## **CREDIT RATING**

"CRISIL PP-MLD AAr/Stable" (pronounced "CRISIL PP-MLD double A r rating with stable outlook") by CRISIL Limited for Rs. 500 Crores Long Term Principal Protected Market Linked Debenture issue. Instruments with this rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such instruments carry very low credit risk. A prefix of 'PP-MLD' indicates that the instrument is a principal-protected market linked debenture. The terms of such instruments indicate that while the issuer promises to pay back the face value/principal of the instrument, the coupon rates of these instruments will not be fixed, and could be linked to one or more external variables such as commodity prices, equity share prices, indices, or foreign exchange rates. The 'r' suffix indicates that payments to investors will not be fixed, and could be linked to one or more external variables on the rated instrument have significant risks other than credit risk. The terms of the instrument specify that the payments to investors will not be fixed, and could be linked to one or more external variables, or foreign exchange rates. This could result in variability in returns because of adverse movement in value of the external variables, and/or possible material loss of principal on early redemption of the instrument. The risk of such adverse movement in price / value is not addressed by the rating. CRISIL reserves the right to suspend, withdraw, or revise the rating / outlook assigned at any time, on the basis of new information, or unavailability of information or other circumstances which CRISIL believes may have impact on the rating.

Form. Further, modifications/additions in the power of attorney or authority should be delivered to the Company at its Office.

### PAN

Each of the applicants should mention his/her/their PAN allotted under the IT Act. Applications without this will be considered incomplete and are liable to be rejected.

## **Basis of Allotment**

The Company has the sole and absolute right to allot the Debentures to any applicant.

## **Right to Accept or Reject Applications**

The Company is entitled at its sole and absolute discretion to accept or reject any application, in part or in full, without assigning any reason. Application Forms that are not complete in all respects shall be rejected at the sole and absolute discretion of the Company.

## Payment of Coupon

Coupon will be paid only to the Debenture holders registered in the Register of Debenture holders or to the Beneficial Owners. Coupon on the Debentures, if any shall be payable on the Redemption Date. The determination of the persons entitled to receive Coupon in respect of the Debentures (i.e., persons whose names are registered in the register of Debenture holders or the Depositories' record) shall be made on the Record Date. In the case of joint holders of Debentures, Coupon shall be payable to the first named Debenture holder.

## Redemption

The entire principal amount of the Debentures will be repaid, on or before the Redemption Date. No surrender of debentures by the debentureholders will be allowed prior to the redemption date.

The Debentures held in the dematerialised form shall be taken as discharged on payment of the redemption amount by the Company on maturity to the registered debentureholders whose name appears in the Register of debentureholders on the record date. Such payment will be a legal discharge of the liability of the Company towards the debentureholders. On the Company dispatching the amount as specified above in respect of the Debentures, the liability of the Company shall stand extinguished.

The Company's liability to the debentureholders towards all their rights including for payment or otherwise shall cease and stand extinguished from the due dates of redemption in all events. Further the Company will not be liable to pay any Coupon or compensation from the dates of such redemption.

### **Right to Re-purchase and Re-issue the Debentures**

The Company will have power, exercisable at its sole and absolute discretion from time to time, to re-purchase a part or all of its Debentures from the secondary markets or otherwise, at any time prior to the Redemption Date, subject to applicable law and in accordance with the applicable guidelines/regulations, if any.

In the event of a part or all of its Debentures being repurchased as aforesaid or redeemed under any circumstances whatsoever, the Company shall have, and shall be deemed always to have had, the power to reissue the Debentures either by reissuing the same Debentures or by issuing other debentures in their place.

Further the Company, in respect of such re-purchased/re-deemed Debentures shall have the power, exercisable either for a part or all of those Debentures, to cancel, keep alive, appoint nominee(s) to hold or reissue at such price and on such terms and conditions as it may deem fit and as permitted by law.

### Place, Currency and Mode of Payment

All obligations of the Company on the Debentures including Coupon, are payable at Mumbai in Indian rupees only. The payments will be made through cheques or RTGS/NEFT/Fund Transfer mode.

### **Issue of Debentures In Dematerialised Form**

The Debentures will be issued only in dematerialized form. The trading in Debentures will be in dematerialized mode only. The Company has made arrangements with the depositories for the issue of the Debentures in dematerialised form. Investors will have to hold the Debentures in dematerialised form as per the provisions of Depositories Act. The Depository Participant's name, DP-ID and beneficiary account number must be mentioned at the appropriate place in the Application Form. The Company shall take necessary steps to credit the Debentures allotted to the depository account of the investor.

