## **RISK FACTORS**

The following are the risks envisaged by the management, and Investors should consider the following risk factors, together with all other information contained in this Offer Document, carefully for evaluating the Company and its business before making any investment decision. Unless the context requires otherwise, the risk factors described below apply to Mahindra & Mahindra Financial Services Limited. These risks and uncertainties are not the only issues that we face; additional risks and uncertainties not presently known to us or that we currently believe to be immaterial may also have a material adverse effect on our financial condition or business success. If anyone, or a combination, of the following stated risks actually occurs, the Company's business, financial conditions and results of operations could suffer and therefore the value of the Company's debt securities could decline.

Note: Unless specified in the relevant risk factors, the Company is not in a position to quantify the financial or other implications of any risk mentioned herein below:

### **INTERNAL RISKS**

#### **1. The risk of non-payment or default by borrowers may adversely affect our financial condition and results of operations.**

We are one of the leading NBFCs in the rural and semi-urban markets of India and cater primarily to customers without formal credit histories and which typically have less financial wherewithal and may be particularly susceptible to adverse economic conditions. In addition, our customer portfolio principally consists of farmers, car-owners, transport agencies, small businessmen and home-owners with underdeveloped banking habits, and individual borrowers generally are less financially resilient than large corporate borrowers, and as a result, they can be more adversely affected by declining economics.

The borrowers and their guarantors under our loan agreements may default in their repayment obligations due to various reasons including insolvency, lack of liquidity, increase in operating costs, including fuel costs and business failure, including poor agricultural production. Besides macroeconomic conditions, we face risks specific to each line of business, which may also result in increased defaults. In addition, our customers often do not have credit histories supported by tax returns and other documents that would enable us to assess their creditworthiness, and we may not receive updated information regarding any change in the financial condition of our customers or may receive inaccurate or incomplete information as a result of any fraudulent misrepresentation by our customers or employees. Furthermore, as a nationwide credit bureau has only recently become operational in India, there is less financial information available about individuals, particularly in our customer segment, which primarily consists of low to middle income earners. This segment also has limited access to other financing sources and is located in the rural and semi-urban markets. It may therefore be difficult to carry out precise credit risk analyses on all of our customers.

Although we follow certain procedures to evaluate the credit profiles of our customers at the time of sanctioning a loan, we typically rely on a system of referrals from the local community and the value of the vehicle provided as underlying collateral rather than focusing solely on the credit profile of our customers.

**2. Any disruption in our sources of funding could adversely affect our liquidity and financial condition.**

The liquidity and profitability of our business depend, in large part, on our timely access to, and the costs associated with, raising funds. Our funding requirements historically have been met from various sources, including shareholder funding, assigned and securitized receivables, and secured and unsecured loans, including rupee-denominated term loans and cash credit facilities from banks and financial institutions, non-convertible debentures, unsecured, non-convertible debentures, commercial paper, fixed deposits and inter-corporate deposits. Our business thus depends and will continue to depend on our ability to access a variety of funding sources. Our ability to raise funds on acceptable terms and at competitive rates depends on various factors including our current and future results of operations and financial condition, our risk management policies, our credit ratings, our brand equity, the regulatory environment and policy initiatives in India, developments in the international markets affecting the Indian economy and the perceptions of investors and lenders of the demand for debt and equity securities of nonbanking financial companies ("NBFCs"). For example, regulatory developments in the past have affected NBFCs' access to select funding sources, and have affected their costs of borrowings including through funding from banks and the assignment and securitization transactions.

Changes in economic, regulatory and financial conditions or any lack of liquidity in the market could adversely affect our ability to access funds at competitive rates, which could adversely affect our liquidity and financial condition.

**3. Our inability to recover the full value of collateral or amounts outstanding under defaulted loans in a timely manner or at all could adversely affect our results of operations.**

For each vehicle financing arrangement, we sanction an amount of credit that is less than the value of the vehicle which we take as collateral. We regulate this amount through our restrictions on the loan to value ("LTV") ratio of each financing. We take other collateral such as houses for our housing finance business. The value of the collateral, however, may decline during the term of the loan for a variety of reasons, including depreciation and deterioration. As a result, if our customers default, we may receive less money from liquidating collateral than is owed under the relevant financing facility, and, in turn, incur losses, even where we successfully repossess and liquidate the collateral. While we require each customer to secure a guarantee, we may not be able to enforce or collect the amount owed under such guarantee, if at all.

We may also encounter difficulties in repossessing and liquidating collateral. When a customer defaults under a financing facility, we typically re-possess and then sell the collateral through an auction. There is no assurance, however, that we will be able to successfully repossess the collateral in the event of default under a loan agreement. We may also not be able to sell the collateral at a price sufficient to cover the amount owed under the financing facility, or at all. We may face additional delay

and expense in conducting an auction to sell the collateral and may face significant delay in repossessing collateral, as litigation against defaulting customers, even if governed by an arbitration clause, can be slow and expensive in India. If we are unable or delay to repossess and liquidate the collateral securing loans in default, we may incur losses, which could adversely affect our results of operations and financial condition.

**4. Our inability to compete effectively in an increasingly competitive industry may adversely affect our net interest margins, income and market share.**

We provide loans primarily to customers residing in rural and semi-urban markets. Our primary competitors have been private unorganized lenders who typically operate in rural and semi-urban markets and, increasingly, banks and NBFCs who have entered these markets. In addition to these private unorganized lenders, due to the significant growth in vehicle financing, we have recently begun to face competition from banks, NBFCs and housing finance companies, some of which may have superior technology, more resources, access to cheaper funding or existing office networks, have expanded their reach to rural and semi-urban markets and may have a better understanding of and relationships with customers in these markets. In addition, interest rate de-regulation and other liberalization measures affecting the vehicle financing sector, together with increased demand for capital, have resulted in increased competition.

Our ability to compete effectively will depend, in part, on our ability to maintain or increase our margins. Our margins are affected in part by our ability to continue to secure low-cost funding, and the interest rates at which we lend to our customers. Our ability to secure low-cost funding has been impacted by recent regulatory developments.

In light of this pressure, our ability to maintain or increase our margins will be dependent on our ability to pass on increases in the interest rates on our interest-bearing liabilities to our customers. Our ability to increase interest rates on the loans we extend, however, is limited by the increasing popularity of standardized and variable interest rate vehicle financing products, variable payment terms and lower processing fees. Moreover, any increases in the interest rates on the loans we extend may also result in a decrease in business or increase in our NPAs.

There can be no assurance that we will be able to react effectively to these or other market developments or compete effectively with new and existing players in the increasingly competitive vehicle finance industry in India. Increasing competition may adversely affect our net interest margins, income and market share, which in turn could have a material adverse effect on our financial condition and results of operations.

**5. If our Company's provisioning requirements are insufficient to cover our existing or future levels of non-performing loans, our ability to raise additional capital and debt funds as well as our results of operations and financial condition could be adversely affected.**

We adhere to provisioning requirements related to our loan portfolio pursuant to the Non-Banking Financial Companies Prudential Norms (Reserve Bank) Directions, 2007, as amended (the "Prudential Norms"). These provisioning requirements may be less onerous than the provisioning requirements applicable to financial institutions and banks in other countries. The provisioning requirements may moreover require subjective judgments of our management. We cannot be sure that we will be able to improve our collections and recoveries in relation to our NPAs, or otherwise adequately control our level of NPAs in future. Moreover, as our loan portfolio matures, we may experience greater defaults in principle and /or interest repayments.

Though our own existing provisioning norms are more stringent than prescribed by the RBI, our provisioning requirements may be inadequate to cover increases in non-performing loans. The Master Directions require the NBFCs to make a provision of 0.40% of the outstanding in respect of standard assets which shall not be reckoned for arriving at net NPAs as well. The provisioning required for standard assets is 0.35 % as on March 31, 2017; and 0.40 % as on March 31, 2018 and thereafter. In addition, the Master Directions specify that from Fiscal 2018 and thereafter loans be classified as non-performing after being three months overdue.

If our provisioning requirements are insufficient to cover our existing or future levels of non-performing loans, our ability to raise additional capital and debt funds as well as our results of operations and financial condition could be adversely affected.

