersubscribed Portion is allocated to the oversubscribed Portion(s), no allocation shall be made to any oversubscribed Portion(s) on the remaining days of the Tranche 1 Issue Period.
- (d) Undersubscription: If there is undersubscription in the overall Tranche 1 Issue Limit due to undersubscription in each Portion, all valid Applications received till the end of Tranche 1 Issue Closing Day shall be grouped together in each Portion and full and firm Allotments will be made to all valid Applications in each Portion.
- (e) Minimum Allotments of 1 NCD and in multiples of 1 NCD thereafter would be made in case of each valid Application to all Applicants.

Detailed Rationale

CRISIL has assigned its rating of 'CRISIL AA+/Stable' to Rs 10,000 crore non-convertible debentures of Shriram Transport Finance Company Limited (STFCL) and has reaffirmed its ratings on the existing debt instruments, bank facilities and fixed deposit programme of STFCL at 'CRISIL AA+/CRISIL PP-MLD AA+/FAAA/Stable/CRISIL A1+'.

The ratings continue to reflect STFCL's market leadership in the pre-owned commercial vehicle (CV) financing segment, comfortable capitalisation and earnings profile. These strengths are partly offset by the company's modest asset quality and average resource profile.

CRISIL has also withdrawn its rating on the non-convertible debentures of Rs 40 crore (See Annexure 'Details of Rating Withdrawn' for details) in line with its withdrawal policy. CRISIL has received independent confirmation that these instruments are fully redeemed.

Key Rating Drivers & Detailed Description

Strengths:

¹ Market leadership in the pre-owned commercial vehicle (CV) financing segment

STFCL is the largest CV financier in the country with assets under management (AUM) of Rs 1,04,482 crore as on March 31, 2019, up 8.5% Y-o-Y from Rs 96,261 crore end fiscal 2018 although on a sequential basis, the AUM growth has remained almost flat from Rs 103,818 crore last quarter (+0.64% Q-o-Q). The disbursements during the last quarter of fiscal 2019 stood at Rs 11,958 crore, up 25% Q-o-Q (from Rs 9550 crore in Q3 fiscal 2019) though down 20% Y-o-Y (from Rs 15,121 crore in Q4 fiscal 2018).

With presence of almost four decades in the pre-owned CV financing business, STFCL has created a strong and sustainable competitive advantage through deep understanding of the borrower profile and their credit behaviour. They have done so by building a scalable operating model, extensive reach and strong valuation capabilities of pre-owned vehicles. The company faces limited competition from other organized financiers, including banks, in this segment, due to inherent riskiness of the target product and the customer profile.

Of all the business segments, CV financing (HCV and M&LCV) together constituted the largest portion of AUM at 68.4% as on March 31, 2019 and grew at a decelerated pace of 9.8% Y-o-Y. Passenger vehicles formed another 22.5% of AUM grew by 5.3% Y-o-Y though down sequentially by almost one percentage point. The share of portfolio under Shriram Equipment has completely run off. The securitised assets plus off-book assets (direct assignment portfolio) together stood at Rs 19,397.5 crore or 18.5% of the portfolio and was up 19% during the year. The direct assignment portfolio has particularly registered a strong growth and stood at Rs 2175 crore end fiscal 2019 as against just Rs 62 crore last fiscal.

The composition of AUM remained largely unchanged with the pre-owned vehicle loan book at Rs 87,050 crore (+7.8% Y-o-Y or +11.1% Q-o-Q) as on March 31, 2019 and comprising 83% of the AUM, almost same proportion as last year. The new vehicle portfolio growth slowed down with this segment up just 5% Y-o-Y (as against 39% Y-o-Y end fiscal 2018) and its share in AUM stood at 11% as on March 31, 2019. Working capital, business loans and other such facilities grew by 32% and constituted the remaining 5.6% of AUM. While STFCL's growth will continue to be driven by pre-owned vehicle financing business, the new vehicle segment also remains a key focus area of the company in spite of competition from banks and NBFCs.