#### Succession

In the event of demise of a Registered Debenture holder of the Debentures, or the first holder in the case of joint holders, the Company will recognize the executor or administrator of the demised Debenture holder or the holder of succession certificate or other legal representative of the demised Debenture holder as the Registered Debentures holder of succession certificate or other legal representation, as the case may be, from a Court in India having jurisdiction over the matter and delivers a copy of the same to the Company. The Company may in its absolute discretion, where it thinks fit, dispense with the production of the probate or letter of administration or other legal representation, in order to recognize such holder as being entitled to the Debentures standing in the name of the demised Debenture holder(s) on production of sufficient documentary proof or indemnity. In case a person other than individual holds the Debentures, the rights in the Debentures shall vest with the successor acquiring interest therein, including liquidator or such any person appointed as per the applicable law.

#### Notices

The notices, communications and writings to the Debenture holder(s) required to be given by the Company shall be deemed to have been given if sent by registered post/courier to the Registered Debenture holder(s) at the address of the Debenture holder(s) registered with the Corporate Office.

All notices, communications and writings to be given by the Debenture holder(s) shall be sent by registered post or by hand delivery to the Company at its Corporate Office or to such persons at such address as may be notified by the Company from time to time and shall be deemed to have been received on actual receipt of the same.

### **Rights of Debenture holders**

The Debenture holder(s) shall not be entitled to any right and privileges of shareholders other than those available to them under the Companies Act. The Debenture shall not confer upon the holder the right to receive notice(s) or to attend and to vote at any general meeting(s) of the shareholders of the Company.

### **Modifications of Rights**

The rights, privileges and conditions attached to the Debentures may be varied, modified or abrogated upon a Special Request or by a Special Resolution duly passed at the meeting of the Debentureholders convened in accordance with the provisions set out in the Fifth Schedule of the Debenture Trust Deed.

#### **Future Borrowings**

Subject to the applicable regulations, the Company shall be entitled, from time to time, to make further issue of Debentures, other debt securities (whether pari passu or junior to the Debentures) and other instruments and securities to any person or persons including to the public or a section of the public and/or members of the Company and/or to raise further loans, advances and/or avail further financial and/or guarantee facilities from financial institutions, banks and/or any other person(s) without any further approval from or notice to the Debenture holders/Debenture Trustee.

#### **Tax Benefits**

A debenture holder is advised to consider the tax implications in respect of subscription to the Debentures after consulting his tax advisor.

### **Coupon Cheques/Refund Cheques**

Loss of Coupon cheques/refund cheques should be intimated to the Company immediately. Upon receipt of request for issue of duplicate Coupon cheques/refund cheques, the Company shall consider the same and such issue of duplicate cheques shall be governed by applicable law and any other conditions as may be prescribed by the Company.

### **Debenture Trustee**

The Issuer has received the consent of SBICAP Trustee Company Limited to act as the Trustees on behalf of the Debenture Holders. All the rights and remedies of the Debenture holders shall vest in and shall be exercised by the Debenture Trustee without referring to the Debenture holders. All investors are deemed to have irrevocably given their authority and consent to SBICAP Trustee Company Limited to act as their debenture trustee and for doing such acts and signing such documents to carry out their duty in such capacity. Any payment by the Company to the Debenture Trustee on behalf of the Debenture holders shall discharge the Company *pro tanto* to the Debenture holders. Resignation/retirement of the Debenture Trustee shall be as per terms of the trust deed executed between the Company and the Debenture Trustee. A notice in writing to the Debenture holders shall be provided for the same.

### Valuation Agency

The Company has entered into valuation agreement(s) with SEBI registered credit rating agencies namely CRISIL Limited ("CRISIL"), ICRA Limited ("ICRA") and Credit Analysis and Research Limited ("CARE"). The Issuer at its sole discretion shall appoint one of these agencies as a Valuation Agent to provide Valuation on Debentures. The details of Valuation Agent and the website link of the Valuation Agent where the Valuations shall be available will be communicated by the Issuer to the Debenture holder. Such communication shall form part of this Disclosure Document. The Valuation Agent will publish the valuation on its website at least once every calendar week. The valuation of the Debentures shall be available at http://www.edelweissfin.com/Home/Individuals.aspx and on the website of the Valuation Agent within 7 Working Days from Deemed Date of Allotment. Upon request by any Debenture Holder for the value of the Debentures, the Issuer shall arrange to provide the same. The Company reserves the right to change the Valuation Agent at its sole and absolute discretion, during the tenure of the Debentures without giving any reasons or prior notice to the Debenture holders. The Issuer shall inform about such change as and when it occurs to the Debenture holders.