**6. We are affected by volatility in interest rates for both our lending and treasury operations, which could cause our net interest income to decline and adversely affect our return on assets and profitability.**

A significant component of our income is the interest income we receive from the loans we disburse. Our interest income is affected by any volatility in interest rates in our lending operations. Interest rates are highly sensitive to many factors beyond our control, including the monetary policies of the RBI, deregulation of the financial sector in India, domestic and international economic and political conditions and other factors, which have historically generated a relatively high degree of volatility in interest rates in India. Persistently high inflation in India may discourage the Government from implementing policies that would cause interest rates to decrease. Moreover, if there is an increase in the interest rates we pay on our borrowings that we are unable to pass to our customers, we may find it difficult to compete with our competitors, who may have access to low-cost deposit funds. Further, to the extent our borrowings are linked to market interest rates, we may have to pay interest at a higher rate than lenders that borrow only at fixed interest rates.

Fluctuations in interest rates may also adversely affect our treasury operations. In a rising interest rate environment, especially if the rise is sudden or sharp, we could be adversely affected by the decline in the market value of our securities portfolio and other fixed income securities. In addition, the value of any interest rate hedging instruments we may enter into in the future would be affected by changes in interest rates, which could adversely affect our ability to hedge against interest rate volatility. We cannot assure that we will continue to enter into such interest rate hedging instruments or that we will be able to enter into the correct amount of such instruments to adequately hedge against interest rate volatility in the future.

Further, pursuant to our loan agreements with customers, we may lend money on a long-term, fixed interest rate basis, typically without including a provision that interest rates due under our loan agreements will increase if interest rates in the market increase. Any increase in interest rates over the duration of such loans may result in our losing interest income. Such increase will also affect the maturity period of the loan and may lead to increase in the amount of monthly installments due from borrowers and hence increasing the chances of default by the borrowers. Our inability to effectively and efficiently manage interest rate variations and our failure to pass on increased interest rates on our borrowings may cause our net interest income to decline, which would decrease our return on assets and could adversely affect our business, future financial performance and result of operations.

**7. A significant portion of our collections from customers is in cash, exposing us to certain operational risks.**

A significant portion of our collections from our customers is in cash. Large cash collections expose us to the risk of theft, fraud, misappropriation or unauthorized transactions by employees responsible for dealing with such cash collections. These risks are exacerbated by the high levels of responsibility we delegate to our employees and the geographically dispersed nature of our network. We primarily cater to customers in rural and semi-urban markets, which carry additional risks due to limitations on infrastructure and technology.

While we have implemented technology that tracks our cash collections, taken insurance policies, including fidelity coverage and coverage for cash in safes and in transit, and undertaken measures to detect and prevent unauthorized transactions, fraud or misappropriation, this may not be sufficient to prevent or deter such activities in all cases, which may adversely affect our operations and profitability. Further, we may be subject to regulatory or other proceedings in connection with any unauthorized transactions, fraud or misappropriation by our representatives and employees, which could adversely affect our goodwill. We may also be party to criminal proceedings and civil litigation related to our cash collections.

Our business is also susceptible to fraud by dealers, distributors and other agents with whom we deal on account of forgery of documents, multiple financing on same vehicle, customer identification and unauthorized collection of instalments on behalf of our Company.

Given the high volume of transactions involving cash processed by us, certain instances of fraud and misconduct by our representatives or employees may go unnoticed for some time before they are discovered and others successfully rectified. Even when we discover instances of fraud and other misconduct and pursue legal recourse or file claims with our insurance carriers, there can be no assurance that we will recover any amounts lost through such fraud or other misconduct. Our dependence upon automated systems to record and process transactions may further increase the risk that technical system flaws or employee tampering or manipulation of such systems will result in losses that are difficult to detect or rectify.

The Government has by the Finance Act, 2017 introduced Section 269(ST) to the Income Tax Act which restricts cash transactions above Rs. 2.00 lakhs. Cash has been a preferred mode of payment for many of our customers and may continue to be in the future. Due to the amendments to the Income Tax Act, some of our high value collections may be affected till such time these customers start servicing our repayments through banking channels.

**8. Any downgrade in our credit ratings could increase borrowing costs and adversely affect our access to capital and lending markets and could also affect our interest margins, business, results of operations and financial condition.**

The cost and availability of capital depends in part on our short-term and long-term credit ratings. Credit ratings reflect the opinions of ratings agencies on our financial strength, operating performance, strategic position and ability to meet our obligations. Certain factors that influence our credit ratings may be outside of our control. For example, our credit ratings may depend on the financial performance and business prospects of M&M and its majority shareholding in our Company. India Ratings & Research Private Limited has assigned IND AAA/Stable rating, CARE Ratings Limited (Formerly known as Credit Analysis and Research Limited) has assigned CARE AAA; Stable rating and CRISIL has assigned CRISIL AA+/Stable rating to our long-term and subordinated debt. Brickwork has assigned BWR AAA rating with Stable Outlook to our long-term subordinated debt. CRISIL has rated our fixed deposit program FAAA/ Stable. Our short term debt / Commercial paper programme is rated CRISIL A1+ and IND A1+ by CRISIL Limited & India Ratings & Research Private Limited respectively, which is the highest rating for short-term debt instruments. These ratings may be suspended, withdrawn or revised at any time. Any revision or downgrading in the credit rating may lower the trading price of the NCDs and may also affect our ability to raise further debt.

Any downgrade in our credit ratings could increase borrowing costs and adversely affect our access to capital and debt markets, which could in turn adversely affect our interest margins, our business and results of operations. In addition, any downgrade in our credit ratings could increase the probability that our lenders impose additional terms and conditions to any financing or refinancing arrangements we enter into in the future. However, these ratings are not recommendations to buy, sell or hold securities and prospective investors should take their own decisions.

**9. We depend on the services of our management team and employees, our inability to recruit and retain them may adversely affect our business.**

Our future success depends substantially on the continued service and performance of members of our management team and employees. There is intense competition for experienced senior management and other qualified personnel, particularly office managers, field executives and employees with local knowledge in client procurement, loan disbursement and installment collections. If we cannot hire additional or retain existing management personnel and employees, our ability to expand our business will be impaired and our revenue could be adversely affected. Failure to train and motivate our employees properly may result in an increase in employee attrition rates, require additional hiring, divert management resources, adversely affect our origination and collection rates, increase our exposure to high-risk credit and impose significant costs on us. While we have an incentive based remuneration structure, employee stock option scheme and training and development

programs designed to encourage employee retention, our inability to attract and retain talented professionals, or the resignation or loss of key management personnel, may have an adverse impact on our business and future financial performance.

**10. We face difficulties and incur additional expenses in operating in rural and semi-urban markets, where infrastructure may be limited.**

We cater primarily to customers in rural and semi-urban markets, which may have limited infrastructure, particularly for transportation and electricity. At offices in remote markets, we may face difficulties in conducting operations, such as accessing power facilities, transporting people and equipment, implementing technology measures. We may also face increased costs in conducting our business and operations, implementing security measures and expanding our advertising. We cannot assure you that such costs will not increase in the future as we expand our network in rural and semi-urban markets, which could adversely affect our profitability.

Moreover, a significant number of our customers are farmers residing in rural and semi-urban areas and our results of operations are affected by risks specific to their businesses. For example, the agriculture industry in India is substantially dependent on monsoons. Extreme weather conditions such as drought, insufficient rainfall or floods may potentially affect the quality and quantity of farming production in a given year, thereby adversely affecting the ability of our farmer customers to repay their loans.

**11. A decline in our Company's capital adequacy ratio could restrict our future business growth.**

Pursuant to the Non-Banking Financial Companies Acceptance of Public Deposits (Reserve Bank) Directions, 1998, as amended, we are required to maintain a capital adequacy ratio of at least 15.0% of our risk-weighted assets of our balance sheet and of risk adjusted value of off-balance sheet items, consisting of Tier I capital and Tier II capital, on an ongoing basis. The total Tier I capital, at any point is required to be at least 10% by March 31, 2017. If we continue to grow our loan portfolio and asset base, we will be required to raise additional Tier I and Tier II capital in order to continue to meet applicable capital adequacy ratios with respect to our business. There can be no assurance that we will be able to raise adequate additional capital in the future on terms favorable to us or at all, which could result in non-compliance with applicable capital adequacy ratios and may adversely affect the growth of our business.