CRISIL believes that the business prospects for the pre-owned CV financing segment remain strong given the large unorganized market and significant entry barriers. STFCL has gradually expanded into rural markets and had 838 rural centres as on March 31, 2019. Owing to increased demand for pre-owned vehicles in deep rural areas, the company has been increasing its presence in rural and semi urban areas to maintain its niche presence. End fiscal 2019, the total branches stood at 1,545 of which 47% were in rural areas. In the last one year the company has added 332 new branches, of which majority are the satellite branches outside the semi-urban centres. The share of rural AUM has also risen to 37% of total AUM as on March 31, 2019 as against 32% last fiscal. STFCL had also innovated in establishing Shriram Automall India Ltd (SAMIL), a reliable platform for sale, refurbishment, and auction of pre-owned vehicles, besides enabling better price discovery of such vehicles. While STFCL sold majority stake in SAMIL in April 2018, it will continue to hold a large minority stake. CRISIL believes that despite the minority stake, SAMIL's business operations will continue to be closely integrated with STFCL.

Overall, CRISIL believes that STFCL has strong structural advantages over its peers, which will support its growth plans and help it maintain leadership position in the pre-owned CV financing segment over the medium term.

² Comfortable capitalisation and earnings profile

STFCL's capitalisation remains comfortable with networth of Rs 15,836 crore (+16.7% Y-o-Y) and an adjusted gearing of 5.6 times down from 6 times last year. Net-worth coverage for net NPA stood at 7.7 times as on March 31, 2019, up from 6.4 times end fiscal 2018. CRISIL believes that STFCL's capitalisation will remain comfortable over the medium term, given its demonstrated ability to access markets and having a comfortable annualised return on average networth (per IndAS) of 17.4% end fiscal 2019 (20% as on March 31, 2018). The company's tier 1 and total capital adequacy ratio improved to 15.62% and 20.27% respectively as on March 31, 2019 as against 14.47% and

17.38% respectively as on March 31, 2018, well above the statutory minimum.

STFCL has a comfortable earnings profile with annualised return on average managed assets (RoMA) of 2.5% end fiscal 2019 as against 2.7% last fiscal. For fiscal 2019, the company reported net profit of Rs 2,564 crore (+4.2% Y-o-Y) on total income (net of interest expenses) of Rs 7,908 crore (+12.7% Y-o-Y). The moderation in profitability was underpinned by 38% Y-o-Y rise in provisioning costs. While the borrowing costs increased during the year, the company has been able to pass on the higher costs and has been able to retain its margins at 7.7% level (calculated on average managed assets). End fiscal 2019, the company's credit costs stood at 2.3% up from 1.9% last year. The company's operating expense ratio in fiscal 2019, though lower than its peers, increased to 1.7% (from 1.6% last year) due to rise in its employee costs. Despite this, the company's cost to income ratio stood at a controlled 22%. In fiscal 2020, the company aims to add 250 new branches and employ about 3000 people. As the company increasingly focuses on the relatively lower-yield and highly competitive new vehicle financing, there could be some pressure on margins in the future. However company's strong competitive position and relatively high yields in the pre-owned vehicle financing segment will ensure stable profitability than that of other CV financiers over the medium term.

Weaknesses:

* Modest asset quality

STFCL predominantly lends to the relatively riskier small road transport operators, first time users and first time buyers segments and hence has inherent weakness in borrower profile. STFCL has a modest asset quality in its core CV financing business with asset quality in the pre-owned financing business being relatively better than that in the new CV financing segment respectively. STFCL's asset quality (per I-GAAP) registered some improvement with absolute GNPA down 3.75% Y-o-Y to Rs 7,099 crore translating into a GNPA ratio of 8.3% as against 9.15% last fiscal. The provision coverage ratio also remained healthy at 71% leading to net NPA of 2.5% (down from 2.8% previous fiscal). The absolute amount of gross stage three (per IndAS) stood at Rs 8,622 crore (down 5.09% Y-o-Y) translating into gross stage three ratio of 8.37% as against 9.39% previous fiscal. The coverage ratio under stage three stood at 34.4%. The company's credit cost (calculated on average managed assets) stood at 2.3% as against 1.9% last year. The analysis of vintage wise static pool data shows recovery / roll-back of around 40-50% from peak 90+ reached for a particular disbursement vintage.

STFCL's asset quality is linked to broader economic recovery and hence the likely pick-up in industrial activity and easing of infrastructure constraints are expected to result in higher capacity utilization of CVs, improve transporter's cash flows and ultimately lead to gradual recovery in asset quality. The company's track record in the vehicle financing business, understanding of the target customer segment and relationship based lending model will also support the same.