### Anti Money Laundering

Since these debentures are issued in "compulsory demat mode" and the Company uses depository system for allotment of the debentures, KYC checks conducted by depository participants at the time of accepting the customer or transaction under the prevention of money laundering policy adopted by depositories or depository participant shall be considered adequate irrespective of risk level of the customer or transaction. However, as a matter of a good practice, Company may examine transactions/clients that may fall under "suspicious transactions" category as defined under Prevention of Money Laundering Act, 2002 and seek further information from the clients.

## **19. MANAGEMENT'S PERCEPTION OF RISK FACTORS**

Potential investors should consider carefully all the risk factors in this Disclosure Document for evaluating the Issuer and its business and the Debentures before making any investment decision relating to the Debentures. Unless the context requires otherwise, the risk factors described below apply to the Issuer only. If any one of the following stated risks actually occurs, the Issuer's business, financial conditions and results of operations could suffer and, therefore, the value of the Issuer's Debentures could decline.

Unless specified or quantified in the relevant risk factors, the Issuer is not in a position to quantify the financial or other implications of any risk mentioned herein below:

**1. Early Termination for Extraordinary Reasons, Illegality and Force Majeure** If the Issuer determines that, for reasons beyond its control, the performance of its obligations under the Debentures has become illegal or impractical in whole or in part for any reason, or the Issuer determines that, for reasons beyond its control, it is no longer legal or practical for it to maintain its hedging arrangements with respect to the Debentures for any reason, the Issuer may at its discretion and without obligation terminate early the Debentures. If the Issuer terminates early the Debentures, the Issuer will, if and to the

extent permitted by applicable law, pay the holder of each such Debenture an amount determined by the Calculation Agent/Issuer.

**2. Interest Rate Risk (Company specific):** Since ECLF is engaged in lending and financing activities, its business and income will largely be dependent on interest income from its operations. Interest rates are highly sensitive to many factors, including the monetary policies of RBI, deregulation of the financial sector in India, domestic and International economic and political conditions, inflation and other factors beyond the control of ECLF. Due to these factors, interest rates in India have historically experienced a relatively high degree of volatility. There can be no assurance that significant interest rate movements will not have an effect on the results of its operations.

### Interest Rate Risk on Bonds/ Government securities:

Bonds/ Government securities which are fixed return securities, run price-risk like any other fixed income security. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The level of interest rates is determined by the rates at which government raises new money through RBI, the price levels at which the market is already dealing in existing securities, rate of inflation etc. The extent of fall or rise in the prices is a function of the prevailing coupon rate, number of days to maturity of a security and the increase or decrease in the level of interest rates. The prices of Bonds/ Government securities are also influenced by the liquidity in the financial system and/or the open market operations (OMO) by RBI. Pressure on exchange rate of the rupee may also affect security prices. Such rise and fall in price of bonds/ government securities may influence valuations as and when such changes occur.

**3.** Changes or discontinuance of the Underlying: Changes in the Underlying and factors which either affect or may affect the value of the Underlying, may affect the return on an investment in the Debentures. In case of the regulators or the authorized bodies discontinuing or restricting the use of the benchmark/underlying, the Issuer will be bound to take necessary action as may be prescribed by the regulators or the authorized body or as may be required by the law or as may be required to accommodate the situation

4. Credit Risk: Any lending and investment activity by the Issuer is exposed to credit risk arising from repayment default by borrowers and other counterparties. The Issuer has a systematic credit evaluation process to monitor the performance of its asset portfolio on a regular and continual basis to detect any material development, and constantly evaluate the changes and developments in sectors in which it has substantial exposure and to take timely appropriate remedial actions. The Issuer also undertakes periodic reviews of its entire asset portfolio with a view to determine the portfolio valuation identify potential areas of action and devise appropriate strategies thereon. Despite these efforts, there can be no assurance that repayment default will not occur and in such circumstances may have an effect on its results of operations. The principal amount is subject to the credit risk of the Issuer whereby the investor may or may not recover all or part of the funds in case of default by the Issuer.