**12. Governmental and statutory regulations, including the imposition of an interest-rate ceiling, may adversely affect our operating results and financial position.**

As a deposit-taking NBFC, we are subject to regulation by Government authorities, including the RBI. The RBI, however, has not established a ceiling on the rate of interest that can be charged by NBFCs in the asset finance sector. Currently, the RBI requires that the board of directors of each NBFCs adopts an interest rate model that takes into account relevant factors such as the cost of funds, margin and risk premium. It is unclear whether NBFCs are required to comply with the provisions of state money lending laws that establish ceilings on interest rates.

The High Court of Kerala, in relation to a notice received by us from the Sales Tax Commissioner, Kerala, has held in an order that we are required to be registered under the Kerala Money Lenders Act, 1958. We have filed a special leave petition in the Supreme Court against this order and the matter is currently pending. The Supreme Court has granted an interim stay against the enforcement of this notice. In the event we are required to register under the Kerala Money Lenders Act, 1958 or any other state money lending laws, there may be interest rate ceiling caps and other restrictions on operations of our business. Further, we have also received such notices in some other states in the past. If any regulatory authority or court imposes any penalty against us or our Directors or our officers including for prior non-compliance with respect to state money lending laws, our business, results of operations and financial condition may be adversely affected.

**13. We are subject to supervision and regulation by the RBI as a systemically important deposit-taking NBFC, and changes in RBI's regulations governing us could adversely affect our business.**

We are subject to the RBI's guidelines on financial regulation of NBFCs, including capital adequacy, exposure and other prudential norms. The RBI also regulates the credit flow by banks to NBFCs and provides guidelines to commercial banks with respect to their investment and credit exposure norms for lending to NBFCs. The RBI's regulations of NBFCs could change in the future which may require us to restructure our activities, incur additional cost, raise additional capital or otherwise adversely affect our business and our financial performance.

The RBI, from time to time, amends the regulatory framework governing NBFCs to address concerns arising from certain divergent regulatory requirements for banks and NBFCs. Pursuant to two notifications dated December 6, 2006, (Notifications No. DNBS. 189 / CGM (PK)-2006 and DNBS.190 / CGM (PK)- 2006), the RBI amended the NBFC Acceptance of Public Deposits Directions, 1998, reclassifying deposit taking NBFCs, such as us. We are also subject to the requirements of the Master Direction - Non-Banking Financial Companies Acceptance of Public Deposits (Reserve Bank) Directions, 2016, as amended.

The laws and regulations governing the banking and financial services industry in India have become increasingly complex and cover a wide variety of issues, such as interest rates, liquidity, investments, ethical issues, money laundering and privacy. Moreover, these laws and regulations can be amended, supplemented or changed at any time such that we may be required to restructure our activities and incur additional expenses to comply with such laws and regulations, which could materially and adversely affect our business and our financial performance.

Compliance with many of the regulations applicable to our operations in India, including any restrictions on investments and other activities currently being carried out by us, involves a number of risks, particularly in markets where applicable regulations may be subject to varying interpretations. If the interpretation of the regulators and authorities varies from our interpretation, we may be subject to penalties and our business could be adversely affected. We are also subject to changes in laws, regulations and accounting principles and practices. There can be no assurance that the laws governing the financial services sector will not change in the future or that such changes or the interpretation or enforcement of existing and future laws and rules by governmental and regulatory authorities will not adversely affect our business and future financial performance.

Additionally, we are required to make various filings with the RBI, the Registrar of Companies and other relevant authorities pursuant to the provisions of RBI regulations, the Companies Act and other regulations. If we fail to comply with these requirements, or a regulator claims we have not complied with these requirements, we may be subject to penalties and compounding proceedings.

**14. We may be unsuccessful in expanding into new lines of business and implement our new business strategies, and such new strategies may not achieve desired result which could adversely affect our growth and business.**

We continue to pursue opportunities to expand into new lines of business. For example, to complement our existing mutual fund distribution business, we incorporated an asset management company and during Fiscal 2016, obtained a certificate of registration as a registered mutual fund from SEBI. This growth strategy, and other growth strategies we pursue, may put a strain on our resources and may require us to obtain new regulatory approvals. Moreover, neither we nor Mahindra & Mahindra Limited (our Promoter or M&M) has significant operational experience in the mutual fund or banking sectors. Pursuing these business opportunities, including the setting up of an asset management company and our investments in a mutual fund business, will require significant capital, which we may not be able to raise in a timely manner, or at all. There can be no assurance that we will be successful in expanding these new lines of business, which could adversely affect our business, operations and profitability.

We may pursue new business strategies in the future, including, amongst others, increasing our presence in India, opening new offices and increasing our presence in rural centres. We will continue

to introduce new products and services, such as loans to small and medium enterprises in our existing lines of business. Pursuing these strategies involves inherent business risks, such as making incorrect judgments or assumptions as to target customer or customer acceptance of any of these strategies. In addition, we may need to make additional investments for advertisement to build brand awareness among our target customers for any new business areas that we may want to venture into. There is no assurance that we will be successful in implementing any or all of these strategies. In the event that any of these business strategies fail, our overall financial performance may be adversely affected.

**15. Any failure, inadequacy and security breach in our computer systems and servers may adversely affect our business.**

Our operations depend on our ability to process a large number of transactions on a daily basis across our network of offices, most of which are connected through computer systems and servers to our head office. Our financial, accounting or other data processing systems may fail to operate adequately or become disabled as a result of events that are beyond our control, including a disruption of electrical or communications services, particularly in the rural and semi-urban markets in which we primarily operate. Our business is particularly susceptible to such disruptions because of our reliance on handheld GPRS devices, expected implementation of mobile offices and the higher cost of installation and implementation of technology in the rural and semi-urban markets. Our ability to operate and remain competitive will depend in part on our ability to maintain and upgrade our information technology systems on a timely and cost-effective basis. The information available to and received by our management through our existing systems may not be timely and sufficient to manage risks or to plan for and respond to changes in market conditions and other developments in our operations. We may experience difficulties in upgrading, developing and expanding our systems quickly enough to accommodate our growing customer base and range of products.

Our operations also rely on the secure processing, storage and transmission of confidential and other information in our computer systems and networks. Our computer systems, servers, software, including software licensed from vendors and networks may be vulnerable to unauthorized access, computer viruses or other malicious code and other events that could compromise data integrity and security and result in identity theft including customer data, employee data and proprietary business data, for which we could potentially be liable. Any failure to effectively maintain or improve or upgrade our management information systems in a timely manner could adversely affect our competitiveness, financial position and results of operations. Moreover, if any of these systems do not operate properly or are disabled or if there are other shortcomings or failures in our internal processes or systems, it could affect our operations or result in financial loss, disruption of our businesses, regulatory intervention or damage to our reputation. In addition, our ability to conduct business may be adversely impacted by a disruption in the infrastructure that supports our business.

**16. Our ability to assess, monitor and manage risks inherent in our business differs from the standards of some of our counterparts in India and in some developed countries**

The effectiveness of our risk monitoring and management is limited by the quality, timeliness and availability of data required for the assessment of the risks such as, information regarding market, customers, proposed policy changes, etc. These data may not be accurate or complete in all the cases thereby affecting our ability to access, monitor and manage the risk. Our hedging strategies and other risk management techniques may not be fully effective in mitigating all the types of risks that we face or may face in the market. Largely, our risk management is based on the study of historical market behaviour and as a result these studies may not predict the future risks exposures. Our risk management policies therefore may not in all cases adequately address unidentified or unanticipated risks. Our inadequacy in properly assessing the risks and hence moulding accordingly to ward off these risks may have an adverse effect on our business and results of operations.

## **EXTERNAL RISKS**

### **1. A slowdown in economic growth in India could cause our business to suffer.**

Any slowdown in the Indian economy or in the growth of any of the industries to which we provide financing to, or future volatility in global commodity prices, could adversely affect our borrowers and the growth of our business, which in turn could adversely affect our business, results of operations and financial condition.

