### PART B

#### OVERALL RATE

"**Overall Rate**" shall mean an IRR equivalent to:

- (i) if the CAGR on the shares of Crompton Greaves ("**CG Shares**") (including but not limited to, distributions and price appreciation) based on 'Initial Stock Price' and "Final Stock Price" as defined hereunder ("**Reference Entity 1 CAGR**") is less than 15.5%, then an IRR of 15.5%; and
- (ii) if the Reference Entity 1 CAGR is equal to or greater than 15.5%, the IRR calculated in accordance with the following formula:

$15.5\% \text{ IRR} + 25\% \times (\text{Reference Entity 1 CAGR} - 15.5\%)$ , subject to a maximum of 19.3% IRR.

Provided however that in the event of an Early Redemption of the Debentures or a Mandatory Redemption of the Debentures pursuant to the occurrence of the Identified Events, other than out of and to the extent of the proceeds of sale of any or all of the CG Shares held by the Issuer, the "**Overall Rate**" shall mean an IRR (as on the date of payment of the redemption amounts to the relevant Debenture Holders) of 19.3%.

shall not be included for the calculation of the CAGR as long as such dividends realized on the CG Shares provided by the Issuer are utilized for the prepayment of the Debentures.

- (d) The business basis for calculation of the Initial Stock Price and the Final Stock Price shall be the same, and the Debenture Trustee and the Issuer may mutually agree to adjust the business basis for calculation of either the Initial Stock Price or the Final Stock Price, to the extent required to ensure that the business basis for both the Initial Stock Price and the Final Stock Price is the same; and