5. Returns on Debentures are subject to Model Risk: Returns on the Debentures are based on complex mathematical models involving multiple derivative exposures which may or may not be hedged and the actual behavior of the Underlying Reference Index selected for hedging may significantly differ from returns predicted by the mathematical models.

### 6. Increasing competition from banks, financial institutions and NBFCs

The successful implementation of Issuers growth plans depends on its ability to face the competition. The main competitors of the Issuer are NBFCs, financial institutions and banks. The Issuer, being an NBFC, does not have access to large quantities of low cost deposits because of which it may become less competitive. Many of its competitors have significantly greater financial, technical, marketing and other resources. Many of them also offer a wider range of services and financial products than the Issuer does and have greater brand recognition and a larger client base. As the Issuer ventures into offering newer products, it is likely to face additional competition from those who may be better capitalised, have longer operating history and better management. If the Issuer is unable to manage its business and compete effectively with current or future competitors it might impede its competitive position and profitability.

## 7. Downgrading in Credit Rating

CRISIL Limited has assigned "CRISIL PP-MLD AAr/Stable" (pronounced "CRISIL PP-MLD double A r rating with stable **outlook**") for long term borrowings through NCDs. The Issuer cannot guarantee that this rating will not be downgraded. In the event of deterioration in the financial health of the Issuer, there is a possibility that the Rating Agency may downgrade the rating of the Debentures. Such a downgrade in the credit rating may lower the value of the Debentures and may also result in the Issuer having to withdraw this borrowing programme.

### 8. Security may be insufficient to redeem debentures

In the event that the company is unable to meet its payment and other obligations towards investors under the terms of the debentures, the Debenture Trustee may enforce the security as per the terms of security documents, and other related documents. The Debenture Holder(s)'recovery in relation to the debentures will be subject to (a) the market value of such secured property, (b) finding willing buyer for the security at a price sufficient to repay debenture holder(s)'amounts outstanding under the debentures. The value realized from the enforcement of the security may be insufficient to redeem the debentures.

### 9. Repayment is subject to the credit risk of issuer

Potential investors should be aware that receipt of the principal amount, (i.e. the redemption amount) and any other amounts that maybe due in respect of the debentures is subject to the credit risk of the Issuer. Potential investors acknowledge the risk that the issuer may not be able to satisfy their obligations under the debentures. In the event that bankruptcy proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy are instituted by or against the issuer, the payment of sums due on the debentures may not be made or may be substantially reduced or delayed.

## EXTERNAL RISK FACTORS

## 1. The Debentures may be illiquid

The Company intends to list the Debentures on the WDM segment of the BSE. The Company cannot provide any guarantee that the Debentures will be frequently traded on the Stock Exchange(s) and that there would be any market for the Debenture(s). It is not possible to predict if and to what extent a secondary market may develop in the Debentures or at what price the Debentures will trade in the secondary market or whether such market will be liquid or illiquid. The fact that the Debentures may be so listed or quoted or admitted to trading does not necessarily lead to greater liquidity. The more limited the secondary market is, the more difficult it may be for holders of the Debentures to realise value for the Debentures prior to settlement of the Debentures.

## 2. A slowdown in economic growth in India

A slowdown in the Indian economy / GDP may adversely affect Company's business, including its ability to enhance its asset portfolio and the quality of its assets, and its ability to implement certain measures could be adversely affected by a movement in interest rates, or various other factors affecting the growth of industrial, manufacturing and services sector or a general down trend in the economy. Any adverse revision to India's credit rating for domestic and international debt by international rating agencies may adversely impact the Company's ability to raise additional financing and the interest rates and other commercial terms at which such additional financing is available.

### 3. Material changes in regulations to which the Company is subject

NBFCs in India are subject to detailed supervision and regulation by the RBI, though currently NBFCs not accepting public deposits are exempt from many provisions. In addition, the Company is generally subject to changes in Indian law, as well as to changes in regulations and policies and accounting principles. The RBI also requires the Company to make provisions in respect of NPAs. Any changes in the regulatory framework affecting NBFCs including the provisioning for NPAs or capital adequacy requirements could adversely affect the profitability of the Company or its future financial performance by requiring a restructuring of its activities, increasing costs or otherwise. The Company is subject to certain statutory,

regulatory, exposure and prudential norms and this may limit the flexibility of the Company's loans, investments and other products.