India's economy could be adversely affected by a general rise in interest rates, currency exchange rates, adverse conditions affecting agriculture, commodity and electricity prices or various other factors. Furthermore, conditions outside India, such as slowdowns in the economic growth of other countries, could have an impact on the growth of the Indian economy, and government policy may change in response to such conditions.

The Indian economy and financial markets are also significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States, Europe or China, may have a negative impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss in investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets. Any prolonged financial crisis may have an adverse impact on the Indian economy, thereby resulting in a material adverse effect on our business, financial condition and results of operations.

### **2. Political instability, changes in the Government or natural calamities may adversely affect economic conditions in India, which may impact our business, financial results and results of operations.**

The Government has traditionally exercised and continues to exercise influence over many aspects of the economy. Our business and the market price and liquidity of our Equity Shares may be affected by interest rates, changes in Government policy, taxation, social and civil unrest and other political, economic or other developments in or affecting India. Since 1991, successive Indian Governments have pursued policies of economic liberalisation and financial sector reforms. Various factors could trigger significant changes in India's economic liberalization and deregulation policies, disrupt business and economic conditions in India generally and our business in particular. Our financial performance may be adversely affected by changes in inflation, exchange rates and controls, interest rates, Government, social stability or other political, economic or diplomatic developments affecting India in the future.

India has experienced and may continue to experience natural calamities such as earthquakes, floods and drought. The extent and severity of these natural disasters determines their effect on the Indian economy. Such natural calamities could have a negative effect on the Indian economy, adversely affecting our business.

### **3. Terrorist attacks, communal disturbances, civil unrest and other acts of violence or war involving India and other countries may adversely affect the financial markets and our business.**

Terrorist attacks and other acts of violence or war may adversely affect the Indian and worldwide financial markets. These acts may also result in a loss of business confidence and adversely affect our business, financial condition and results of operations. In addition, any deterioration in relations between India and its neighboring countries might result in concern about stability in the region, which may adversely affect the price of our NCDs.

India has also witnessed civil unrest including communal disturbances and riots in recent years. If such events recur, our operational and marketing activities may be adversely affected, resulting in a

decline in our income. Such incidents may also create a greater perception that investment in Indian companies involves a higher degree of risk and may have an adverse impact on the price of our NCDs.

**4. Any downgrade of credit ratings of India may adversely affect our ability to raise debt financing.**

India's sovereign ratings reflect an assessment of the Indian government's overall financial capacity to pay its obligations and its ability or willingness to meet its financial commitments as they become due.

No assurance can be given that any statistical rating organisation will not downgrade the credit ratings of India. Any such downgrade could adversely affect our ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our business and financial performance.

**5. A decline in India's foreign exchange reserves may affect liquidity and interest rates in the Indian economy, which could adversely impact our financial condition.**

Flows to foreign exchange reserves can be volatile, and past declines may have adversely affected the valuation of the Rupee. Further declines in foreign exchange reserves, as well as other factors, could adversely affect the valuation of the Rupee and could result in reduced liquidity and higher interest rates that could adversely affect our future financial performance and the market price of the NCDs.

**b. A brief summary of business / activities of the Issuer Company.**

**Overview**

We are one of the leading non-banking finance companies ("NBFCs") with customers primarily in the rural and semi-urban markets of India. We are part of the Mahindra group, which is one of the largest business conglomerates in India. We are primarily engaged in providing financing for new and pre-owned auto and utility vehicles, tractors, cars and commercial vehicles. We also provide housing finance, personal loans, financing to small and medium enterprises, insurance broking and mutual fund distribution services. In addition we, among other services, provide wholesale inventory-financing to dealers and retail-financing to customers in the United States for purchase of Mahindra group products through Mahindra Finance USA LLC, our joint venture with a subsidiary of the Rabobank group.

Our Company was incorporated in 1991 and commenced operations as a finance company in 1993. Our Company was registered as a deposit-taking NBFC in 1998 and have since established a pan-India presence, spanning 27 states and 4 union territories through 1,178 offices as of September 30, 2017. Our Company caters to the financing needs of retail customers and small and medium-sized enterprises. Our Company primarily focusses on providing financing for purchases of auto and utility vehicles, tractors, cars, commercial vehicles and construction equipment and pre-owned vehicles and others which accounted for 27%, 19%, 21%, 11% and 22% of estimated total value of the assets financed, respectively, for the year ended March 31, 2017. We benefit from our close relationships with dealers and our long-standing relationships with OEMs, which allow us to provide on-site financing at dealerships.

Our Vision is to be a leading financial services provider in semi-urban and rural India. Our Mission is to transform rural lives and drive positive change in the communities.

As a supplement to our lending business, in May 2004, we started an insurance broking business through our subsidiary, MIBL. We provide insurance broking solutions to individuals and corporates through, MIBL. MIBL has a "composite broking license" from the IRDA, which allows MIBL to undertake broking of life, non-life and reinsurance products. It has been awarded the ISO 9001:2008 Certification for Quality Management Systems for services related to broking of life and non-life insurance products to corporate and retail customers. During Fiscal 2017, MIBL earned an income of ` 17,423.40 lakhs and achieved a profit after tax of ` 5,304.80 lakhs.

In October 2007, we commenced our housing finance business through our subsidiary MRHFL. We provide housing loans to individuals through, MRHFL, a registered housing finance company, in which NHB presently owns a 12.5% equity share capital of MRHFL. We grant housing loans for purchase,

construction, extension and renovation of house property. During Fiscal 2017, MRHFL's total income was ` 70,336.89 lakhs and achieved a profit after tax of ` 8,300.55 lakhs.

On September 27, 2010, our Company entered into an agreement with De Lage Landen Financial Services Inc., which is wholly-owned by the Rabobank group, to form a joint venture company in the United States, Mahindra Finance USA LLC. Mahindra Finance USA LLC was formed to provide, among other services, wholesale inventory financing to U.S. based dealers purchasing products of the Mahindra group and retail financing to customers for financing the purchase of the Mahindra group products. Our Company owns a 49.0% interest in Mahindra Finance USA LLC with the balance owned by De Lage Landen Financial Services Inc.

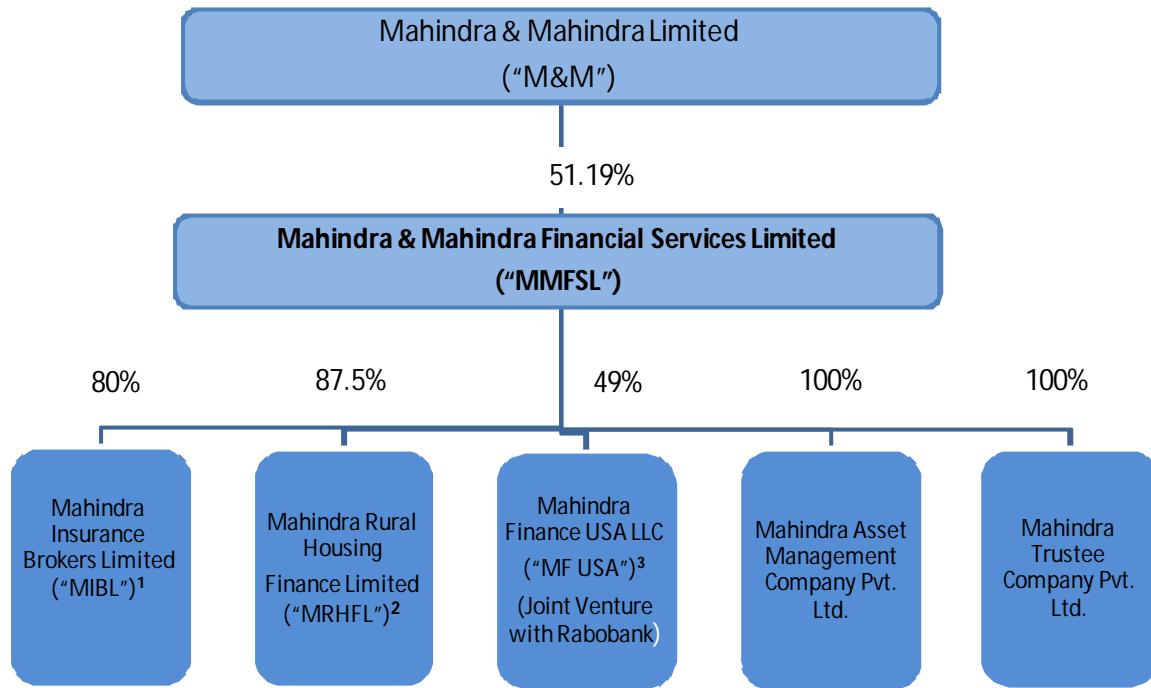

On 20 June 2013, Mahindra Asset Management Company Private Limited was incorporated and has been appointed as the asset management company of 'Mahindra Mutual Fund'. Mahindra Mutual Fund was constituted as a trust on 29 September 2015 and was registered with SEBI on 4 February 2016 under the registration code MF/069/16/01. MMFSL is the sponsor to the mutual fund and Mahindra Trustee Company Private Limited, a 100% subsidiary of MMFSL, is the trustee to the mutual fund. The maiden fund of the Mahindra Mutual Fund - 'Mahindra Liquid Fund' received approval from the SEBI on 20 June 2016 and was launched on 4 July 2016.