* Average, albeit improving resource profile with higher cost of borrowings than peers

STFCL has an average, though improving, resource profile which remains well diversified across various funding avenues. It has an established track record in raising retail borrowings which helps diversify its resource profile. However, its cost of borrowings continues to be higher than peers. Of the total debt of Rs 87,968 crore (including securitisation) as on March 31, 2019, 35% was from debentures, 20.5% from bank loans, 11.7% via public deposits, 7% from subordinated debt. The share of commercial paper remains low at 4.0% (down from 5.5% last year). The share of securitisation in the borrowings profile remained unchanged from last year at 20% end March 31, 2019. The average annual borrowing costs stood at 9.0% for fiscal 2019. The average incremental borrowing costs for fourth quarter (excluding the cost of dollar bond issue) stood at 9.5%. For the dollar denominated bond issuance of USD 400 million, the borrowing cost (including full hedging costs) stood at around 10%. Ability to diversify resource profile and maintain competitive borrowing cost will remain key rating monitorables over the medium term.

Liquidity

Shriram's liquidity position is adequate. The structural Asset Liability Maturity (ALM) statement of STFCL as on March 31, 2019 shows that ALM position is adequate with cumulative positive gaps across all maturity buckets indicating that business inflows also support repayments. As of May 31, 2019, the company had scheduled debt and loan repayments of about Rs 11,794 crore over next three months (of which Rs 840 crore are for commercial paper embedded with NCDs). Additionally, as on June 17, 2019, the company had liquidity of Rs 8,886 crore which include free cash of Rs 40 crore, fixed deposits of Rs 4,111 crore, sanctioned but un-utilized bank lines of Rs 2,875 crore, G-sec investments and other investments of Rs 1,860 crore.

For the quarter ending March 31, 2019, the company has been able to raise Rs 13,603 crore (including structured CP of Rs 2930 crore and Rs 3638 crore via securitization). STFCL is one of the largest players in the securitisation market and regularly raises funds through this route. CRISIL also notes the company's ability to tap diversified alternatives funding sources as evidenced by the recent dollar bond issue of USD 400 million in February 2019 and of USD 500 million in April 2019.

Outlook: Stable

CRISIL believes STFCL will sustain its strong market position in the pre-owned CV financing segment, and its comfortable capitalisation and earnings profile, over the medium term. The outlook may be revised to 'Positive' if the company maintains its high scale while significantly de-risking business, improving asset quality and financial risk profile. Conversely, the outlook may be revised to 'Negative' if asset quality and earnings weaken significantly.

About the Company

STFCL, incorporated in 1979, is the flagship company of the Shriram group. It is registered with RBI as a deposit-taking, asset-financing non-banking financial company. It has pan-India presence, with about 1,545 branches and 838 rural centres as on March 31, 2019. In April 2018, STFCL completed the sale of its majority stake in wholly owned subsidiary Shriram Automall to MXC Solutions India Pvt Ltd (MXC, owner of CarTrade.com) for Rs 156.38 crore.

STFCL's reported total income (net of interest expense) and profit after tax (PAT) of Rs.7908 crore and Rs.2564 crore respectively, for fiscal 2019 against Rs. 7015 crore and Rs. 2461 crore, respectively, for fiscal 2018.

Dear Sir,

Re: Rating of Shriram Transport Finance Company Limited (STFCL) of Retail Non-convertible debentures

India Ratings (see definition below) assigns the following ratings:

INR 100billion of Retail Non-Convertible Debentures: IND AA+; Outlook Stable

This takes the total quantum of Non-Convertible Debentures rated by India Ratings to INR345billion: IND AA+; Outlook Stable

Out of the above rated amount STFCL has already raised INR 214.24billion

In issuing and maintaining its ratings, India Ratings relies on factual information it receives from issuers and underwriters and from other sources India Ratings believes to be credible. India Ratings conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction.

The manner of India Ratings' factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors.

Users of India Ratings' ratings should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information India Ratings relies on in connection with a rating will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to India Ratings and to the market in offering documents and other reports. In issuing its ratings India Ratings must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings can be affected by future events or conditions that were not anticipated at the time a rating was issued or affirmed.

India Ratings seeks to continuously improve its ratings criteria and methodologies, and periodically updates the descriptions on its website of its criteria and methodologies for securities of a given type. The criteria and methodology used to determine a rating action are those in effect at the time the rating action is taken, which for public ratings is the date of the related rating action commentary. Each rating action commentary provides information about the criteria and methodology used to arrive at the stated rating, which may differ from the general criteria and methodology for the applicable security type posted on the website at a given time. For this reason, you should always consult the applicable rating action commentary for the most accurate information on the basis of any given public rating.