## Conditions in the Indian Debt market may affect the coupon on the Debentures.

### Applicable to product based on G Sec:

Even though the Government securities market is more liquid compared to other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through. The Central and State Governments are the issuers of the local currency debt. The Government raises money to meet its capital and revenue expenditure by issuing debt or discounted securities. Since these securities carry minimal risks, they may command lower yields.

The performance may be affected by changes in Government policies, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems

The Indian securities markets are smaller than securities markets in more developed economies and the regulation and monitoring of Indian securities markets and the activities of investors, brokers and other participants differ, in some cases significantly, from those in the more developed economies

### Conditions in the Indian Equity market may affect the coupon on the Debentures.

### Applicable to Index Linked product:

The Indian stock exchanges have also experienced problems that have affected the market price and liquidity of the securities of Indian companies. In addition, the governing bodies of the Indian stock exchanges have from time to time restricted securities from trading, limited price movements and restricted margin requirements. If similar problems occur in the future, the market price and liquidity of the Equity Shares could be adversely affected, thereby affecting the indices.

#### **Potential Conflicts of Interest**

The Company has appointed Edelcap Securities Limited, its affiliate as its calculation agent for the purposes of calculating amounts payable or deliverable to holders under these Debentures. Under certain circumstances, the agent as an affiliate and its responsibilities as calculation agent for the Debentures could give rise to conflicts of interest. The calculation agent is required to carry out its duties in good faith and using its reasonable judgement. However, because the Company may control the affiliate, potential conflicts of interest could arise. The Issuer may enter into an arrangement with an affiliate to hedge market risks associated with its obligations under the Debentures. Such an affiliate would expect to make a profit in connection with this arrangement. The Company may not seek competitive bids for such arrangements from unaffiliated parties.

Rating	"CRISIL PP-MLD AAr/Stable" (pronounced "CRISIL PP-MLD double A r rating with stable outlook") by CRISIL Limited for Rs. 500 Crores Long Term Principal Protected Market Linked Debenture issue. Instruments with this rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such instruments carry very low credit risk.A prefix of 'PP-MLD' indicates that the instrument is a principal- protected market linked debenture. The terms of such instruments indicate

	that while the issuer promises to pay back the face value/principal of the instrument, the coupon rates of these instruments will not be fixed, and could be linked to one or more external variables such as commodity prices, equity share prices, indices, or foreign exchange rates. The 'r' suffix indicates that payments on the rated instrument have significant risks other than credit risk. The terms of the instrument specify that the payments to investors will not be fixed, and could be linked to one or more external variables such as commodity prices, equity indices, or foreign exchange rates. This could result in variability in returns because of adverse movement in value of the external variables, and/or possible material loss of principal on early redemption of the instrument. The risk of such adverse movement in price / value is not addressed by the rating. CRISIL reserves the right to suspend, withdraw, or revise the rating / outlook assigned at any time, on the basis of new information, or unavailability of information or other circumstances which CRISIL believes may have impact on the rating.

	with stable outlook") by CRISIL Limited for Rs. 500 Crores Long Term Principal Protected Market Linked Debenture issue. Instruments with this rating are considered to have high degree of safety regarding timely servicing of financial obligations. Such instruments carry very low credit risk.A prefix of 'PP-MLD' indicates that the instrument is a principal- protected market linked debenture. The terms of such instruments indicate that while the issuer promises to pay back the face value/principal of the instrument, the coupon rates of these instruments will not be fixed, and could be linked to one or more external variables such as commodity prices, equity share prices, indices, or foreign exchange rates. The 'r' suffix indicates that payments on the rated instrument have significant risks other than credit risk. The terms of the instrument specify that the payments to investors will not be fixed, and could be linked to one or more external variables such as commodity prices, equity indices, or foreign exchange rates. This could result in variability in returns because of adverse movement in value of the external variables, and/or possible material loss of principal on early redemption of the instrument. The risk of such adverse movement in price / value is not addressed by the rating. CRISIL reserves the right to suspend, withdraw, or revise the rating / outlook assigned at any time, on the basis of new information, or unavailability of information or other circumstances which CRISIL believes may have impact on the rating.

# **Review report**

# To the Board of Directors of ECL Finance Limited

We have reviewed the accompanying statement of unaudited financial results of ECL Finance Limited ('the Company') for the half year ended 30 September 2016 ('the Statement'). This Statement has been prepared by the Company pursuant to Regulation 52 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulation, 2015. This Statement is the responsibility of the Company's management and has been approved by the Board of Directors in its meeting held on 8 November 2016. Our responsibility is to issue a report on the Statement based on our review.