On standalone basis, for the Fiscal 2017, Fiscal 2016, Fiscal 2015, Fiscal 2014 and Fiscal 2013, the estimated total value of assets financed was ` 31,65,914 lakhs, ` 26,70,632 lakhs, ` 24,33,110 lakhs, ` 25,40,002 lakhs and ` 23,83,858 lakhs, respectively, total income from operations was ` 6,17,391.06 lakhs, ` 5,85,316.11 lakhs, ` 5,53,605.61 lakhs, ` 4,92,163.21 lakhs and ` 3,85,672.15 lakhs, respectively and total profit after tax was ` 40,023.49 lakhs, ` 67,259.60 lakhs, ` 83,177.59 lakhs, ` 88,722.75 lakhs and ` 88,269.18 lakhs respectively.

On standalone basis, as of March 31, 2017, we maintained a NPA coverage ratio of 61.8%, net NPA of 3.6% of total assets, capital adequacy ratio of 17.2%, total loans and advances outstanding of ` 42,52,336.65 lakhs and total assets of ` 45,98,523.19 lakhs, compared to, as of March 31, 2016, we maintained a NPA coverage ratio of 61.7%, net NPA of 3.2% of total assets, capital adequacy ratio of 17.3%, total loans and advances outstanding of ` 36,66,156.57 lakhs and total assets of ` 39,57,947.92 lakhs.

## **Our Competitive Strengths**

Our competitive strengths are as follows:

### ***Knowledge of rural and semi-urban markets***

We have over 20 years of operating experience primarily in rural and semi-urban markets, which has led to a significant understanding of local characteristics of these markets and has allowed us to address the unique needs of our customers. Of our Company's 1,182 offices spanning across 27 states and 4 union territories, as of March 31, 2017, majority cater to customers located in rural and semi-urban markets. We have adapted to markets that are affected by limitations of rural infrastructure and have developed a diversified customer base of farmers, car-owners, transport agencies, small businessmen and home-owners. For origination and collection, we hire employees with knowledge of the local markets and have also implemented a de-centralized process to approve loans that meet pre-determined criteria. Further, our field executives use hand-held general packet radio service ("GPRS") devices to record data while collecting loan payments at the customer's home or business location. This leads to face-to-face interaction that improves our understanding of the needs of our customers and enables us to be more responsive to local market demand. We believe that our knowledge of the rural and semi-urban markets is a key strength that has enabled us to become one of India's leading NBFCs.

We were early entrants into the rural and semi-urban markets, initially providing financing solely for products of M&M which has been selling its products in those markets for over 6 decades. Credit in these markets was principally provided by banks from the organised finance sector or by the local money lenders. There was a large section of the rural population which did not have access to credit largely due to their inability to meet the lending covenants of the banks or because they could not service the high rates of the money lenders. We identified this opportunity and positioned ourselves to service this population. We adopted simple and prompt loan approval and documentation procedures and set our offer rates between those of the banks and the money lenders. In addition, the markets we serve are largely cash driven and we understand the challenges and limitations of rural infrastructure and have created processes/systems to overcome such limitations and challenges. For example, our field executives collect cash at the customer's premises saving them the need to travel to one of our offices or a bank. These visits also enable us to develop our customer relationships and importantly allow us to understand their businesses. This understanding enables us to be proactive and develop future products for our customers. Our nationwide network, locally recruited employees, regular visits and our close relationship with the dealers enables us to understand the needs of our customers. We believe that due to our early entry, our client relationships and our relationship with OEMs, we have built a recognisable brand in the rural and semi-urban markets of India.

### ***Extensive network of offices***

We operate an extensive network of our 1,182 offices spanning across 27 states and 4 union territories, as of March 31, 2017. The reach of our offices allows us to service our existing customers and attract new customers as a result of personal relationships cultivated through proximity and frequent interaction by our employees. Our widespread office network reduces our reliance on any one region in India and allows us to apply best practices developed in one region to other regions. Our geographic diversification also mitigates some of the regional, climatic and cyclical risks, such as heavy monsoons or droughts. In addition, our extensive office network benefits from a de-centralized approval system, which allows each office to grow its business organically as well as leverage its customer relationships by offering distribution of insurance products and mutual funds. We service multiple products through each of our offices, which reduces operating costs and improves total sales. We believe that the challenges inherent in developing an effective office network in rural and semi-urban areas provide us with a significant first mover advantage over our competitors in these areas.

### ***Streamlined Approval and Administrative Procedures and Effective Use of Technology***

We believe that we benefit from our streamlined company-wide approval and administrative procedures that are supplemented by our employee training and integrated technology. Our local offices are responsible for appraisal, disbursement, collection and delinquency management of loans. We require simple documentation to comply with the regulatory norms and for the collateral on the vehicle or equipment purchased. Typically, we disburse loan funds within two business days from receiving the complete loan application. Each of our security agreements contains alternate dispute resolution provisions for arbitration, re-possession and sale of assets that secure defaulting loans. We also require that the customer provides a guarantor as part of a reference check prior to disbursing the funds, a process which we believe acts as a social enforcement mechanism for timely repayment by customers.

We believe that our de-centralized streamlined origination process is successful because of our employee training and integrated technology. We train our employees to use soft skills and offer customised financial products based on the credit requirements and credit history of customers. Moreover, we are able to regularly monitor origination, disbursement and collection with our integrated technology. In addition, hand-held GPRS devices used by our employees provide us with installment collection, customer and certain risk management information in a prompt manner, thus enabling better monitoring. The recording of data in this manner enables us to provide intimation by SMS to customers in a prompt manner at every stage of the transaction and we believe, it also allows us to handle customer queries more efficiently.

### ***History of strong customer and dealer relationships***

We believe that we benefit from strong relationships with our customers, forged from long-term in-person customer contact, the reach of our office network, local knowledge and our continued association with automotive, farm equipment and car dealers. As part of our customer-centric approach, we recruit employees locally to increase our familiarity with the local customers and area. We believe that this personal contact, which includes visits by our employees to a customer's home or business to collect installment payments, increases the likelihood of repayment, encourages repeat business, establishes personal relationships and helps builds our reputation for excellent customer service. We also believe that our Company's close relationships with dealers help us develop and maintain strong customer relationships.

### ***Brand recall and synergies with the Mahindra group***

M&M, our Promoter and the flagship company of the Mahindra group has been selling automotive and farm equipment in semi-urban and rural markets for over 6 decades. The Mahindra group is one of the largest business conglomerates in India and has a strong presence in utility vehicles, tractors, information technology, financial services, aerospace, real estate, hospitality and logistics sectors. We believe that our relationship with the Mahindra group provides brand recall and we will continue to derive significant marketing and operational benefits.

### ***Access to cost-effective funding***

We believe that we are able to access cost-effective debt financing due to our strong brand equity, stable credit history, superior credit ratings and conservative risk management policies. Historically, we have secured cost-effective funding from a variety of sources. Our Company maintains borrowing relationships with several banks, mutual funds and insurance companies. We adhere to write-off and provisioning standards that are stricter than norms prescribed by RBI. Our long-term and subordinated debt is presently rated IND AAA, BWR AAA, CARE AAA and CRISIL AA+ by India Ratings & Research Private Limited, Brickwork Ratings India Private Limited, CARE Ratings Limited (Formerly Known as Credit Analysis & Research Limited) and CRISIL respectively. India Ratings & Research Private Limited and CRISIL has rated our short-term debt as Ind A1+ and A1+ respectively, which is the highest rating for short-term debt instruments, and CRISIL has rated our fixed deposit programs FAAA. For the Fiscal 2017 and Fiscal 2016, our average annualized interest cost of borrowed funds was 8.8% and 9.4%, respectively.