Ratings are based on established criteria and methodologies that India Ratings is continuously evaluating and updating. Therefore, ratings are the collective work product of India Ratings and no individual, or group of individuals, is solely responsible for a rating. All India Ratings reports have shared authorship. Individuals identified in a India Ratings report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only.

Ratings are not a recommendation or suggestion, directly or indirectly, to you or any other person, to buy, sell, make or hold any investment, loan or security or to undertake any investment strategy with respect to any investment, loan or security or any issuer. Ratings do not comment on the adequacy of market price, the suitability of any investment, loan or security for a particular investor (including without limitation, any accounting and/or regulatory treatment), or the tax-exempt nature or taxability of payments made in respect of any investment, loan or security. India Ratings is not your advisor, nor is India Ratings providing to you or any other party any financial advice, or any legal, auditing, accounting, appraisal, valuation or actuarial services. A rating should not be viewed as a replacement for such advice or services. Investors may find India Ratings' ratings to be important information, and India Ratings notes that you are responsible for communicating the contents of this letter, and any changes with respect to the rating to investors.

It is important that you promptly provide us with all information that may be material to the ratings so that our ratings continue to be appropriate. Ratings may be raised, lowered, withdrawn, or placed on Rating Watch due to changes in, additions to, accuracy of or the inadequacy of information or for any other reason India Ratings deems sufficient.

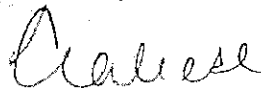

Nothing in this letter is intended to or should be construed as creating a fiduciary relationship between India Ratings and you or between India Ratings and any user of the ratings.

In this letter, "**India Ratings**" means India Ratings & Research Pvt. Ltd. and any successor in interest.

India Ratings Assigns Shriram Transport Finance Company's Retail NCDs 'IND AA+' Outlook Stable

JUN 2019

India Ratings and Research (Ind-Ra) has rated Shriram Transport Finance Company Limited's (STFC) public issue of non-convertible debentures as follows:

Instrument Type	Date of Issuance	Coupon Rate	Maturity Date	Size of Issue (million)	Rating/Outlook	Rating Action
Retail NCDs*	-	-	-	INR100,000	IND AA+/Stable	Assigned

KEY RATING DRIVERS

Market Dominance in Used CV Financing Spaces: STFC is the largest financier of used vehicles in India. Ind-Ra estimates the company to have three-fourths of the market share in the organised used vehicle financing segment. STFC has experience in managing loan portfolios over multiple business cycles, marked by numerous headwinds. The company is skilled in financing commercial vehicles (CVs) through its vast experience and efficient management of credit costs despite operating mainly in an arguably weak credit profile customer category in the used vehicle financing segment. STFC's expertise lies in the valuation of used assets, and an effective collection mechanism enables the company to manage its credit costs. However, STFC faces tough competition, as many non-banking finance companies are trying to expand into the used CV financing space.

Credit Cost Moderated in FY19 but Sustainability Remains to be Seen: STFC adopted Indian Accounting Standards from 1QFY19, leading to the softening of credit cost (FY19: 2.5%; FY18: 4.1%; FY17: 3.6%) based on the probability of default and loss given default estimates. Gross NPA also declined to 8.37% in FY19 (FY18: 9.39%) on Ind AS basis, and to 8.29% (9.15%) on IGAAP basis.

However, it remains to be seen whether lower provisioning on loans is a permanent structural shift. STFC's profile has been shifting towards newer used vehicles, leading to an increasing focus on customers with strong credit profiles. This transition has resulted in pressure on yields. At the same time, STFC has been concentrating on deeper rural geographies to grow its books; this could result in higher yields. However, the company's ability to manage credit cost remains to be seen.

The Indian Meteorological Department (IMD) has forecast normal monsoons for 2019, which bodes well for the rural economy. However, the South West Monsoon has been delayed, and overall rainfall deficiency has been pegged at 43% in the first half of June. The agency believes that, while it is too early to factor in the impact of the monsoon, rainfall deficiency in certain geographies would affect rural cash flows, which would impact STFC's portfolio growth as well as asset quality.

Capitalisation Remains at Reasonable Levels: STFC's tier I ratio was at 15.6% in FY19 (FY18: 14.2%). The capital adequacy ratio (CAR) also improved to 20.3% in FY19 from 16.9% in FY18, mainly because of an increase in tier II capital; the increase in tier I capital was due to higher internal accrual with an improvement in profitability on a yoy basis. Given the continuing tight liquidity conditions in the capital markets and elevated premium for longer term funds, STFC's growth plans would be calibrated. Ind-Ra believes internal accruals would be largely sufficient to support modest growth over the medium term. The company plans to operate with a moderate leverage, with a policy to maintain tier I ratio above 14%, on a steady state basis.