We conducted our review in accordance with the Standard on Review Engagement (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review is limited primarily to inquiries of the Company personnel and analytical procedures applied to financial data and thus provides less assurance than an audit. We have not performed an audit and accordingly, we do not express an audit opinion.

Based on our review conducted as above, nothing has come to our attention that causes us to believe that the accompanying Statement prepared in accordance with the applicable accounting standards notified under Section 133 of the Companies Act, 2013 read with Rule 7 of the Companies (Accounts) Rules, 2014 and other recognised accounting practices and policies has not disclosed the information required to be disclosed in terms of Regulation 52 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, including the manner in which it is to be disclosed, or that it contains any material misstatement or that it has not been prepared in accordance with the relevant prudential norms issued by the Reserve Bank of India in respect of income recognition, asset classification, provisioning and other related matters.

#### Detailed Rationale

+91 22 3342 3000 CRISIL has assigned its 'CRISIL PP-MLD AAr/Stable' rating to the Rs.500 crore long term principal protected market linked debentures of ECL Finance Limited (ECLF; part of the Edelweiss group), It has also reaffirmed its rating on the existing debt instruments and bank facilities at 'CRISIL AA/CRISIL PP-MLD AAr/Stable/CRISIL PP-MLD A1+r/CRISIL A1+'.

On December 26, 2016, CRISIL had upgraded the long term ratings of the Edelweiss group companies based on the increasing share of retail and small and medium enterprise (SME) loans to its overall credit book over the past few years while maintaining its asset quality. Also, the rating upgrade reflected the lower than expected leverage level of the group.

The ratings continue to reflect CRISIL's expectation of sustained diversification in the Edelweiss group's business and earnings profile over the medium term, and the group's demonstrated ability to build significant competitive positions in multiple lines of business. Furthermore, given the group's established market position in capital market-related segments, it will continue to benefit from the improved operating environment for these businesses, resulting in higher earnings and accruals to capital over the medium term. The ratings also reflect the Edelweiss group's comfortable liquidity policy.

These rating strengths are partially offset by the vulnerability of the group's asset quality to the inherent concentration risks in the wholesale lending segment. Furthermore, the group's gearing, although being lower than CRISIL's expectations, is higher than its peers. Also, its profitability ratios are lower than those of its peers.

### Analytical Approach

For arriving at the ratings, CRISIL has combined the business and financial risk profiles of all entities in the Edelweiss group because of their significant operational and financial integration.

# Key Rating Drivers & Detailed Description

#### Strengths

\* **Diversified business profile:** The Edelweiss group has been diversifying within each of its key businesses, as well as entering new businesses, over the past few years. Many of these have now attained reasonable scale and are expected to lend greater stability to the group's earnings profile. Within capital markets, retail broking volumes now constitute around half the group's overall broking volumes. In the commodities business, agricultural commodities became a focus area in fiscals 2015 and 2016 with the group rapidly scaling up the business. The current focus is on building the agri value chain business. In terms of new business lines, the group's life insurance business has grown significantly and is expected to break-even over the next five to six years. As the group's retail and SME businesses expand and life insurance business turns profitable, the revenue contribution from the retail segments is expected to increase.

\* **Demonstrated ability to build significant competitive positions across businesses:** The Edelweiss group has built significant competitive positions in multiple business segments. While it remains a large player in the traditional broking business, it has one of the largest wholesale lending books among non-banks; this portfolio stood at Rs 13310 crore (excluding lending to associate company) as on September 30, 2016. In the distressed assets segment, Edelweiss Asset Reconstruction Company (EARC), is now the largest in the country with total securities receipts managed of Rs 31810 crore as on September 30, 2016. EARC became a subsidiary of the Edelweiss Group in the second quarter of fiscal 2017 and the group holds 75% stake in this company as on date. In the commodities space, the group is one of the largest non-bank importers of precious metals. However, the group has scaled down its agricultural commodities trading business and is focusing on the agricultural commodities value chain business.