### ***Experienced management team***

We have an experienced management team, which is supported by a capable and motivated pool of employees. Our senior managers have diverse experience in various financial services and functions related to our business. Our senior managers have an in-depth understanding of the specific industry, products and geographic regions they cover, which enables them to appropriately support and provide guidance to our employees. We also have an in-house experienced legal team consisting of qualified professionals, well-equipped to handle all our legal requirements ranging from loan and security documentation to recovery, repossession, security enforcement and related litigation, if any. In addition, our management has a track record of entering and growing new lines of business, such as insurance broking and housing finance. Our Board, including the independent directors, also has extensive experience in the financial services and banking industries in India.

### **Our Strategies**

Our business strategy is designed to capitalize on our competitive strengths to become the preferred provider of financing services to customers in the rural and semi-urban areas of India. Our key strategic priorities are as follows:

#### ***Focus on the rural and semi-urban markets to grow our market share***

We plan to continue to expand our office network and increase the market share of our existing products and services in the rural and semi-urban markets of India. We intend to grow our market share by expanding our customer base and strengthening our relationships with dealers. We have grown our office network to 1182 offices as of March 31, 2017 from 657 offices as of March 31, 2013. In opening each office site, we analyze the local market and proximity to target customers. We believe our customers appreciate this convenience and that well-placed office sites allow us to attract new customers. In addition to our branch and region-based organisational structure, we have also formed a separate vertical for each of our key products, which works with our employees across offices to customize our products based on customers feed-back.

We also seek to expand our dealer relationships by strengthening our presence at dealers and by continuing to engage dealers beyond M&M for customer relationships. We believe that this strategy will increase our customer base and revenues and mitigate risks associated with deriving a substantial percentage of our vehicle financing revenues from purchasers of M&M vehicles. In order to enhance our dealer relationships, we also provide trade funding to assist with the working capital requirements of these dealers. We believe that we are in a position to leverage our existing distribution infrastructure to increase our penetration in markets where we already have a presence.

#### ***Focus on effective use of technology***

As we continue to expand our geographic reach and scale of operations, we intend to further develop and integrate our technology to support our growth and improve the quality of our services. We intend to increase the number of offices connected to the centralized data centre in Mumbai. We also intend to expand our use of hand-held GPRS devices, which collect data used to monitor our operations and risk exposure. We have also rolled out an advanced version of the GPRS devices, which functions as a "mobile office" and is equipped with portable camera, scanning, voice recording and biometric features that allows our employees to originate loans, issue receipts and conduct know-your-customer checks at a customer's home or business location. We believe that as we develop and integrate such programs into our business, we can further capitalize on the reach of our offices and increase our market share. Our use of technology will also allow us to continue providing streamlined approval and documentation procedures and reduce incidence of error.

Further, our continued focus on the effective use of technology is aimed at allowing employees across our office network to collect and feed data to a centralized management system, providing our senior management with prompt operational data and assisting with treasury management. We believe that the accurate and timely collection of such data gives us the ability to operate our business in a centralized manner and develop better credit procedures and risk management.

#### ***Diversify product portfolio***

We also intend to further improve the diversity of our product portfolio to cater to the various financial needs of our customers and increase the share of income derived from sale of financial products. We intend to improve the diversity of our product portfolio both within our vehicle financing business as well as through the introduction and growth of other financial products. We intend to grow the share of our disbursements to pre-owned vehicles and light and heavy commercial vehicles to capture market share in what we believe is a growth area and improve the diversity of our loan exposure. We also intend to leverage our relationships—including with Maruti and its 'True Value' brand of pre-owned vehicles and M&M and its 'First Choice' brand of pre-owned vehicles—and our existing office network to diversify and expand our product portfolio.

Beyond our vehicle financing business, we intend to leverage our brand and office network, develop complementary business lines and become the preferred provider of financial products in rural and semi-urban markets—a one-stop shop for customers' financial needs. We have also launched a direct marketing initiative to target our existing and former customers to cater to all their financing requirements, thus generating new business and diversifying our loan portfolio. We expect that complementary business lines will allow us to offer new products to existing customers while attracting new customers as well. To this end, we hope to grow our housing finance, personal loans, gold loans and SME financing and increase distribution of mutual funds and insurance products. We will continue to focus on growing our rural housing portfolio through our subsidiary MRHFL, which in partnership with the National Housing Bank, we believe is in a unique position to cater to a large and untapped customer base.

#### ***Continue to attract and retain talented employees***

As part of our business strategy, we are focused on attracting and retaining high quality talent. We recognize that the success of our business depends on our employees, particularly as we continue to expand our operations. We have successfully recruited and retained talented employees from a variety of backgrounds, including credit evaluation, risk management, treasury, technology and marketing. We will continue to attract talented employees through our retention initiatives and recruitment from local graduate colleges. Our retention initiatives include job rotation, secondments, quarterly reviews, incentive-based compensation, employee recognition programs, an employee stock option plan, training at our training facility and on-the-job training. We invest a significant amount of time and resources for training our employees, which we believe fosters mutual trust, improves the quality of our customer service and puts further emphasis on our continued retention.

### **Our Operations – Lending policy**

#### **Initial Evaluation**

Once we identify a customer and complete his application, a field executive obtains information from the customer, including proof of identification and residence, background, potential of servicing the loan, other outstanding loans, loan type sought and the proposed use of the vehicle being financed. We also require that the customer provide a guarantor, typically another vehicle owner and preferably an existing or former customer of ours.

For a customer seeking to finance a pre-owned vehicle, our field executive prepares a vehicle inspection and evaluation report to determine the registration details, condition and market value of the vehicle. The field executive also prepares a field investigation report, which includes details of various movable

and immovable properties of the applicant and guarantor. For an existing customer, the field executive also evaluates the customer's track record of payments.

The field executive then recommends whether the loan should be approved based on our prescribed guidelines and forwards a recommendation to the office manager for disbursement.

### **Approval Process**

Our office managers evaluate proposals received from field executives. Office managers primarily evaluate a customer's ability to repay, which includes permanency of residence, record of past repayment, income from other sources, entrepreneurial attitude, physical verification and operational viability of the proposed business, if applicable. To minimize the time required for approvals, we conduct know-your-customer procedures as required by the RBI in-house, use decentralized approval authority and standardized documentation and procedures across our offices. We typically approve loans within two days of receiving a complete application together with relevant supporting documents.

For the trade advances that we provide to authorized dealers, particularly for utility vehicles, tractors and cars, we also undertake background checks with the vehicle manufacturer, credit history, business volumes and seasonality. Our head office sets and communicates limits on trade advances for dealers.

For SME financing, there are four teams involved which include relationship, credit, risk and compliance. The relationship team collects the credit login information based on which it will visit the customer and does the assessment. The customer requirement is fulfilled with products defined in the credit policy. After the customer accepts the product structure, the proposal is provided to the approval authority as defined in the credit policy. Thereafter, the compliance team takes care of the execution of conditions of approval and the disbursement of the loan. The disbursement is conducted by the accounts team. All the activities, from login, approval, compliance and disbursement, are taken care of from our single software system. The credit policy and products are designed, taking into consideration the customer segments and industry segment.

### **Disbursement**

After confirming completion of the initial evaluation and approval process, our disbursing officers meet the customers to execute the loan documentation, ensuring that we gain security over the collateral. The disbursing officer verifies the know-your-customer checklist with the customer and verifies the completed checklist with information in our file. The disbursing officer explains the contents of the loan documents and based on customer's request, provides copies of the executed loan documents to the customer. In certain cases, we also require the customer to submit post-dated cheques typically covering the first 12 instalments prior to any loan disbursement. Options such as direct debit and Automated Clearing House (ACH) are provided to our customers to facilitate ease in repayment. For pre-owned vehicles, we also require endorsement of the registration certificate and the insurance policy. We aim to appraise customers and complete disbursement within the shortest amount of time while adhering to our internal standards and regulatory requirements.