Reasonable Liquidity: STFC had a positive cumulative surplus in the one-year time frame of structural liquidity statement as on 31 March 2019. The company also maintains sizeable unutilised bank lines (INR28.8 billion of cash credit limits as of mid-June 2019) from a variety of banks. The on-balance sheet liquidity (liquid investments and unencumbered cash) stood at INR68.1 billion as of mid-June 2019 against a scheduled debt repayment of INR117.9 billion during June 2019-August 2019. STFC can also mobilise funds by way of securitisation; however, the pricing in this market has hardened. Having said that, in the current tight liquidity environment, excessive reliance on short-term debt could lead to asset-liability mismatch, giving rise to a refinancing risk.

STFC has diluted its policy of maintaining large on-balance sheet liquidity by way of cash and investment in liquid mutual funds, which could have provided strong buffers in the event of a sudden liquidity crisis. The company endeavours to maintain a matched asset-liability maturity profile by restricting its reliance on short-term borrowings to a maximum of 7%-8% of the total borrowings.

Moderate Profitability: STFC's profitability recovered modestly in FY19 after having been under pressure over the past few years (pre-provisioning operating profit/credit costs in FY19: 2.6x; FY18: 1.8x; FY17: 1.8x; FY11-FY16: average 3.2x), primarily due to a decline in credit costs. Ind-Ra believes the slowdown in AUM growth on a yoy basis in the new vehicles segment provided tailwinds to yields in FY19. The company's net interest margin was under pressure in FY19,

as it faced challenges with respect to borrowing costs owing to the hardening of interest rates in capital markets and costlier bank funding, the agency believes that STFC's accelerated expansion in rural geographies that offer higher yields could support margins over the near-to-medium term.

RATING SENSITIVITIES

Positive: A significantly strengthened stable funding profile that could emerge through enhanced granular retail funding, or/and significantly increased credit costs absorbing buffers, while maintaining the dominant franchise in the used CV financing segment, could be positive for the ratings.

Negative: Through-the-cycle rise in credit cost, leading to depletion in operating and/or capital buffers, reduced resource raising ability impacting the liquidity, and/or a significant loss of franchise could result in a negative rating action.

COMPANY PROFILE

STFC is the largest non-banking finance company in the asset finance segment in India. It is the flagship company of Chennai-based Shriram Group, which operates in consumer finance and insurance segments.

Detailed Rationale & Key Rating Drivers

The ratings assigned to the various debt instruments of Shriram Transport Finance Company Limited (STFCL) factor in the company's leadership position and more than three decades of experience in the pre-owned commercial vehicle (CV) financing segment, experienced management team, adequate capitalization levels, comfortable liquidity profile and good resource raising capabilities with diversified funding profile. The rating is constrained by STFCL's moderate asset quality and the underlying industry risk linked with its target customer segment of small truck operators, who have relatively high vulnerability to economic downturns. Asset quality, capital adequacy and profitability are key rating sensitivities.

Detailed description of the key rating drivers

Key Rating Strengths

Leadership position and over three decades of experience in the pre-owned Commercial Vehicle (CV) financing segment: STFCL is one of the largest asset financing NBFCs in India with assets under management (AUM) of Rs.1,04,482 crore as on March 31, 2019 (AUM as on March 31, 2018: Rs.96,261 crore) with a mix of 83% Used CV financing; 11% of New CV and 6% of other loans. Over its 38 years of experience in CV financing, STFCL has garnered a significant market share in used (pre-owned) CV financing and developed a strong relationship with its customers where in major part of its lending is being done through 'reference based' model.

Experienced management team: STFCL is a part of the Shriram group and is led by Mr. Umesh Revankar (Managing Director), who has been with the Shriram group for more than 28 years. The management team includes Mr. Parag Sharma (Executive Director and Chief Financial Officer) and several others, who have been associated with STFCL for several years. The senior management of the company is equipped with a rich experience of operating the CV financing business.