\* Established position in the capital market businesses: The group's earnings and accrual to capital are expected to benefit from the buoyancy in the capital markets over the medium term, given the group's established market position in related businesses. Profit from the fee-based capital markets and asset management businesses increased in fiscal 2016 compared with fiscal 2015, and is expected to witness healthy growth over the medium term. The group has an established franchise in institutional broking and investment banking, and an expanding presence in retail broking, wealth management, and asset management. It is also one of the largest Indian institutional brokerage houses, with over 300 foreign and domestic institutional clients. The retail broking franchise is also expanding, with around 5,10,000 clients as on September 30, 2016. The Edelweiss group operates across the corporate finance and advisory domains-equity markets, private equity, mergers and acquisitions, advisory structured financial syndication, and debt issues. The group's wealth business and alternate assets business has also witnessed significant growth. The group's assets under advice in the global wealth management business were Rs 44100 crore and the assets under management in the asset management business were Rs 6900 crore and the assets under management of the EARC were Rs. 31810 crore as on September 30, 2016.

\* **Comfortable liquidity:** The Edelweiss group also has a comfortable liquidity policy. The liquidity cushion, which was around Rs 1000 crore till March 31, 2014, increased to Rs 3300 crore as on September 30, 2016 and is being further increased to be at a level of around 10% of the balance sheet size. The liquidity cushion consists of unencumbered government securities and fixed deposits, unutilised bank lines, and liquid shares. To further manage liquidity requirements, the group has placed a limit on the quantum of debt coming up for repayment over a three-month period. The group's assets and liabilities continue to be well-matched as can be seen from the trend in cumulative mismatches in three-month and one-year buckets. CRISIL believes that the group's focus on liquidity will hold it in good stead as it grows its balance sheet.

#### Weakness

\* Asset quality exposed to concentration risks inherent in wholesale lending: However, the Edelweiss group's asset quality will remain vulnerable to the concentration risks inherent in its wholesale loan book, despite the strong focus on collateral. As on September 30, 2016, the group's wholesale book constituted almost 62% of its total loan portfolio, with the 10 largest loans constituting around 19% of the wholesale portfolio. Furthermore, around 44% of the wholesale portfolio comprises real estate loans; this segment is vulnerable to cyclical downturns. The group follows strong credit appraisal and risk management practices and has good collateral cover for its wholesale loans; the level of gross non-performing assets was comfortable, at 1.46% as on September 30, 2016. However, CRISIL believes that the inherent nature of the loan portfolio renders the group vulnerable to economic stress; any sharp deterioration in asset quality will also impact its profitability and capital. The proportion of wholesale lending in the overall credit book remains a key rating monitorable.

\* **High gearing:** Though the group's gearing improved in fiscal 2016 after increasing significantly in fiscal 2015, it is higher than that of peers. As on September 30, 2016, gearing was 6.4 times against 4.2 times as on March 31, 2014, and 7.0 times as on December 31, 2015. At the same time, the net gearing excluding the liquid assets of Balance Sheet Management Unit (BMU), stood at 5.1 times as on September 30, 2016. This increase has been due to expansion in both the credit and commodities businesses, requirement for higher margins in the broking business, as well as increase in treasury/BMU assets. With expected growth across businesses, especially credit, over the medium term, the gearing is expected to increase to around 7.5 times (net gearing of below 6.5 times) over the medium term. While the risks of a higher gearing are partially mitigated by the group's limits on short-term debt maturity and the liquidity cushion available, the pace of increase in gearing will remain a key rating monitorable.

\* Lower profitability than peers: The Edelweiss group's profitability ratios are lower than that of other large financial sector groups; the group's return on assets was 1.2% and return on equity was 10.9% in 2015-16. For the half year ended September 30, 2016, the RoA (annualised) was 1.6% while the RoE (annualised) was 12.1%. While profitability has been improving over the past few years, it remains lower than that of its peers. This is because a significant portion, over 25%, of the group's capital (equity plus borrowings) is employed in businesses or investments that are either low-yielding or loss-making at this point. The group has a large balance sheet management portfolio, which is used for managing their liquidity. This portfolio comprises largely of government securities, fixed deposits, and corporate bonds, which have a low return on capital employed. Furthermore, the insurance business continues to be loss-making (net loss of Rs 155 crore in 2015-16, out of which Edelweiss group's share of loss was Rs. 104 crore). Expected improvement in the profitability of the insurance business and reduction in the share of funds allocated to BMU will benefit the group's profitability only over the long term.