### **Loan Administration and Monitoring**

At the outset of loan disbursement, we give our customers an option to pay using one of five methods—cash, cheque, demand drafts, ECS or ACH—at a frequency that is fixed after determining the customer's expected cash flow. Our field executives visit customers to collect installments as they become due. We track loan repayment schedules on a monthly basis through our central MIS department, which monitors installments due and loan defaults. We ensure that all customer accounts are reviewed by an office manager at regular intervals, with customers who have larger exposures or missed payments reviewed more frequently.

### Collection and Recovery

Our field executives are responsible for collecting installments, with each field executive typically having responsibility for specified number of borrowers, depending on the volume of loan disbursements in the area. We consider opening a new office to handle additional customers in the region in an effort to ensure that each office can closely monitor its risks and collections.

We believe that our loan recovery procedure is well-suited to rural and semi-urban markets. The entire collection process is administered in-house. If a customer misses installment payments, our field executives identify the reasons for default and initiate action pursuant to our internal guidelines.

In the event of default under a loan agreement, we may initiate the process for re-possessing collateral. We typically use external agencies to re-possess collateral. Where appropriate, our loan asset reconstruction department coordinates with our legal team and external lawyers to initiate and monitor legal proceedings.

The present /proposed issue of **Rs. 8000 Crores** of debentures is within the overall limit approved by special resolution passed on 15<sup>th</sup> June 2017 by shareholders by way of postal ballot, according their consent to the Board of Directors of the Company to borrow monies from time to time up to a limit of Rs. **60000** Crores. The borrowings under these Debentures will be within the prescribed limits as aforesaid.

#### **Subordinated debt**

**Subordinated debt** means an instrument, which is fully paid up, is unsecured and is subordinated to the claims of other creditors and is free from restrictive clauses and is not redeemable at the instance of the holder or without the consent of the supervisory authority of NBFC .

#### **Rights of Debenture-holders**

Debentureholders do not carry any rights regarding voting, dividend, lien on shares.

#### **Market Lot**

The market lot will be 1 Debenture and in multiples of 1 thereafter.

### **Minimum Subscription**

10 debentures and in multiples of 1 thereafter.

### **Record Date**

The record date for determining eligibility for interest / principal payments shall be mentioned in the respective Term Sheet. Interest / Principal will be paid to the person whose name appears in the Register of Debentureholders as sole / first Debenture holder or as per the list of beneficiaries provided by the Depository as on the record date. In case of delay in lodgment of the instrument of transfer, all claims on interest / principal shall be inter-se between the transferor and transferee.

### **Place and Currency of Payment**

All obligations under these Debentures are payable at Mumbai in Indian Rupees only.

### **Payment of Interest**

Interest will be paid only to the Debenture holders registered in the Register of Debenture holders of the Issuer, which shall be maintained at the Corporate Office of the Issuer at Mumbai or to the debenture holder(s) whose names appear in the list of Beneficial Owners furnished by NSDL to the company as on the Record date for this purpose.

In the case of joint holders, interest shall be payable to the first named Debenture holder. The persons whose names are registered in the Register of Debenture holders or NSDL record on that date shall be entitled to receive the interest for the preceding interest period. For the purpose of registering a transfer of Debentures prior to the Record Date, the Debenture certificate(s)/letter(s) of the allotment, a duly stamped transfer deed and all supporting documents must reach the Issuer at its Corporate Office at least seven days before the Record Date. In case of the Debentures in demat mode the provisions of NSDL would be complied by the Registrar & Transfer Agent for facilitating interest payment by the Issuer Company on Due date.

The interest shall be calculated on Actual/Actual basis, i.e. The interest shall be computed on the basis of actual number of days elapsed in a year, for this purpose a year to comprise of a period of 365 days.

In case of a leap year, if February 29 falls during the tenor of a security, then the number of days shall be reckoned as 366 days (Actual/Actual day count convention) for a whole one year period, irrespective of whether the interest is payable annually, half yearly, quarterly or monthly etc. It is thus emphasized that for a half yearly interest payment, 366 days would be reckoned twice as the denominator; for quarterly interest, four times and for monthly interest payment, twelve times.

The interest warrant will be payable at par at Mumbai only. Please refer the illustration mentioned at the end of Section A

### **Redemption**

The payment of the redemption amount of the Debentures will be made by the Company to the Registered Debentureholders recorded in the books of the Company and in the case of joint holders, to the one whose name appears first in the Register of Debentureholders as on the record date. In the event of the Company not receiving any notice of transfer along with the original Debenture certificates, before the record date, the transferee(s) for the Debenture(s) shall not have any claim against the Company in respect to the amount so paid to the Registered Debentureholders.

On the final maturity date, the Debentures held in the physical form will be redeemed by the Company as a legal discharge of the liability of the Company towards the Debentureholders and the applicant has to surrender the duly discharged Debenture certificates/letter of allotment to the Company by registered post with acknowledgement due or by hand delivery to the Company at the Corporate Office or to such other person(s) at such address as may be notified by the Company from time to time, before the record date for redemption.

The Debentures held in the Dematerialized Form shall be taken as discharged on payment of the redemption amount by the Company on maturity to the registered Debentureholders whose name appears in the Register of Debentureholders on the record date. Such payment will be a legal discharge of the liability of the Company towards the Debentureholders. On such payment being made, the

Company will inform NSDL and accordingly, the depository account of the Debentureholders with NSDL will be debited.

The Company's liability to the Debentureholders towards all their rights including for payment or otherwise shall cease and stand extinguished from the due dates of redemption in all events. Further, the Company will not be liable to pay any interest or compensation from the dates of such redemption.

On the Company dispatching the amount as specified above in respect of the Debentures, the liability of the Company shall stand extinguished.

The interest as well as the redemption payments shall be made through instruments payable at par at Mumbai or through RTGS / ECS / transfer instructions.

#### **Tax Deduction at Source**

Tax as applicable under the Income Tax Act, 1961, or any other statutory modification or re-enactment thereof will be deducted at source on the interest payable on the debentures. Tax exemption certificate / document / form, under Section 193 of the Income Tax Act, 1961, if any, must be lodged at the Corporate Office, at least thirty days before the relevant interest payment becoming due.

#### **Issue Of Debentures in Dematerialized Form**

The Company has made depository arrangements with National Securities Depository Limited (NSDL) for issue of the Debentures in the demat form. The investors will have the option to hold the debentures in dematerialized form and deal with the same as per the provisions of Depositories Act, 1996 and Rules as notified by NSDL from time to time.

Unless the investors specifically request for physical debenture certificates all the Debenture Certificates will be issued in the dematerialized form and the investors should mention their Depository Participant's name, DP-ID and beneficiary account number in the appropriate place in the application form. Debentures allotted to successful allottee(s) having depository account shall be credited to their depository account against surrender of letter of allotment.

In case of incorrect details provided by the investors the Registrar will not credit the debentures to the Depository Account until the details are corrected by the investors.

#### **Issue of Letter of Allotment/ Allotment Advice and Debenture Certificates**

The Issuer will execute and dispatch or credit Letters of Allotment/ Allotment advice in favour of the allottees, not later than two business days after the Deemed Date of Allotment. After completion of all legal formalities, the Issuer will issue the Debentures certificate(s) / credit the Depository account of the allottee against surrender of the letter(s) of allotment within three month(s) of the Deemed Date of Allotment, or such extended period subject to obtaining the approvals, if any. Interest at coupon rate will be paid via interest warrants on the application money to the applicants. Such interest will be paid for the period commencing from the date of receipt of funds till one day prior to the deemed date of allotment.

### **Right to Re-purchase and Re-issue the Debentures**

The Company will have power, exercisable at its sole and absolute discretion from time to time to repurchase a part or all of its Debentures from the secondary markets or otherwise at any time prior to the date of maturity as per the prevailing guidelines/regulations of Reserve Bank of India and other Authorities.

In the event of a part or all of its Debentures being repurchased as aforesaid or redeemed under any circumstances whatsoever, the Company shall have, and shall be deemed always to have had, the power to reissue the Debentures either by reissuing the same Debentures or by issuing other Debentures in their place.