Adequate capitalization levels: STFCL's tangible net-worth stood at Rs.15,759 crore as on March 31, 2019. STFCL reported total Capital Adequacy Ratio (CAR) of 20.27% [P.Y.: 17.38%] with Tier I CAR of 15.62% as on March 31, 2019 [P.Y.: 14.47%]. To augment further business growth and maintain operating

¹ Complete definitions of the ratings assigned are available at www.careratings.com and other CARE publications.

leverage levels, the management plans to maintain Tier I capital above 14% on a steady state basis. As on March 31, 2018, the company contingent liabilities by way of guarantees given amounting to Rs.1,000 crore [P.Y.: Rs.2,214 crore]. In October, 2018, STFCL terminated the guarantee having redemption value of Rs.995 crore given to SVL Limited (unlisted holding company for the non-financial businesses of the Shriram group).

Good resource raising capabilities and diversified funding profile: STFCL has continuously been diversifying its resource profile which has a mix of retail/wholesale borrowings that include bonds [35.0% of total borrowings], term loans & working capital from banks [20.5%], subordinated debt [7.1%], public deposits (FDs) [11.7%], Commercial Paper [4%] and other borrowings [1.5%] as on March 31, 2019. The borrowing profile is further diversified with securitization route available to the company which constituted 20.2% of the total borrowings. STFCL being a deposit taking NBFC, has over the years, developed a strong depositor base of over 2 lakh depositors till date. However, the company has a diversified funding profile and its dependence on FDs is limited. STFCL's overall gearing stood at 5.58 times as on March 31, 2019 [P.Y.: 6.07 times].

Adequate liquidity profile: STFCL's liquidity profile was comfortable with well-matched asset liability maturity profile as the company's loan portfolio has a relatively shorter tenure as compared to the tenure of its borrowings. The asset liability maturity (ALM) profile as on March 31, 2019, had no negative mismatches up to one year. Furthermore, STFCL has good resource raising abilities/capacity to match any immediate requirements in the future.

Financial performance: STFC reported Profit after Tax (PAT) of Rs.2,564 crore on a total income of Rs.15,546 crore as on March 31, 2019 as against PAT of Rs.2,461 crore on a total income of Rs.13,362 crore. The company is in a transition phase to move towards financing lower vintage used vehicles and vehicles with higher capacity. As a result of this transition and increasing competition in this segment, the yields are expected to be lower. The company's strong competitive position in the high yielding used CV segment helps it to maintain stable margins. Correspondingly, the Net Interest Margin (including off-balance sheet assets) [NIM] and Return on Total Assets (ROTA) (including off-balance sheet assets) was 7.69% and 2.51% respectively during FY19.

Key Rating Weaknesses

Moderate but improving asset quality: STFCL has historically maintained comfortable asset quality due to its relationship-based model. However, over the past few years, STFCL has seen a rise in slippages on account of overall economic slowdown. The company reported Gross NPA and Net NPA ratio of 8.42% [P.Y.: 9.29%] and 5.68% [P.Y.: 6.27%] respectively as on March 31, 2019. The Net NPA to tangible net-worth stood at 35.55% as on March 31, 2019 (March 31, 2018: 42.83%). With a pick-up in the economic activity, the credit costs are expected to decline over a medium term resulting into further improvement in the asset quality.

Underlying industry risk linked with its target customer segment of small truck operators: STFCL is primarily into financing of pre-owned commercial vehicles. In an environment of economic slowdown, STFCL's asset quality comes under pressure since it has high exposure to small fleet operators and first-

time buyers who are more vulnerable to the negative effects of an economic downturn. However, past cyclical behaviour suggests that the used CV sales pick-up before new CV sales in an improving cycle.

Asset quality, capital adequacy and profitability are key rating sensitivities.

Detailed description of the key rating drivers
Key Rating Strengths
Leadership position and over three decades of experience in the pre-owned Commercial Vehicle (CV) financing segment:

STFCL is one of the largest asset financing NBFCs in India with assets under management (AUM) of Rs.1,04,482 crore as on March 31, 2019 (AUM as on March 31, 2018: Rs.96,261 crore) with a mix of 83% Used CV financing; 11% of New CV and 6% of other loans. Over its 38 years of experience in CV financing, STFCL has garnered a significant market share in used (pre-owned) CV financing and developed a strong relationship with its customers where in major part of its lending is being done through 'reference based' model.

To augment further business growth and maintain operating leverage levels, the management plans to maintain Tier I capital above 14% on a steady state basis. As on March 31, 2018, the company contingent liabilities by way of guarantees given amounting to Rs.1,000 crore [P.Y.: Rs.2,214 crore]. In October, 2018, STFCL terminated the guarantee having redemption value of Rs.995 crore given to SVL Limited (unlisted holding company for the non-financial businesses of the Shriram group).