#### **Outlook: Stable**

CRISIL believes that the Edelweiss group will benefit over the medium term from the increasing diversification in its business and earnings profile, its ability to build a significant market presence in its chosen lines of business, its established position in capital-market-related businesses, and its comfortable liquidity policy. The outlook might be revised to 'Positive' in case of a significant improvement in the capital position of the group, especially significant reduction in its gearing levels along with a continued increase of retail and SME loan share in the overall credit book. Conversely, the outlook may be revised to 'Negative' in case of asset quality challenges in the Edelweiss group's lending business or a more-than-expected increase in the group's gearing. It might also be revised to 'Negative' in case there is unrelated diversification by the group.

### About the Group

The Edelweiss group comprised Edelweiss Financial Services Ltd (EFSL, the parent company), 63 subsidiaries, and 6 associate companies as on March 31, 2016. The group conducts its business from 237 offices (including 9 international offices) across 122 cities as on March 31, 2016. Its main business lines are credit (comprising wholesale, retail, SME, and agricultural financing), non-credit businesses (comprising financial markets-related fee businesses, asset management and commodities) and life insurance. These businesses entail loans to corporates and individuals, mortgage finance, including loans against property and small-ticket housing loans, SME finance, commodity sourcing and distribution, life insurance, institutional and retail equity broking, corporate finance and advisory, wealth management, third-party financial products distribution, and alternative and domestic asset management. In addition, the balance sheet management unit focuses on liquidity and asset-liability management.

For 2015-16, the Edelweiss group reported profit after tax (PAT) of Rs.410 crore on total income of Rs 5320 crore, vis-a-vis PAT of Rs 330 crore on total income of Rs 3910 crore for fiscal 2015. For the half year ended September 30, 2016, the group reported a PAT of Rs 280 crore on a total income of Rs 3070 crore as against Rs 190 crore and Rs 2400 crore respectively in the corresponding period in the previous year.

ECLF, a non-banking financial company, along with Edelweiss Housing Finance Ltd, is the primary lending arm of the Edelweiss group. In 2007, ECLF began extending collateralised loans to corporates and commenced initial public offering financing and employee stock option plan financing activities. SME loans and a part of the loans against property portfolio, managed by the retail finance business of Edelweiss, are also booked in ECLF.

For 2015-16, ECLF reported PAT of Rs 250 crore on total income of Rs 1890 crore, vis-a-vis PAT of Rs 180 crore on total income of Rs 1240 crore for fiscal 2015. For the half year ended September 30, 2016, ECLF reported a PAT of Rs 180 crore on a total income of Rs 1190 crore.

**Any other information:** On December 26, 2016, CRISIL had upgraded the long term ratings of the Edelweiss group companies based on the increasing share of retail and small and medium enterprise (SME) loans to its overall credit book over the past few years. In terms of diversification in lending, the share of retail and small and medium enterprise (SME) loans increased to almost 38% per cent of the group's overall loan portfolio (excluding loans to its associate company and distressed assets credit) as on September 30, 2016 from 18% four years earlier; this portfolio stood at Rs 8040 crore as on September 30, 2016. The share is expected to continue to increase further over the medium term with the group planning to do most of its incremental real estate lending from the real estate fund which is being launched. The increasing trend in share of retail and SME loans in the overall credit book is expected to increase the granularity of its lending portfolio. The group has scaled up its retail and SME credit book while maintaining its asset quality. The gross non-performing assets (GNPA) stood at 1.46% as on September 30, 2016 and has been under 1.5% for the past several years. However, the GNPA levels have seen an increasing trend (increasing from 0.95% as on March 31, 2014) and it remains a key rating monitorable. The gearing decreased marginally to 6.4 times as on September 30, 2016, from 6.6 times on March 31, 2016. At the same time, the net gearing excluding the liquid assets of Balance Sheet Management Unit (BMU) stood at 5.1 times as on September 30, 2016. Although the gearing has been lower than CRISIL's expectations, it still remains higher than its peers.

#### About CRISIL Ratings

CRISIL Ratings is part of CRISIL Limited ("CRISIL"). We pioneered the concept of credit rating in India in 1987. CRISIL is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI"). With a tradition of independence, analytical rigour and innovation, CRISIL sets the standards in the credit rating business. We rate the entire range of debt instruments, such as, bank loans, certificates of deposit, commercial paper, non-convertible / convertible / partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 24,500 large and mid-scale corporates and financial institutions. CRISIL has also instituted several innovations in India in the rating business, including rating municipal bonds, partially guaranteed instruments and microfinance institutions. We also pioneered a globally unique rating service for Micro, Small and Medium Enterprises (MSMEs) and significantly extended the accessibility to rating services to a wider market. Over 95,000 MSMEs have been rated by us.