Further the Company, in respect of such repurchased / redeemed Debentures shall have the power, exercisable either for a part or all of those Debentures, to cancel, keep alive, appoint nominee(s) to hold or reissue at such price and on such terms and conditions as it may deem fit and as permitted by law.

### **Transfer of Debentures**

Debentures shall be transferred subject to and in accordance with the rules/ procedures as prescribed by the NSDL / CDSL, Depository Participant of the transferor/ transferee and any other applicable laws and rules notified in respect thereof. The normal procedure followed for transfer of securities held in dematerialized form shall be followed for transfer of these Debentures held in electronic form. The seller should give delivery instructions containing details of the buyer's DP account to his depository participant.

The debentures shall be freely transferable subject to the applicable law and prevailing guidelines of Reserve Bank of India (RBI) and Securities and Exchange Board of India (SEBI). The transferee(s) should ensure that the transfer formalities are completed prior to the Record Date. In the absence of the same, interest will be paid/ redemption will be made to the person, whose name appears in the records of the Depository. In such cases, claims, if any, by the transferee(s) would need to be settled with the transferor(s) and not with the Company, and the Company shall not be liable in this regard in any manner, whatsoever.

### **Succession**

In the event of demise of a Registered Debenture holder of the Debentures, or the first holder in the case of joint holders, the Issuer will recognize the executor or administrator of the demised Debenture holder or the holder of succession certificate or other legal representative of the demised Debenture holder as the Registered Debentures holder of such Registered Holder's Debentures if such a person obtains probate or letter of administration or is the holder of succession certificate or other legal representation, as the case may be, from a Court of India having jurisdiction over the matter and delivers a copy of the same to the Issuer. The Issuer may in its absolute discretion, where it thinks fit, dispense with the production of the probate or letter of administration or succession certificate or other legal representation, in order to recognize such holder as being entitled to the Debentures standing in the name of the demised debentures holder on production of sufficient documentary proof or indemnity. In case a person other than individual holds the debentures, the rights in the debentures shall vest with the successor acquiring interest therein, including liquidator or such any person appointed as per the applicable laws.

### **Modifications of Rights**

The rights, privileges, terms and conditions attached to all Debentures may be varied, modified or abrogated with the consent, in writing, of those holders of the Debentures who hold at least three-fourths of the outstanding amount of Debentures or with the sanction accorded pursuant to a resolution passed at a meeting of the Debenture holders, carried by a majority consisting of not less than three-fourths of the persons voting there upon a show of hands or, if a poll is demanded by a majority representing not less than three-fourths in value of the votes cast on such poll, provided that nothing in such consent or resolution shall be operative against the Issuer if the same are not accepted in writing by the Issuer.

## **Notices**

The notices, communications and writings to the Debenture holder(s) required to be given by the Issuer shall be deemed to have been given if sent by Registered Post to the Registered Debenture holder(s) at the address of the Debenture holder(s) registered with the Corporate Office.

All notices, communications and writings to be given by the Debenture holder(s) shall be sent by Registered Post or by hand delivery to the Issuer at Corporate Office or to such persons at such address as may be notified by the Issuer from time to time and shall be deemed to have been received on actual receipt.

## **Rights of Debentureholders**

The Debenture holder (s) shall not be entitled to any right and privileges of shareholders other than those available to them under the Statutory Act. The Debenture shall not confer upon the holders the right to receive notice(s) or to attend and to vote out any General Meeting(s) of the Company.

## **Future Borrowings**

The Company will be entitled to borrow/raise loans or avail of financial assistance in whatever form including issue of Debentures/ other securities in any manner having such ranking in priority, pari passu or otherwise and change the capital structure including the issue of shares of any class, on such terms and conditions as the Company may think appropriate, without having any need to obtain the consent of, or intimation to, the Debenture holders or the Trustees in this connection.

## **Governing Laws and Jurisdiction**

The Debentures are governed by and will be construed in accordance with the Indian Law. The Issuer, the Debentures and Issuer's obligations under the Debentures shall, at all times, be subject to the directions of the Reserve Bank of India (RBI), Securities & Exchange Board of India (SEBI), Stock Exchanges and other applicable laws and regulations from time to time. The Debenture-holders, by purchasing the Debentures, agree that the Mumbai High Court shall have exclusive jurisdiction with respect to matters relating to the Debentures.

Over and above, the said debentures shall be subject to the term and conditions as contained in the offer letter /term sheet, application form and the Debenture Trust Deed / Trustee Agreement.

If the interest payment date falls on a holiday, the payment may be made on the following working day however the dates of the future coupon payments would be as per the schedule originally stipulated at the time of issuing the security. In other words, the subsequent coupon schedule would not be disturbed merely because the payment date in respect of one particular coupon payment has been postponed earlier because of it having fallen on a holiday.

In the above case, February 03, 2018 is a Saturday, thus the coupon would be payable on February 05, 2018 i.e. the next working day. However the calculation for payment of interest will be only till February 02, 2018, which would have been the case if February 03 & February 04, 2018 were not a holiday.

In case of a leap year, if February 29 falls during the tenor of a security, then the number of days shall be reckoned as 366 days (Actual/Actual day count convention) for a whole one year period, irrespective of whether the interest is payable annually, half yearly, quarterly or monthly etc. It is thus emphasized that for a half yearly interest payment, 366 days would be reckoned twice as the denominator; for quarterly interest, four times and for monthly interest payment, twelve times.

In the above example, in case of the leap year (i.e., 2020), 366 days would be reckoned as the denominator (Actual/Actual), for payment of interest, in period February 03, 2020 to December 21, 2020.

Dear Mr. Prajapati,

**Re: Mahindra & Mahindra Financial Services Limited (MMFSL)**

India Ratings (see definition below) communicates the following ratings of MMFSL:-

- INR175bn non-convertible debentures (NCD): 'IND AAA' Outlook Stable

Out of the above rated amount INR158.2bn of NCD is outstanding.

In issuing and maintaining its ratings, India Ratings relies on factual information it receives from issuers and underwriters and from other sources India Ratings believes to be credible. India Ratings conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction.

The manner of India Ratings' factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors.

Users of India Ratings' ratings should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information India Ratings relies on in connection with a rating will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to India Ratings and to the market in offering documents and other reports. In issuing its ratings India Ratings must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings can be affected by future events or conditions that were not anticipated at the time a rating was issued or affirmed.

India Ratings seeks to continuously improve its ratings criteria and methodologies, and periodically updates the descriptions on its website of its criteria and methodologies for securities of a given type. The criteria and methodology used to determine a rating action are those in effect at the time the rating action is taken, which for public ratings is the date of the related rating action commentary. Each rating action commentary provides information about the criteria and methodology used to arrive at the stated rating, which may differ from the general criteria and methodology for the applicable security type posted on the

Ratings are based on established criteria and methodologies that India Ratings is continuously evaluating and updating. Therefore, ratings are the collective work product of India Ratings and no individual, or group of individuals, is solely responsible for a rating. All India Ratings reports have shared authorship. Individuals identified in an India Ratings report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only.

Ratings are not a recommendation or suggestion, directly or indirectly, to you or any other person, to buy, sell, make or hold any investment, loan or security or to undertake any investment strategy with respect to any investment, loan or security or any issuer. Ratings do not comment on the adequacy of market price, the suitability of any investment, loan or security for a particular investor (including without limitation, any accounting and/or regulatory treatment), or the tax-exempt nature or taxability of payments made in respect of any investment, loan or security. India Ratings is not your advisor, nor is India Ratings providing to you or any other party any financial advice, or any legal, auditing, accounting, appraisal, valuation or actuarial services. A rating should not be viewed as a replacement for such advice or services. Investors may find India Ratings' ratings to be important information, and India Ratings notes that you are responsible for communicating the contents of this letter, and any changes with respect to the rating to investors.

It is important that you promptly provide us with all information that may be material to the ratings so that our ratings continue to be appropriate. Ratings may be raised, lowered, withdrawn, or placed on Rating Watch due to changes in, additions to, accuracy of or the inadequacy of information or for any other reason India Ratings deems sufficient.
