### **Risk Factors**

The Issuer believes that the following risk factors may affect its ability to fulfil its obligations in respect of the Debentures issued under this Information Memorandum. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring.

The Issuer believes that the factors described below represent the principal risks inherent in investing in Debentures issued under this Information Memorandum, but the inability of the Issuer, as the case may be, to pay coupon, principal or other amounts on or in connection with any Debentures may occur for other reasons and the Issuer does not represent that the statements below regarding the risks of holding any Debentures are exhaustive.

Investors should consider the following risk factors carefully for evaluating the Issuer and its business before making any investment decision. Unless the context requires otherwise, the risk factors described below apply to the Issuer only.

**(a) Repayment of principal or coupon is subject to the credit risk of the Company**

Investors should be aware that receipt of the principal amount coupon and any other amounts that may be due in respect of the Debentures is subject to the credit risk of the Company and the potential investors assume the risk that the Issuer may not be able to satisfy their obligations under the Debentures. In the event that bankruptcy proceedings or composition, scheme of arrangement or similar proceedings to avert bankruptcy are instituted by or against the Company, the payment of sums due on the Debentures may be substantially reduced or delayed.

**(b) The secondary market for the Debentures may be illiquid**

The Debentures may be very illiquid and no secondary market may develop in respect thereof. Even if there is a secondary market for the Debentures, it is not likely to provide significant liquidity. Any such Debenture so purchased may be required to be held or resold or surrendered for cancellation, to the extent that an issue of Debentures becomes illiquid. An Investor may have to hold the Debenture until redemption to realize value.

**(c) Credit Risk & Rating Downgrade Risk**

The Rating Agency has assigned the credit ratings to the Debentures. In the event of deterioration in the financial health of the Issuer, there is a possibility that the rating agency may downgrade the rating of the Debentures. In such cases, the Issuer may not be in position to meet its financial commitments in respect of the Debentures.

**(d) No debenture redemption reserve**

No debenture redemption reserve is being created for the present Issue. Pursuant to the Rule 18(7)(b)(ii) of the Companies (Share Capital and Debentures) Rules, 2014, companies which are registered as NBFCs with the RBI are not required to create a debenture redemption reserve for any private placement of debentures.

---

(e) **Tax Considerations and Legal Considerations**

Special tax, accounting and legal considerations may apply to certain types of Investors. Prospective Investors are urged to consult with their own tax and legal advisors to determine any tax and legal implications of this investment.

(f) **Material changes in regulations to which the Issuer is subject could impair the Issuer's ability to meet payment or other obligations**

The Issuer is subject generally to changes in Indian Law, as well as to changes in government regulations, changes made in the regulations by applicable regulators in India and policies and accounting principles. Any changes in the regulatory framework affecting NBFCs or companies in general, could adversely affect the profitability of the Issuer or its future financial performance, by requiring a restructuring of its activities, increasing costs or otherwise.

**Strong solvency parameters and comfortable liquidity position**

The company continues to maintain robust capitalization levels supported by regular equity infusions. During FY17, a set of investors infused equity capital of Rs.150 crore in the company. As on 31st March, 2017, ICF's CAR stood at 33.74% [PY: 34.15%] while Tier I CAR stood at 33.37% [PY: 33.77%]. High proportion of Tier I capital provides considerable headroom for raising Tier II capital to support future business growth. Further, the company had comfortable gearing levels of 1.82x as on March 31, 2017 [PY: 1.97x]. As on March 31, 2017, the liquidity profile of ICF was comfortable post inclusion of undrawn bank lines. The company has plans to enter into the CV financing business and will be rolling this product in the next few months.

Rationale Report

CARE Ratings  
Professional Risk Opinions

**Healthy profitability parameters**

During FY17, the company reported 12.0% y-o-y growth in total income vis a vis 21.50% growth in the previous year owing to subdued economic factors. Despite slowdown in portfolio growth, the company witnessed improved interest spreads due to reduction in cost of borrowings that declined by roughly 66 bps. Cost to income ratio of the company increased to 17.57% during FY17 as against 16.03% during FY16 due to company's foray in SME financing and the resultant rise in branch and manpower expenses. The company has 6 operational branches as on March 31, 2017 majorly catering to SME financing business. Higher operating expenses and low portfolio growth has impacted profitability parameters of the company in FY17. The company's operating costs are expected to rise in near to medium term given that the company plans to foray into newer geographies for tapping SME financing business. The company's Net Interest Margins (NIMs) stood stable at 6.30% in FY17 (PY: 6.35%). The company reported PAT of Rs.209 crore in FY17 as against PAT of Rs.191 crore in FY16 registering a growth of 9 % y-o-y. Return on Total Assets (RoTA) for the company stood at 4.11% in FY17 as against 4.41% in FY16. Although, RoTA for the company has reduced during FY17, it still continues to remain robust.

**Comfortable Asset quality**

During FY17, total GNPA and NNPA stood at Rs72.73 crores and Rs.61.95 crore, respectively. As on March 31, 2017, GNPA and NNPA stood at 1.41% [PY: 0.23%] and 1.21% [PY: 0.19%] while net NPA to networth stood at 3.29% [PY: 0.52%]. Although the Net NPA has increased, it continues to remain comfortable.

**Moderate track record and portfolio seasoning**

ICF has a moderate operating track record as it started its wholesale lending operations in April 2011 and SME financing in March 2015. Though a significant portion of its wholesale portfolio has witnessed churn (given the average tenure of the portfolio at around 5.66 years), its SME financing portfolio is fairly nascent. The company also plans to enter into CV Financing, primarily venturing into used commercial vehicles in the Southern parts of India as the new Executive Vice Chairman and CEO Mr. R. Sridhar has extensive experience in CV financing and was associated with Shriram Group since 1985 and served as Managing Director & CEO of Shriram Transport Finance Company. Going forward, the company's ability to maintain asset quality in newer products while expanding business operations is a key monitorable.

**High customer concentration risk**

Given the bulky nature of its lending operations (around 89.13% of ICF's portfolio is wholesale in nature as on March 31, 2017), ICF is exposed to concentration risk. On the wholesale lending front, top 10 exposures as on March 31, 2017 constituted 37.6%

2017

Rationale Report

CARE Ratings  
Professional Risk Opinion

of total portfolio (P.Y.: 32.4%) and 102.9% of tangible networth (P.Y.: 90.4%). The company has ventured into SME financing from March, 2015 onwards and plans to start CV Financing which is expected to reduce concentration levels going forward.

Exposure to real estate segment

ICF continues to have high exposure to relatively riskier real estate developer funding segment. The company's real estate portfolio continued to be on higher side and constituted 38% of total portfolio outstanding as on March 31, 2017 (P.Y.: 40%).

Prospects

Due to subdued economic environment, last few years have been challenging period for the NBFCs with moderation in growth and rising delinquencies resulting in higher provisioning thereby impacting profitability. However, comfortable capitalization levels and liquidity management continue to provide comfort to the credit profile of NBFCs in spite of impact on profitability. Also with the improvement in economic environment, asset quality pressures should ease which will partially offset the impact of migration towards 90 day NPA recognition norm.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Interim standalone financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the interim standalone financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial controls relevant to the Company's preparation of the interim standalone financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the interim standalone financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the interim standalone financial statements.

**Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the accompanying interim standalone financial statements give a true and fair view in accordance with Accounting Standard (AS) 25 specified under section 133 of the Act, read with relevant rules issued thereunder.
